5. Within three months after receiving notice of the request of the adopted adult, the child-placing agency or juvenile court personnel shall notify the adoptive parents, if such adoptive parents are living and shall not make any attempt to notify the biological parents without prior written consent of such adoptive parents for adoptions instituted or completed prior to August 13, 1986, but may proceed if there is proof that the adoptive parents are deceased or incapacitated, as such term is defined in chapter 475, RSMo. If the adoptive parents are living but are unwilling to give such written consent, the child-placing agency or the juvenile court personnel shall make a written report to the court stating that they were unable to notify the biological parent. If the adoptive parents are deceased or give written consent, the child-placing agency or the juvenile court personnel shall make reasonable efforts to notify the biological parents of the request of the adopted adult. The child-placing agency or juvenile court personnel may charge actual costs to the adopted adult for the cost of making such search. All communications under this subsection are confidential. For purposes of this subsection, "notify" means a personal and confidential contact with the biological parent of the adopted adult, which initial contact shall not be made by mail and shall be made by an employee of the child-placing agency which processed the adoption, juvenile court personnel or some other licensed child-placing agency designated by the child-placing agency or juvenile court. Nothing in this section shall be construed to permit the disclosure of communications privileged pursuant to section 491.060, RSMo. At the end of three months, the child-placing agency or juvenile court personnel shall file a report with the court stating that each biological parent that was located was given the following information:

- (1) The nature of the identifying information to which the agency has access;
- (2) The nature of any nonidentifying information requested;
- (3) The date of the request of the adopted adult;
- (4) The right of the biological parent to file an affidavit with the court stating that the identifying information should be disclosed;
- (5) The effect of a failure of the biological parent to file an affidavit stating that the identifying information should be disclosed.

6. If the child-placing agency or juvenile court personnel reports to the court that it has been unable to notify the biological parent within three months, the identifying information shall not be disclosed to the adopted adult. Additional requests for the same or substantially the same information may not be made to the court within one year from the end of the three-month period during which the attempted notification was made, unless good cause is shown and leave of court is granted.

7. If, within three months, the child-placing agency or juvenile court personnel reports to the court that it has notified the biological parent pursuant to subsection 5 of this section, the court shall receive the identifying information from the child-placing agency. If an affidavit duly executed by a biological parent authorizing the release of information is filed with the court, the court shall disclose the identifying information as to that biological parent to the adopted adult, provided that the other biological parent either:

- (1) Is unknown;
- (2) Is known but cannot be found and notified pursuant to section 5 of this act;
- (3) Is deceased; or
- (4) Has filed with the court an affidavit authorizing release of identifying information. If the biological parent fails or refuses to file an affidavit with the court authorizing the release of identifying information, then the identifying

information shall not be released to the adopted adult. No additional request for the same or substantially the same information may be made within three years of the time the biological parent fails or refuses to file an affidavit authorizing the release of identifying information.

8. If the biological parent is deceased but previously had filed an affidavit with the court stating that identifying information shall be disclosed, the information shall be forwarded to and released by the court to the adopted adult. If the biological parent is deceased and, at any time prior to his death, the biological parent did not file an affidavit with the court stating that the identifying information shall be disclosed, the adopted adult may petition the court for an order releasing the identifying information. The court shall grant the petition upon a finding that disclosure of the information is necessary for health-related purposes.

9. Any adopted adult whose adoption was finalized in this state or whose biological parents had their parental rights terminated in this state may request the court to secure and disclose identifying information concerning an adult sibling and upon a finding by the court that such information is necessary for urgent health-related purposes in the same manner as provided in this section. Identifying information pertaining exclusively to the adult sibling, whether part of the permanent record of a file in the court or in an agency, shall be released only upon consent of that adult sibling.

10. The central office of the **children's** division [of family services of] **within** the department of social services shall maintain a registry by which biological parents, **adult siblings**, and adoptive adults may indicate their desire to be contacted by each other. The division may request such identification for the registry as a party may possess to assure positive identifications. [If] **At the time of registry, a biological parent or adult sibling may consent in writing to the release of identifying information to an adopted adult. If such a consent has not been executed and** the division believes that a match has occurred on the registry between [both] biological parents **or adult siblings** and an adopted adult, an employee of the division shall make the confidential contact provided in subsection 5 of this section with the biological parents **or adult siblings** and with the adopted adult. If the division believes that a match has occurred on the registry between one biological parent **or adult sibling** and an adopted adult, an employee of the division shall make the confidential contact provided by subsection 5 of this section with the biological parent **or adult sibling**. The division shall then attempt to make such confidential contact with the other biological parent, and shall proceed thereafter to make such confidential contact with the adopted adult only if the division determines that the other biological parent meets one of the conditions specified in subsection 7 of this section. The biological parent, **adult sibling**, or adopted adult may refuse to go forward with any further contact between the parties when contacted by the division.

11. The provisions of this section, except as provided in subsection 5 of this section governing the release of identifying and nonidentifying adoptive information apply to adoptions completed before and after August 13, 1986.”; and

Further amend said title, enacting clause and intersectional references accordingly.

The court shall review the report and shall hold a permanency hearing within twelve months of initial placement and at least annually thereafter. The permanency hearing shall be for the purpose of determining in accordance with the best interests of the child a permanent plan for the placement of the child, including whether or not the child should be continued in foster care or whether the child should be returned to a parent, guardian or relative, or whether or not proceedings should be instituted by either the juvenile officer or the division to terminate parental rights and legally free such child for adoption.

2. In such permanency hearings the court shall consider all relevant factors including:

“143.121. 1. The Missouri adjusted gross income of a resident individual shall be the taxpayer's federal adjusted gross income subject to the modifications in this section.

2. There shall be added to the taxpayer's federal adjusted gross income:

(a) The amount of any federal income tax refund received for a prior year which resulted in a Missouri income tax benefit;

(b) Interest on certain governmental obligations excluded from federal gross income by Section 103 of the Internal Revenue Code. The previous sentence shall not apply to interest on obligations of the state of Missouri or any of its political subdivisions or authorities and shall not apply to the interest described in subdivision (a) of subsection 3 of this section. The amount added pursuant to this paragraph shall be reduced by the amounts applicable to such interest that would have been deductible in computing the taxable income of the taxpayer except only for the application of Section 265 of the Internal Revenue Code. The reduction shall only be made if it is at least five hundred dollars;

(c) The amount of any deduction that is included in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002 to the extent the amount deducted relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent the amount deducted exceeds the amount that would have been deductible pursuant to Section 168 of the Internal Revenue Code of 1986 as in effect on January 1, 2002; and

(d) The amount of any deduction that is included in the computation of federal taxable income for net operating loss allowed by Section 172 of the Internal Revenue Code of 1986, as amended, other than the deduction allowed by Section 172(b)(1)(G) and Section 172(i) of the Internal Revenue Code of 1986, as amended, for a net operating loss the taxpayer claims in the tax year in which the net operating loss occurred or carries forward for a period of more than twenty years and carries backward for more than two years. Any amount of net operating loss taken against federal income taxes but disallowed against Missouri income taxes pursuant to this paragraph since July 1, 2002, may be carried forward and taken against any loss on the Missouri income tax return for a period of not more than twenty years from the year of the initial loss.

3. There shall be subtracted from the taxpayer's federal adjusted gross income the following amounts to the extent included in federal adjusted gross income:

(a) Interest or dividends on obligations of the United States and its territories and possessions or of any authority, commission or instrumentality of the United States to the extent exempt from Missouri income taxes pursuant to the laws of the United States. The amount subtracted pursuant to this paragraph shall be reduced by any interest on indebtedness incurred to carry the described obligations or securities and by any expenses incurred in the production of interest or dividend income described in this paragraph. The reduction in the previous sentence shall only apply to the extent that such expenses including amortizable bond premiums are deducted in determining the taxpayer's federal adjusted gross income or included in the taxpayer's Missouri itemized deduction. The reduction shall only be made if the expenses total at least five hundred dollars;

(b) The portion of any gain, from the sale or other disposition of property having a higher adjusted basis to the

taxpayer for Missouri income tax purposes than for federal income tax purposes on December 31, 1972, that does not exceed such difference in basis. If a gain is considered a long-term capital gain for federal income tax purposes, the modification shall be limited to one-half of such portion of the gain;

(c) The amount necessary to prevent the taxation pursuant to this chapter of any annuity or other amount of income or gain which was properly included in income or gain and was taxed pursuant to the laws of Missouri for a taxable year prior to January 1, 1973, to the taxpayer, or to a decedent by reason of whose death the taxpayer acquired the right to receive the income or gain, or to a trust or estate from which the taxpayer received the income or gain;

(d) Accumulation distributions received by a taxpayer as a beneficiary of a trust to the extent that the same are included in federal adjusted gross income;

(e) The amount of any state income tax refund for a prior year which was included in the federal adjusted gross income;

(f) The portion of capital gain specified in section 135.357, RSMo, that would otherwise be included in federal adjusted gross income;[and]

(g) The amount that would have been deducted in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as in effect on January 1, 2002, to the extent that amount relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent that amount exceeds the amount actually deducted pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002; **and**

(h) For all tax years beginning on or after January 1, 2005, the amount of any income received for military service while the taxpayer serves in a combat zone which is included in federal adjusted gross income and not otherwise excluded therefrom. As used in this section, "combat zone" means any area which the President of the United States by Executive Order designates as an area in which armed forces of the United States are or have engaged in combat. Service is performed in a combat zone only if performed on or after the date designated by the President by Executive Order as the date of the commencing of combat activities in such zone, and on or before the date designated by the President by Executive Order as the date of the termination of combatant activities in such zone.

4. There shall be added to or subtracted from the taxpayer's federal adjusted gross income the taxpayer's share of the Missouri fiduciary adjustment provided in section 143.351.

5. There shall be added to or subtracted from the taxpayer's federal adjusted gross income the modifications provided in section 143.411." , and;

FIRST REGULAR SESSION

SIXTIETH DAY— WEDNESDAY, APRIL 27, 2005

The Senate met pursuant to adjournment.

Reverend Carl Gauck offered the following prayer:

“Teach me to do your will for you are my God. Let your good spirit lead me on a level path.” (Psalm 143:10)

My God, the days are long, the week has not ended and there is much before us to be done. In this time of final calls for decisions and actions that affect Your people we need Your guidance so we may follow the path You have laid out for us. Let Your Holy Spirit lead us and may we stay level in our thinking and daily living. In Your Holy Name we pray. Amen.

CONCURRENT RESOLUTIONS

Senator Scott offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 17

Whereas, the cost of a four-year college education increases each year; and

Whereas, in response to the ever-increasing cost of a college education, the federal government created Section 529 of the Internal Revenue Code, which authorized states to create federal tax-deferred higher education savings programs; and

Whereas, each state has established at least one higher education savings program under the auspices of Section 529; and

Whereas, the state of Missouri established the Missouri Higher Education Savings Program in 1998 to allow parents, grandparents, and any other family members or friends to create tax-deferred higher education savings accounts for a child's future education; and

Whereas, in order to encourage Missouri families to invest in the Missouri Higher Education Savings Program, the state authorizes a participant in the program to deduct up to eight thousand dollars in contributions to the program from the participant's adjusted gross income in determining the amount of state income tax owed; and

Whereas, there is a disincentive for investment in other states' higher education savings programs since the income tax deduction only applies to investments in Missouri's savings program; and

Whereas, parents and families should be afforded every opportunity to invest in the best savings programs, since the goal of higher education savings programs is to increase the amount of money available for a child's higher education:

NOW, THEREFORE, BE IT RESOLVED that the members of the Missouri Senate, Ninety-third General Assembly, First Regular Session, the House of Representatives concurring therein, hereby create a Joint Interim Committee on Investments in Higher Education Savings Programs; and

BE IT FURTHER RESOLVED that the joint interim committee shall study methods to expand investment opportunities for Missouri parents and families in higher education savings programs, while maintaining the solvency of the Missouri Higher Education Savings Program, and make recommendations to the General Assembly; and

BE IT FURTHER RESOLVED that the joint interim committee be authorized to call upon any department, office, division, or agency of this state to assist in gathering information pursuant to its objective; and

BE IT FURTHER RESOLVED that the joint interim committee herein established shall consist of ten members, five of which shall be members of the Senate appointed by the President Pro Tem of the Senate, with at least two members from the minority party; and five shall be members of the House of Representatives appointed by the Speaker of the House of Representatives, with at least two members from the minority party; and

BE IT FURTHER RESOLVED that the staffs of House Research, Senate Research, and the Committee on Legislative Research shall provide such legal, research, clerical, technical, and bill drafting services as the committee may require in the performance of its duties; and

BE IT FURTHER RESOLVED that the committee, its members, and any staff assigned to the committee shall receive reimbursement for their actual and necessary expenses incurred in attending meetings of the committee or any subcommittee thereof; and

BE IT FURTHER RESOLVED that the joint interim committee shall expire on December 31, 2005, and on that same date deliver a report of findings and recommendations to the General Assembly; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare a properly inscribed copy of this resolution for the President Pro Tem of the Senate and the Speaker of the House of Representatives.

HOUSE CONCURRENT RESOLUTION NO. 23

WHEREAS, following breast cancer, cervical cancer is the second most common cancer in women worldwide after breast cancer; and

WHEREAS, according to United States cervical cancer statistics, the disease is the third most common gynecological cancer among American women. With approximately 12,200 new cases diagnosed annually, 4,100 of these cases result in death; and

WHEREAS, with regular and accurate screening, cervical cancer is highly preventable with regular and accurate screening; and

WHEREAS, widespread screening programs have helped reduce death rates from cervical cancer, but women are still dying even with such advanced medical techniques and evaluative procedures; and

WHEREAS, cervical cancer cases in the United States are generally attributed to lack of education, a reduction of access available to regular cervical cancer screening, and a lack of screening accuracy; and

WHEREAS, experience shows that increasing cervical cancer awareness among women, especially underserved women within our state, significantly reduces the probability of mortality; and

WHEREAS, cervical cancer disproportionately affects minority women and women with lower incomes because they are less likely to have access to routine screening; and

WHEREAS, approximately one-half of all cervical cancer cases are in women who have never been screened, and ten percent of cases are in women who have not been screened within the last five years; and

WHEREAS, the median age of cervical cancer patients at diagnosis is 47 years, the youngest median age for all female reproductive cancers; and

WHEREAS, new screening technologies, including FDA-approved testing for human papillomavirus, which is the cause of virtually all cervical cancers, offer new opportunities to finally eliminate this potentially deadly disease through early identification of women at increased risk; and

WHEREAS, leading medical organizations, including the American College of Obstetricians and Gynecologists, the American Cancer Society, and the Association of Reproductive Health Professionals have recently updated their screening guidelines to include FDA-approved testing for human papillomavirus; and

WHEREAS, women are entitled to proper cervical cancer information so they can be empowered to make informed health care decisions, and are entitled to access to routine screening, including the most accurate methods available:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-third General Assembly, First Regular Session, the Senate concurring therein, hereby recognize that through education and screening women can lower their likelihood for developing cervical cancer, and that through early detection cervical cancer can be successfully treated after it develops; and

BE IT FURTHER RESOLVED that the Missouri General Assembly supported the Missouri Department of Health and Senior Services and the Missouri Cancer Consortium in taking the lead in formulating the Comprehensive Cancer Action Plan for Missouri, including the review of data regarding cervical cancer and human papillomavirus of women in Missouri, evaluating current methods used to provide women with information regarding cervical cancer, access to regular screening, and options for increasing screening accuracy; and

BE IT FURTHER RESOLVED that the Missouri General Assembly supports the Missouri Department of Health and Senior Services and the Missouri Cancer Consortium in the identification of pockets of need, priority strategies, and new technologies, including new introduced therapies and preventive vaccines which are effective in preventing and controlling cervical cancer; and

BE IT FURTHER RESOLVED that the Missouri General Assembly directs that the Comprehensive Cancer Action Plan for Missouri, which serves as a nationwide model of effective cancer control strategies, be presented annually to the Governor, Lieutenant Governor, President Pro Tem of the Senate, the Speaker of the House of Representatives, and be posted on the Missouri state web site homepage; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare a properly inscribed copy of this resolution for Governor Matt Blunt, Lieutenant Governor Peter Kinder, the Director of the Department of Health and Senior Services, and the Missouri Cancer

Consortium.

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-FIRST DAY— THURSDAY, APRIL 28, 2005

The Senate met pursuant to adjournment.

Senator Scott in the Chair.

Reverend Carl Gauck offered the following prayer:

“Come to me, all you that are weary and are carrying heavy burdens, and I will give you rest.” (Matthew 11:28)

Gracious God, You give us a gracious invitation to come to You when we are feeling tired and burdened under the weight of so many bills and actions that need to be taken. You promise to give us rest for our minds, our bodies and our spirit and we are in need of that during this crunch time for us. Let us rest in You this weekend so we may be refreshed, have time with loved ones and with You so we are ready for another week of pressures and lack of sleep. In Your Holy Name we pray. Amen.

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-SECOND DAY— MONDAY, MAY 2, 2005

The Senate met pursuant to adjournment.

Senator Bartle in the Chair.

Reverend Carl Gauck offered the following prayer:

“Keep your heart with all diligence; for out of it are the issues of life.” (Proverbs 4:23)

Dear Lord, as we begin this week, help us keep our heart in line with Yours; for from it, all decisions are made and all convictions are held fast. Our lives, our conscience, our souls are under fire by those who would have us fail in what we know is true and in keeping with Your teachings. Bless us and guide us this week that amid all the pressures to get things done, we remain faithful. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

President Kinder assumed the Chair.

A quorum being established, the Senate proceeded with its business.

The Journal for Thursday, April 28, 2005 was read and approved.

SENATE CONCURRENT RESOLUTION NO. 19

WHEREAS, fixing the health care crisis is extremely critical for the citizens of Missouri; and

WHEREAS, the lack of availability and high cost for medical malpractice coverage for health care providers has in turn adversely impacted health care in Missouri; and

BE IT FURTHER RESOLVED that the interim committee shall be responsible for:

2. Investigating the primary objective of assuring health care providers that there will be reasonable medical malpractice liability coverage available within the state of Missouri.
3. Researching the possibility of requiring health care providers to carry primary medical malpractice coverage with another insurer in order to participate in the fund.
4. Investigating the feasibility of the fund paying moneys to an aggrieved party if his or her damages exceed the health care provider's primary level of coverage.
5. Exploring any other ideas as necessary for possible implementation of the fund; and

BE IT FURTHER RESOLVED that the interim committee be authorized to call upon any department, office, division, or agency of this state to assist in gathering information pursuant to its objective; and

137.079. Prior to setting its rates or rates as required by section 137.073, each taxing authority shall exclude from its total assessed valuation seventy-two percent of the total amount of assessed value of business personal property that is subject to an appeal at the state tax commission or in a court of competent jurisdiction in this state. This exclusion shall only apply to the portion of the assessed value of business personal property that is disputed in the appeal, and shall not exclude any portion of the same property that is not disputed. If the taxing authority uses a multi-rate approach as provided in section 137.073, this exclusion shall be made from the personal property class. The state tax commission shall provide each taxing authority with the total assessed value of business personal property within the jurisdiction of such taxing authority for which an appeal is pending no later than August 20 of each year. Whenever any appeal is resolved, whether by final adjudication or settlement, and the result of the appeal causes money to be paid to the taxing authority, the taxing authority shall not be required to make an additional adjustment to its rate or rates due to such payment once the deadline for setting its rates, as provided by this chapter, has passed in a taxable year, but shall adjust its rate or rates due to such payment in the next rate setting cycle to offset the payment in the next taxable year. (4) “Original cost”, the price the current owner, the taxpayer, paid for the item without freight, installation, or sales or use tax. In the case of acquisition of items of personal property as part of an acquisition of an entity, the original cost shall be the historical cost of those assets remaining in place and in use and the placed in service date shall be the date of acquisition by the entity being acquired;

(5) “Placed in service”, property is placed in service when it is ready and available for a specific use, whether in a business activity, an income-producing activity, a tax-exempt activity, or a personal activity. Even if the property is not being used, the property is in service when it is ready and available for its specific use;

(6) “Recovery period”, the period over which the original cost of depreciable tangible personal property shall be depreciated for property tax purposes and shall be the same as the recovery period allowed for such property under the Internal Revenue Code.

2. To establish uniformity in the assessment of depreciable tangible personal property, each assessor shall use the standardized schedule of depreciation in this section to determine the assessed valuation of depreciable tangible personal property for the purpose of estimating the value of such property subject to taxation under this chapter.

3. For purposes of this section, and to estimate the value of depreciable tangible personal property for mass appraisal purposes, each assessor shall value depreciable tangible personal property by applying the class life and recovery period to the original cost of the property according to the following depreciation schedule. The percentage shown for the first year shall be the percentage of the original cost used for January first of the year following the year of acquisition of the property, and the percentage shown for each succeeding year shall be the percentage of the original cost used for January first of the respective succeeding year as follows:

The state tax commission shall study and analyze the values established by this method of assessment and in every odd-numbered year make recommendations to the joint committee on tax policy pertaining to any changes in this

methodology, if any, that are warranted.

4. Such estimate of value determined under this section shall be presumed to be correct for the purpose of determining the true value in money of the depreciable tangible personal property, but such estimation may be disproved by substantial and persuasive evidence of the true value in money under any method determined by the state tax commission to be correct, including, but not limited to, an appraisal of the tangible personal property specifically utilizing generally accepted appraisal techniques, and contained in a narrative appraisal report in accordance with the Uniform Standards of Professional Appraisal Practice or by proof of economic or functional obsolescence or evidence of excessive physical deterioration. 2. The clerk **or court administrator** of the circuit court of the judicial circuit in which such county is located shall set a date, time and place for the salary commission meeting and serve as temporary chairman of the salary commission until the members of the commission elect a chairman from their number. Upon written request of a majority of the salary commission members the clerk **or court administrator** of the circuit court shall forthwith set the earliest date possible for a meeting of the salary commission. Such notice shall be published in a newspaper of general circulation in such county at least five days prior to such meeting. Such notice shall contain a general description of the business to be discussed at such meeting.

3. The members of the salary commission shall be:

- (9) The auditor;

- (11) The coroner.

Members of the salary commission shall receive no additional compensation for their services as members of the salary commission. A majority of members shall constitute a quorum.

4. Notwithstanding the provisions of sections 610.021 and 610.022, RSMo, all meetings of a county salary commission shall be open meetings and all votes taken at such meetings shall be open records. Any vote taken at any meeting of the salary commission shall be taken by recorded yeas and nays.

5. In every county, the salary commission shall meet at least once before November thirtieth of each odd-numbered year. The salary commission may meet as many times as it deems necessary and may meet after November thirtieth and prior to December fifteenth of any odd-numbered year if the commission has met at least once prior to November thirtieth of that year. At any meeting of the salary commission, the members shall elect a chairman from their number. The county clerk shall present a report on the financial condition of the county to the commission once the chairman is elected, and shall keep the minutes of the meeting.

6. For purposes of this section, the 1988 base compensation is the compensation paid on September 1, 1987, plus the same percentage increase paid or allowed, whichever is greater, to the presiding commissioner or the sheriff, whichever is greater, of that county for the year beginning January 1, 1988. Such increase shall be expressed as a

percentage of the difference between the maximum allowable compensation and the compensation paid on September 1, 1987. At its meeting in 1987 and at any meeting held in 1988, the salary commission shall determine the compensation to be paid to every county officer holding office on January 1, 1988. The salary commission shall establish the compensation for each office at an amount not greater than that set by law as the maximum compensation. If the salary commission votes to increase compensation, but not to pay the maximum amount authorized by law for any officer or office, then the increase in compensation shall be the same percentage increase for all officers and offices and shall be expressed as a percentage of the difference between the maximum allowable compensation and the compensation being received at the time of the vote. If two-thirds of the members of the salary commission vote to decrease the compensation being received at the time of the vote below that compensation, all officers shall receive the same percentage decrease. The commission may vote not to increase or decrease the compensation and that compensation shall continue to be the salary of such offices and officers during the subsequent term of office.

7. For the year 1989 and every second year thereafter, the salary commission shall meet in every county as many times as it deems necessary on or prior to November thirtieth of any such year for the purpose of determining the amount of compensation to be paid to county officials. For each year in which the commission meets, the members shall elect a chairman from their number. The county clerk shall present a report on the financial condition of the county to the commission once the chairman is elected, and shall keep minutes of the meeting. The salary commission shall then consider the compensation to be paid for the next term of office for each county officer to be elected at their next general election. If the commission votes not to increase or decrease the compensation, the salary being paid during the term in which the vote was taken shall continue as the salary of such offices and officers during the subsequent term of office. If the salary commission votes to increase the compensation, all officers or offices whose compensation is being considered by the commission at that time, shall receive the same percentage of the maximum allowable compensation. However, for any county in which all offices' and officers' salaries have been set at one hundred percent of the maximum allowable compensation, the commission may vote to increase the compensation of all offices except that of full-time prosecuting attorneys at that or any subsequent meeting of the salary commission without regard to any law or maximum limitation established by law. Such increase shall be expressed as a percentage of the compensation being paid during the term of office when the vote is taken, and each officer or office whose compensation is being established by the salary commission at that time shall receive the same percentage increase over the compensation being paid for that office during the term when the vote is taken. This increase shall be in addition to any increase mandated by an official's salary schedule because of changes in assessed valuation during the current term. If the salary commission votes to decrease the compensation, a vote of two-thirds or more of all the members of the salary commission shall be required before the salary or other compensation of any county office shall be decreased below the compensation being paid for the particular office on the date the salary commission votes, and all officers and offices shall receive the same percentage decrease.

8. The salary commission shall issue, not later than December fifteenth of any year in which it meets, a report of compensation to be paid to each officer and the compensation so set shall be paid beginning with the start of the subsequent term of office of each officer. The report of compensation shall be certified to the clerk of the county commission for the county and shall be in substantially the following form:

The salary commission for County hereby certifies that it has met pursuant to law to establish compensation for county officers to be paid to such officers during the next term of office for the officers affected. The salary commission reports that there shall be (no increase in compensation) (an increase of percent) (a decrease of percent) (county officer's salaries set at percent of the maximum allowable compensation). Salaries shall be adjusted each year on the official's year of incumbency for any change in the last completed assessment that would affect the maximum allowable compensation for that office.

9. For the meeting in 1989 and every meeting thereafter, in the event a salary commission in any county fails, neglects or refuses to meet as provided in this section, or in the event a majority of the salary commission is unable to reach an agreement and so reports or fails to certify a salary report to the clerk of the county commission by December fifteenth of any year in which a report is required to be certified by this section, then the compensation being paid to each affected office or officer on such date shall continue to be the compensation paid to the affected office or officer during the succeeding term of office.

10. Other provisions of law notwithstanding, in every instance where an officer or employee of any county is paid a mileage allowance or reimbursement, the county commission shall allow or reimburse such officers or employees out

of the county treasury at the highest rate paid to any county officer for each mile actually and necessarily traveled in the performance of their official duties. The county commission of any county may elect to pay a mileage allowance for any county commissioner for travel going to and returning from the place of holding commission meetings and for all other necessary travel on official county business in the personal motor vehicle of the commissioner presenting the claim. The governing body of any county of the first classification not having a charter form of government may provide by order for the payment of mileage expenses of elected and appointed county officials by payment of a certain amount monthly which would reflect the average monthly mileage expenses of such officer based on the amount allowed pursuant to state law for the payment of mileage for state employees. Any order entered for such purpose shall not be construed as salary, wages or other compensation for services rendered.

11. The term "maximum allowable compensation" as used in this section means the highest compensation which may be paid to the specified officer or office in the particular county based on the salary schedule established by law for the specified officer or office. If the salary commission at its meeting in 1987 voted for one hundred percent of the maximum allowable compensation and does not change such vote at its meeting held within thirty days after May 13, 1988, as provided in subsection 6 of this section, the one hundred percent shall be calculated on the basis of the total allowable compensation permitted after May 13, 1988.

12. At the salary commission meeting which establishes the percentage rate to be applied to county officers during the next term of office, the salary commission may authorize the further adjustment of such officers' compensation as a cost-of-living component and effective January first of each year, the compensation for county officers may be adjusted by the county commission, and if the adjustment of compensation is authorized, the percentage increase shall be the same for all county officers, not to exceed the percentage increase given to the other county employees. The compensation for all county officers may be set as a group, although the change in compensation will not become effective until the next term of office for each officer.

13. At the salary commission meeting in 1997 which establishes the salaries for those officers to be elected at the general election in 1998, the salary commission of each noncharter county may provide salary increases for associate county commissioners elected in 1996. This one-time increase is necessitated by the change from two- to four-year terms for associate commissioners pursuant to house bill 256, passed by the first regular session of the eighty-eighth general assembly in 1995."; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

HOUSE AMENDMENT NO. 30

Amend House Committee Substitute for Senate Substitute for Senate Committee Substitute for Senate Bill No. 210, Page 55, Section 137.071, Line 24, by inserting after all of said line the following:

“137.102. As used in this section and section 137.104, the following terms shall mean:

(1) “Homestead”, a taxpayer-owned and occupied principle dwelling real or personal property, along with appurtenances thereto and personal property thereon and up to five acres of land surrounding it as it is reasonably necessary for use of the dwelling as a home; provided, however, that the dwelling shall have been owned in fee simple by said taxpayer for a continuous period of not less than five years. If the homestead is located in a multi-unit building, the homestead is the portion of the building actually used as the principle dwelling and its percentage of the value of the common elements and of the value of the property upon which it is built. The percentage is the value of the unit consisting of the homestead compared to the total value of the building exclusive of common elements, if any;

(2) "Household", a person or group of persons living together in a room or group of rooms as a housing unit, but the term does not include persons boarding in or renting a portion of the dwelling;

(3) "Household income", the federal adjusted gross income as defined in Section 62 of the United States Internal Revenue Code, of all members in the household;

(4) "Individual with a disability", a taxpayer with a physical or mental impairment which substantially limits one or more of a person's major life activities, or who is regarded as having such an impairment, or has a record of having such an impairment;

(5) "Tax-deferred property", the property upon which increases in taxes are deferred under this section;

(6) "Taxes" or "property taxes", ad valorem taxes, assessments, fees, and charges entered on the assessment and tax roll.

137.104. 1. Beginning January 1, 2006, any taxpayer sixty-five years of age or older with a household income of seventy thousand dollars or less, or any individual with a disability receiving Social Security income, may elect to defer any increases in taxes on homestead property beyond the total property taxes paid in the previous year, by obtaining a deferral after January first and on or before October fifteenth of the first year in which deferral is first claimed.

2. In order to qualify for tax deferral under this section, the following requirements must be met when the claim is filed and thereafter so long as the payment of taxes by the taxpayer is deferred:

(1) The property must be the homestead of the taxpayer who files the claim for deferral, except for a taxpayer required to be absent from the homestead by reason of health who owns the dwelling jointly with one or more individuals who qualify for the deferral;

(2) The homestead must be located in a county with a charter form of government and with more than one million inhabitants;

(3) There must be no prohibition to the deferral of property taxes contained in any provision of federal law, rule, or regulation applicable to a mortgage, trust deed, land sale contract for which the homestead is security;

(4) The equity interest in the homestead must equal or exceed ten percent of the true value in money of the homestead; and

(5) The taxpayer claiming the deferral must show proof of, and maintain throughout the deferral period, insurance on the homestead in an amount equal to or exceeding the assessed value of the homestead.

3. A taxpayer's claim for deferral under this section shall be filed with the county assessor in writing on a form supplied by the department of revenue and shall:

(1) Describe the homestead;

(2) Recite facts establishing the eligibility for the deferral under the provisions of section 137.102, including facts that establish that the household income of the individual or individuals in the household was, for the calendar year immediately preceding the calendar year in which the claim was filed, seventy thousand dollars or less; or

(3) Have attached any documentary proof required by the director to show that the requirements of this section have been met. A federal income tax return shall be determined as proof of eligibility under this income guideline.

4. The county assessor shall forward each claim filed under this section to the director of revenue, who shall determine if the property is eligible for deferral. If eligibility for deferral of homestead property taxes is established, the director of revenue shall notify the county assessor collector who shall show on the current ad valorem assessment and tax roll which property is tax-deferred property by an entry clearly designating such property as tax-deferred property.

5. The portion of increased taxes due beyond the total base amount of ad valorem property taxes paid in 2005 shall be deferred, and the county assessor or collector shall maintain accounts for each deferred property

and shall accrue interest only on the amount of taxes deferred. The interest rate shall be two and one-half percent annually. The director of revenue shall have a lien on the homestead property in the amount of the deferred taxes and interest due.

6. The lien created under this section shall have the same priority as other real property tax liens except that the lien of mortgages, trust deeds, or security interests which are recorded or noted on a certificate of title prior in time to the attachment of the lien for deferred taxes shall be prior to the liens for deferred taxes.

7. Deferred ad valorem taxes and accrued interest shall become due and payable when:

(1) The taxpayer who claimed deferment of collection of property taxes on the homestead dies, or if there was more than one claimant, the survivor of the taxpayer who originally claimed the deferment of collection of property taxes under this section dies;

(2) The property with respect to which deferment of collection of taxes is claimed is sold or otherwise transferred;

(3) The tax-deferred property is no longer the homestead of the taxpayer who claimed the deferral, except in the case of a taxpayer required to be absent from such tax-deferred property by reason of health who owns the dwelling jointly with one or more individuals who qualify for the deferral;

(4) The tax-deferred property is a manufactured structure or floating home which is moved out of the state.

8. Whenever any of the circumstances listed in this subsection occurs, the deferral of taxes for the assessment year in which the circumstance occurs shall continue for such assessment year, and the amounts of deferred property taxes, including accrued interest, for all years shall be due and payable on the date of closing or the date of probate to the director of revenue. If the homestead property is removed from the state, the amount of deferred taxes shall be due and payable five days before the date of removal of the property from the state. All payments of deferred taxes shall be made to the county collector and shall be distributed in accordance with the then-current distribution plan.

9. Subsection 1 of this section shall not apply to payment for real property taxes by financial institutions, as defined in section 381.410, RSMo, who pay tax obligations that they service from escrow accounts, as defined in Title 24, Part 3500, Section 17, Code of Federal Regulation, as amended.

10. The provisions of this section shall automatically sunset five years after the effective date of this section unless reauthorized by an act of the general assembly.”; and

Further amend said title, enacting clause and intersectional references accordingly.

In which the concurrence of the Senate is respectfully requested.

(3) The sewer provider shall at all times keep in force a general comprehensive public liability and property damage policy issued by a company authorized to do business in Missouri with policy limits equal to or in excess of those set forth in section 537.610, RSMo, shall include the water provider and any independent contractor who performs such agreement under contract with the water provider thereon as an additional insured, and shall furnish the water provider and such independent contractor a certificate of insurance evidencing such insurance is in effect. If at any time it fails to do so and furnish such certificate of insurance to the water provider and such independent contractor, the water provider and such independent contractor may cease to make water service terminations until such requirement is satisfied.

(4) The agreement shall provide that any loss of revenue incurred by the water provider as a result of discontinuing water service because of the failure of any sewage user to pay the charges or rental therefor shall be paid to the water provider by the sewer provider. Such amounts include, but are not limited to, loss of revenue by the water provider caused by disconnection of water service for a sewer bill delinquency when the water bill is not delinquent;

(5) When a water provider is collecting delinquent amounts for both the water and sewer service, all delinquent payments due to both the water and sewer provider shall be received by the water provider before water service is restored. If for any reason water service is never restored, any amount collected for delinquent accounts due both water and sewer provider shall be divided between the water provider and the sewer provider so that each receives the percentage of the amount owed to it;

(6) The agreement shall provide that in the event the water provider or any independent contractor who performs such agreement under contract with the water provider incurs attorney fees or other costs not covered by insurance as a result of any claim, litigation, or threatened litigation against the water provider or independent contractor which exceeds the limits of insurance coverage provided to the water provider or independent contractor by the sewer provider as stated in this section, the sewer provider shall reimburse such amounts to the water provider or independent contractor;

(7) The agreement shall contain a provision providing that the expense and cost of the water provider shall be recalculated annually and that the amount due it during the subsequent year shall be increased or decreased according to any change occurring in the costs and expenses; alternatively, upon agreement of the parties to the agreement, the agreement may provide for annual increases or decreases based upon the percentage of increase or decrease in the National Consumers Price Index for All Urban Consumers, unadjusted for seasonal variation, as published by the United States Department of Labor for the most recent date prior to the annual anniversary date of the execution of the agreement;

(8) All expense and cost incurred by the water provider in performing or carrying out the agreement shall be reimbursed to the water provider by the sewer provider. The reimbursement shall be made monthly, bi-monthly, or quarterly. In determining such expense incurred by the water provider, the commissioners shall consider the following items of expense, whether such items will be incurred by the water provider, at the time the agreement is executed or in the future, and if so, the amount of such expense attributable to such agreement at the time such agreement is executed and in the future:

(a) All personnel expense including, but not limited to, wages and salaries, employment taxes, retirement benefits, employment benefits, health insurance, and workers' compensation insurance;

(b) All expense incurred by payments to independent contractors who perform or carry out the agreement under contract with the water provider;

(c) Equipment expenses;

(d) Computer and computer program expense;

(e) Office space expense;

(f) Insurance expense attributable to the agreement between the water provider and the sewer provider, including the additional insurance expense of any independent contractor who performs or carries out the agreement under contract with such water provider;

(g) All other expense attributable to the agreement between the water and sewer provider;

(9) The agreement shall terminate in twenty years unless a different term is agreed upon by the parties. Upon termination, the parties may agree to an extension thereof, not to exceed an additional twenty years;

(10) If ownership of either the sewer system of the sewer provider or the water system of the water provider is transferred to another entity or person, the agreement shall terminate at the time of the transfer, unless the new owner and remaining owner agree otherwise.

5. Upon the filing of such petition, the sewer provider shall appoint one commissioner. The water provider shall appoint a commissioner within thirty days of the service of the petition upon it. If the water provider fails to appoint a commissioner within such time period, the court shall appoint a commissioner on behalf of the water provider within forty-five days of service of the petition on the water provider. The two named commissioners shall agree to appoint a third commissioner within thirty days after the appointment of the

second commissioner, but in the event that they fail to do so, the court shall appoint a third commissioner within sixty days after the appointment of the second commissioner.

6. The commissioners shall draft an agreement between the water provider and sewer provider meeting the requirements established in this section. Before drafting such agreement, the water provider and sewer provider shall be given an opportunity to present evidence and information pertaining to such agreement at a hearing to be held by the commissioners, of which each party shall receive fifteen days written notice. The hearing may be continued from time to time by the commissioners. The commissioners shall consider all evidence and information submitted to them and prepare such agreement as provided under this section. The agreement shall be submitted to the court within ninety days of the selection or appointment of the last commissioner as provided under this section.

7. If the court finds that the agreement is fair, reasonable, and meets the requirements of this section, then the court shall enter its judgment approving the agreement and order it to become effective sixty days after the date of such judgment. If the court finds such agreement is not fair and reasonable or does not meet the requirements of this section, the court shall return it to the commissioners with its reasons for rejecting the agreement. The commissioners shall make the required changes and resubmit the agreement to the court. Upon approval of the agreement by the court, judgment shall be entered approving the agreement and ordering it to become effective sixty days after the date of such judgment. Thereafter, the parties shall abide by such agreement. If either party fails to do so, the other party may file an action to compel compliance. Venue shall be in the court issuing such judgment.

8. The judgment and order of the court shall be subject to appeal as provided by law. All costs, including commissioners' compensation, shall be taxed to and paid by the sewer provider requesting an agreement. The court shall also order payment of a reasonable attorney fee and fees of expert witnesses of the water provider by the sewer provider to the water provider.”; and

Further amend the title and enacting clause accordingly.

Senator Cauthorn moved that the above amendment be adopted.

Senator Days offered SA 1 to SA 5, which was read:

Senator Cauthorn moved that the above amendment be adopted, which motion prevailed.

Senator Gross offered SA 6:

SENATE AMENDMENT NO. 6

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 58, Page 132, Section 136.160, Line 2, by inserting immediately after said line the following:

“137.073. 1. As used in this section, the following terms mean:

(1) “General reassessment”, changes in value, entered in the assessor's books, of a substantial portion of the parcels of real property within a county resulting wholly or partly from reappraisal of value or other actions of the assessor or county equalization body or ordered by the state tax commission or any court;

(2) “Tax rate”, “rate”, or “rate of levy”, singular or plural, includes the tax rate for each purpose of taxation of property a taxing authority is authorized to levy without a vote and any tax rate authorized by election, including bond interest and sinking fund;

(3) “Tax rate ceiling”, a tax rate as revised by the taxing authority to comply with the provisions of this section or when a court has determined the tax rate; except that, other provisions of law to the contrary notwithstanding, a school district may levy the operating levy for school purposes required for the current year pursuant to subsection 2 of section 163.021, RSMo, less all adjustments required pursuant to article X, section 22 of the Missouri Constitution, if

such tax rate does not exceed the highest tax rate in effect subsequent to the 1980 tax year. This is the maximum tax rate that may be levied, unless a higher tax rate ceiling is approved by voters of the political subdivision as provided in this section;

(4) "Tax revenue", when referring to the previous year, means the actual receipts from ad valorem levies on all classes of property, including state-assessed property, in the immediately preceding fiscal year of the political subdivision, plus an allowance for taxes billed but not collected in the fiscal year and plus an additional allowance for the revenue which would have been collected from property which was annexed by such political subdivision but which was not previously used in determining tax revenue pursuant to this section. The term "tax revenue" shall not include any receipts from ad valorem levies on any property of a railroad corporation or a public utility, as these terms are defined in section 386.020, RSMo, which were assessed by the assessor of a county or city in the previous year but are assessed by the state tax commission in the current year. All school districts and those counties levying sales taxes pursuant to chapter 67, RSMo, shall include in the calculation of tax revenue an amount equivalent to that by which they reduced property tax levies as a result of sales tax pursuant to section 67.505, RSMo, and section 164.013, RSMo, **or as excess home dock city or county fees as provided in subsection 4 of section 313.820, RSMo**, in the immediately preceding fiscal year but not including any amount calculated to adjust for prior years. For purposes of political subdivisions which were authorized to levy a tax in the prior year but which did not levy such tax or levied a reduced rate, the term "tax revenue", as used in relation to the revision of tax levies mandated by law, shall mean the revenues equal to the amount that would have been available if the voluntary rate reduction had not been made.

2. Whenever changes in assessed valuation are entered in the assessor's books for any personal property, in the aggregate, or for any subclass of real property as such subclasses are established in section 4(b) of article X of the Missouri Constitution and defined in section 137.016, the county clerk in all counties and the assessor of St. Louis City shall notify each political subdivision wholly or partially within the county or St. Louis City of the change in valuation of each subclass of real property, individually, and personal property, in the aggregate, exclusive of new construction and improvements. All political subdivisions shall immediately revise the applicable rates of levy for each purpose for each subclass of real property, individually, and personal property, in the aggregate, for which taxes are levied to the extent necessary to produce from all taxable property, exclusive of new construction and improvements, substantially the same amount of tax revenue as was produced in the previous year for each subclass of real property, individually, and personal property, in the aggregate, except that the rate may not exceed the greater of the rate in effect in the 1984 tax year or the most recent voter-approved rate. Such tax revenue shall not include any receipts from ad valorem levies on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property. Where the taxing authority is a school district for the purposes of revising the applicable rates of levy for each subclass of real property, the tax revenues from state-assessed railroad and utility property shall be apportioned and attributed to each subclass of real property based on the percentage of the total assessed valuation of the county that each subclass of real property represents in the current taxable year. As provided in section 22 of article X of the constitution, a political subdivision may also revise each levy to allow for inflationary assessment growth occurring within the political subdivision. The inflationary growth factor for any such subclass of real property or personal property shall be limited to the actual assessment growth in such subclass or class, exclusive of new construction and improvements, and exclusive of the assessed value on any real property which was assessed by the assessor of a county or city in the current year in a different subclass of real property, but not to exceed the consumer price index or five percent, whichever is lower. Should the tax revenue of a political subdivision from the various tax rates determined in this subsection be different than the tax revenue that would have been determined from a single tax rate as calculated pursuant to the method of calculation in this subsection prior to January 1, 2003, then the political subdivision shall revise the tax rates of those subclasses of real property, individually, and/or personal property, in the aggregate, in which there is a tax rate reduction, pursuant to the provisions of this subsection. Such revision shall yield an amount equal to such difference and shall be apportioned among such subclasses of real property, individually, and/or personal property, in the aggregate, based on the relative assessed valuation of the class or subclasses of property experiencing a tax rate reduction. Such revision in the tax rates of each class or subclass shall be made by computing the percentage of current year adjusted assessed valuation of each class or subclass with a tax rate reduction to the total current year adjusted assessed valuation of the class or subclasses with a tax rate reduction, multiplying the resulting percentages by the revenue difference between the single rate calculation and the calculations pursuant to this subsection and dividing

by the respective adjusted current year assessed valuation of each class or subclass to determine the adjustment to the rate to be levied upon each class or subclass of property. The adjustment computed herein shall be multiplied by one hundred, rounded to four decimals in the manner provided in this subsection, and added to the initial rate computed for each class or subclass of property. Notwithstanding any provision of this subsection to the contrary, no revision to the rate of levy for personal property shall cause such levy to increase over the levy for personal property from the prior year.

3. (1) Where the taxing authority is a school district, it shall be required to revise the rates of levy to the extent necessary to produce from all taxable property, including state-assessed railroad and utility property, which shall be separately estimated in addition to other data required in complying with section 164.011, RSMo, substantially the amount of tax revenue permitted in this section. In the year following tax rate reduction, the tax rate ceiling may be adjusted to offset such district's reduction in the apportionment of state school moneys due to its reduced tax rate. However, in the event any school district, in calculating a tax rate ceiling pursuant to this section, requiring the estimating of effects of state-assessed railroad and utility valuation or loss of state aid, discovers that the estimates used result in receipt of excess revenues, which would have required a lower rate if the actual information had been known, the school district shall reduce the tax rate ceiling in the following year to compensate for the excess receipts, and the recalculated rate shall become the tax rate ceiling for purposes of this section.

(2) For any political subdivision which experiences a reduction in the amount of assessed valuation relating to a prior year, due to decisions of the state tax commission or a court pursuant to sections 138.430 to 138.433, RSMo, or due to clerical errors or corrections in the calculation or recordation of any assessed valuation:

(a) Such political subdivision may revise the tax rate ceiling for each purpose it levies taxes to compensate for the reduction in assessed value occurring after the political subdivision calculated the tax rate ceiling for the particular subclass of real property or for personal property, in the aggregate, in the prior year. Such revision by the political subdivision shall be made at the time of the next calculation of the tax rate for the particular subclass of real property or for personal property, in the aggregate, after the reduction in assessed valuation has been determined and shall be calculated in a manner that results in the revised tax rate ceiling being the same as it would have been had the corrected or finalized assessment been available at the time of the prior calculation;

(b) In addition, for up to three years following the determination of the reduction in assessed valuation as a result of circumstances defined in this subdivision, such political subdivision may levy a tax rate for each purpose it levies taxes above the revised tax rate ceiling provided in paragraph (a) of this subdivision to recoup any revenues it was entitled to receive for the three-year period preceding such determination.

4. (1) In order to implement the provisions of this section and section 22 of article X of the Constitution of Missouri, the term "improvements" shall apply to both real and personal property. In order to determine the value of new construction and improvements, each county assessor shall maintain a record of real property valuations in such a manner as to identify each year the increase in valuation for each political subdivision in the county as a result of new construction and improvements. The value of new construction and improvements shall include the additional assessed value of all improvements or additions to real property which were begun after and were not part of the prior year's assessment, except that the additional assessed value of all improvements or additions to real property which had been totally or partially exempt from ad valorem taxes pursuant to sections 99.800 to 99.865, RSMo, sections 135.200 to 135.255, RSMo, and section 353.110, RSMo, shall be included in the value of new construction and improvements when the property becomes totally or partially subject to assessment and payment of all ad valorem taxes. The aggregate increase in valuation of personal property for the current year over that of the previous year is the equivalent of the new construction and improvements factor for personal property. Notwithstanding any opt-out implemented pursuant to subsection 15 of section 137.115, the assessor shall certify the amount of new construction and improvements and the amount of assessed value on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property separately for each of the three subclasses of real property for each political subdivision to the county clerk in order that political subdivisions shall have this information for the purpose of calculating tax rates pursuant to this section and section 22, article X, Constitution of Missouri. In addition, the state tax commission shall certify each year to each county clerk the increase in the general price level as measured by the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency. The state tax commission shall certify the increase in such

index on the latest twelve-month basis available on June first of each year over the immediately preceding prior twelve-month period in order that political subdivisions shall have this information available in setting their tax rates according to law and section 22 of article X of the Constitution of Missouri. For purposes of implementing the provisions of this section and section 22 of article X of the Missouri Constitution, the term “property” means all taxable property, including state assessed property.

(2) Each political subdivision required to revise rates of levy pursuant to this section or section 22 of article X of the Constitution of Missouri shall calculate each tax rate it is authorized to levy and, in establishing each tax rate, shall consider each provision for tax rate revision provided in this section and section 22 of article X of the Constitution of Missouri, separately and without regard to annual tax rate reductions provided in section 67.505, RSMo, and section 164.013, RSMo. Each political subdivision shall set each tax rate it is authorized to levy using the calculation that produces the lowest tax rate ceiling. It is further the intent of the general assembly, pursuant to the authority of section 10(c) of article X of the Constitution of Missouri, that the provisions of such section be applicable to tax rate revisions mandated pursuant to section 22 of article X of the Constitution of Missouri as to reestablishing tax rates as revised in subsequent years, enforcement provisions, and other provisions not in conflict with section 22 of article X of the Constitution of Missouri. Annual tax rate reductions provided in section 67.505, RSMo, and section 164.013, RSMo, shall be applied to the tax rate as established pursuant to this section and section 22 of article X of the Constitution of Missouri, unless otherwise provided by law.

5. (1) In all political subdivisions, the tax rate ceiling established pursuant to this section shall not be increased unless approved by a vote of the people. Approval of the higher tax rate shall be by at least a majority of votes cast. When a proposed higher tax rate requires approval by more than a simple majority pursuant to any provision of law or the constitution, the tax rate increase must receive approval by at least the majority required.

(2) When voters approve an increase in the tax rate, the amount of the increase shall be added to the tax rate ceiling as calculated pursuant to this section to the extent the total rate does not exceed any maximum rate prescribed by law. If a ballot question presents a stated tax rate for approval rather than describing the amount of increase in the question, the stated tax rate approved shall be the current tax rate ceiling. The increased tax rate ceiling as approved may be applied to the total assessed valuation of the political subdivision at the setting of the next tax rate.

(3) The governing body of any political subdivision may levy a tax rate lower than its tax rate ceiling and may increase that lowered tax rate to a level not exceeding the tax rate ceiling without voter approval.

6. (1) For the purposes of calculating state aid for public schools pursuant to section 163.031, RSMo, each taxing authority which is a school district shall determine its proposed tax rate as a blended rate of the classes or subclasses of property. Such blended rate shall be calculated by first determining the total tax revenue of the property within the jurisdiction of the taxing authority, which amount shall be equal to the sum of the products of multiplying the assessed valuation of each class and subclass of property by the corresponding tax rate for such class or subclass, then dividing the total tax revenue by the total assessed valuation of the same jurisdiction, and then multiplying the resulting quotient by a factor of one-hundred. Where the taxing authority is a school district, such blended rate shall also be used by such school district for calculating revenue from state-assessed railroad and utility property as defined in chapter 151, RSMo, and for apportioning the tax rate by purpose.

(2) Each taxing authority proposing to levy a tax rate in any year shall notify the clerk of the county commission in the county or counties where the tax rate applies of its tax rate ceiling and its proposed tax rate. Each taxing authority shall express its proposed tax rate in a fraction equal to the nearest one-tenth of a cent, unless its proposed tax rate is in excess of one dollar, then one/one-hundredth of a cent. If a taxing authority shall round to one/one-hundredth of a cent, it shall round up a fraction greater than or equal to five/one-thousandth of one cent to the next higher one/one-hundredth of a cent; if a taxing authority shall round to one-tenth of a cent, it shall round up a fraction greater than or equal to five/one-hundredths of a cent to the next higher one-tenth of a cent. Any taxing authority levying a property tax rate shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating such tax rate complies with Missouri law. All forms for the calculation of rates pursuant to this section shall be promulgated as a rule and shall not be incorporated by reference. Within thirty days after the effective date of this act, the state auditor shall promulgate rules for any and all forms for the calculation of rates pursuant to this section which do not currently exist in rule form or that have been incorporated by reference. In addition, each taxing authority proposing to levy a tax rate for debt service shall provide data, in such form as shall be prescribed by the

state auditor by rule, substantiating the tax rate for debt service complies with Missouri law. A tax rate proposed for annual debt service requirements will be prima facie valid if, after making the payment for which the tax was levied, bonds remain outstanding and the debt fund reserves do not exceed the following year's payments. The county clerk shall keep on file and available for public inspection all such information for a period of three years. The clerk shall, within three days of receipt, forward a copy of the notice of a taxing authority's tax rate ceiling and proposed tax rate and any substantiating data to the state auditor. The state auditor shall, within fifteen days of the date of receipt, examine such information and return to the county clerk his or her findings as to compliance of the tax rate ceiling with this section and as to compliance of any proposed tax rate for debt service with Missouri law. If the state auditor believes that a taxing authority's proposed tax rate does not comply with Missouri law, then the state auditor's findings shall include a recalculated tax rate, and the state auditor may request a taxing authority to submit documentation supporting such taxing authority's proposed tax rate. The county clerk shall immediately forward a copy of the auditor's findings to the taxing authority and shall file a copy of the findings with the information received from the taxing authority. The taxing authority shall have fifteen days from the date of receipt from the county clerk of the state auditor's findings and any request for supporting documentation to accept or reject in writing the rate change certified by the state auditor and to submit all requested information to the state auditor. A copy of the taxing authority's acceptance or rejection and any information submitted to the state auditor shall also be mailed to the county clerk. If a taxing authority rejects a rate change certified by the state auditor and the state auditor does not receive supporting information which justifies the taxing authority's original or any subsequent proposed tax rate, then the state auditor shall refer the perceived violations of such taxing authority to the attorney general's office and the attorney general is authorized to obtain injunctive relief to prevent the taxing authority from levying a violative tax rate.

7. No tax rate shall be extended on the tax rolls by the county clerk unless the political subdivision has complied with the foregoing provisions of this section.

8. Whenever a taxpayer has cause to believe that a taxing authority has not complied with the provisions of this section, the taxpayer may make a formal complaint with the prosecuting attorney of the county. Where the prosecuting attorney fails to bring an action within ten days of the filing of the complaint, the taxpayer may bring a civil action pursuant to this section and institute an action as representative of a class of all taxpayers within a taxing authority if the class is so numerous that joinder of all members is impracticable, if there are questions of law or fact common to the class, if the claims or defenses of the representative parties are typical of the claims or defenses of the class, and if the representative parties will fairly and adequately protect the interests of the class. In any class action maintained pursuant to this section, the court may direct to the members of the class a notice to be published at least once each week for four consecutive weeks in a newspaper of general circulation published in the county where the civil action is commenced and in other counties within the jurisdiction of a taxing authority. The notice shall advise each member that the court will exclude him or her from the class if he or she so requests by a specified date, that the judgment, whether favorable or not, will include all members who do not request exclusion, and that any member who does not request exclusion may, if he or she desires, enter an appearance. In any class action brought pursuant to this section, the court, in addition to the relief requested, shall assess against the taxing authority found to be in violation of this section the reasonable costs of bringing the action, including reasonable attorney's fees, provided no attorney's fees shall be awarded any attorney or association of attorneys who receive public funds from any source for their services. Any action brought pursuant to this section shall be set for hearing as soon as practicable after the cause is at issue.

9. If in any action, including a class action, the court issues an order requiring a taxing authority to revise the tax rates as provided in this section or enjoins a taxing authority from the collection of a tax because of its failure to revise the rate of levy as provided in this section, any taxpayer paying his or her taxes when an improper rate is applied has erroneously paid his or her taxes in part, whether or not the taxes are paid under protest as provided in section 139.031, RSMo. The part of the taxes paid erroneously is the difference in the amount produced by the original levy and the amount produced by the revised levy. The township or county collector of taxes or the collector of taxes in any city shall refund the amount of the tax erroneously paid. The taxing authority refusing to revise the rate of levy as provided in this section shall make available to the collector all funds necessary to make refunds pursuant to this subsection. No taxpayer shall receive any interest on any money erroneously paid by him or her pursuant to this subsection. Effective in the 1994 tax year, nothing in this section shall be construed to require a taxing authority to refund any tax erroneously paid prior to or during the third tax year preceding the current tax year.

10. A taxing authority, including but not limited to a township, county collector, or collector of taxes, responsible

for determining and collecting the amount of residential real property tax levied in its jurisdiction, shall report such amount of tax collected by December thirty-first of each year such property is assessed to the state tax commission. The state tax commission shall compile the tax data by county or taxing jurisdiction and submit a report to the general assembly no later than January thirty-first of the following year.

11. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void.”; and

Further amend said bill, page 219, section 311.087, line 6, by inserting immediately after said line the following:

“313.800. 1. As used in sections 313.800 to 313.850, unless the context clearly requires otherwise, the following terms mean:

(19) “Supplier”, a person who sells or leases gambling equipment and gambling supplies to any licensee.

2. In addition to the games of skill referred to in subdivision [(12)] **(14)** of subsection 1 of this section, the commission may approve other games of skill upon receiving a petition requesting approval of a gambling game from any applicant or licensee. The commission may set the matter for hearing by serving the applicant or licensee with written notice of the time and place of the hearing not less than five days prior to the date of the hearing and posting a public notice at each commission office. The commission shall require the applicant or licensee to pay the cost of placing a notice in a newspaper of general circulation in the applicant's or licensee's home dock city or county. The burden of proof that the gambling game is a game of skill is at all times on the petitioner. The petitioner shall have the affirmative responsibility of establishing his or her case by a preponderance of evidence including:

(1) Is it in the best interest of gaming to allow the game; and

(2) Is the gambling game a game of chance or a game of skill?

All testimony shall be given under oath or affirmation. Any citizen of this state shall have the opportunity to testify on the merits of the petition. The commission may subpoena witnesses to offer expert testimony. Upon conclusion of the hearing, the commission shall evaluate the record of the hearing and issue written findings of fact that shall be based exclusively on the evidence and on matters officially noticed. The commission shall then render a written decision on the merits which shall contain findings of fact, conclusions of law and a final commission order. The final commission order shall be within thirty days of the hearing. Copies of the final commission order shall be served on the petitioner by certified or overnight express mail, postage prepaid, or by personal delivery.

313.820. 1. An excursion boat licensee shall pay to the commission an admission fee of two dollars for each person embarking on an excursion gambling boat with a ticket of admission. One dollar of such fee shall be deposited to the credit of the gaming commission fund as authorized pursuant to section 313.835, and one dollar of such fee shall not be considered state funds and shall be paid to the home dock city or county. Subject to appropriation, one cent of such fee deposited to the credit of the gaming commission fund may be deposited to the credit of the compulsive gamblers fund created pursuant to the provisions of section 313.842. Nothing in this section shall preclude any licensee from charging any amount deemed necessary for a ticket of admission to any person embarking on an excursion gambling boat. If tickets are issued which are good for more than one excursion, the admission fee shall be paid to the commission for each person using the ticket on each excursion that the ticket is used. If free passes or complimentary admission tickets are issued, the excursion boat licensee shall pay to the commission the same fee upon these passes or complimentary tickets as if they were sold at the regular and usual admission rate; however, the excursion boat licensee may issue fee-free passes to actual and necessary officials and employees of the licensee or other persons actually working on the excursion gambling boat. The issuance of fee-free passes is subject to the rules of the commission, and a list of all persons to whom the fee-free passes are issued shall be filed with the commission.

2. All licensees are subject to all income taxes, sales taxes, earnings taxes, use taxes, property taxes or any other tax or fee now or hereafter lawfully levied by any political subdivision; however, no other license tax, permit tax, occupation tax, excursion fee, or taxes or fees shall be imposed, levied or assessed exclusively upon licensees by a political subdivision. All state taxes not connected directly to gambling games shall be collected by the department of

revenue. Notwithstanding the provisions of section 32.057, RSMo, to the contrary, the department of revenue may furnish and the commission may receive tax information to determine if applicants or licensees are complying with the tax laws of this state; however, any tax information acquired by the commission shall not become public record and shall be used exclusively for commission business.

3. Effective fiscal year 2008 and each fiscal year thereafter, the amount of revenue derived from admission fees paid to a home dock city or county shall not exceed the percentage of gross revenue realized by the home dock city or county attributable to such admission fees for fiscal year 2007. In the case of a new casino, the provisions of this section shall become effective two years from the opening of such casino and the amount of revenue derived from admission fees paid to a home dock city or county shall not exceed the average percentage of gross revenue realized by the home dock city or county attributable to such admission fees for the first two fiscal years in which such casino opened for business. Effective fiscal year 2010 and each subsequent fiscal year until fiscal year 2015, the percentage of all revenue derived by a home dock city or county from such admission fees used for expenditures other than capital, cultural, and special law enforcement purpose expenditures shall be limited to not more than thirty percent. Effective fiscal year 2015 and each subsequent fiscal, the percentage of all revenue derived by a home dock city or county from such admission fees used for expenditures other than capital, cultural, and special law enforcement purpose expenditures shall be limited to not more than twenty percent.

4. After fiscal year 2007, in any fiscal year in which a home dock city or county collects an amount over the limitation on revenue derived from admission fees provided in subsection 1 of this section, such revenue shall be treated as if it were sales tax revenue within the meaning of section 67.505, RSMo, provided that the home dock city or county shall reduce its total general revenue property tax levy, in accordance with the method provided in subdivision (6) of subsection 3 of section 67.505, RSMo.

5. The provisions of subsections 3 and 4 of this section shall not affect the imposition or collection of a tax under section 313.822.

6. The provisions of subsections 3 and 4 of this section shall not apply to any city of the third classification with more than eight thousand two hundred but fewer than eight thousand three hundred inhabitants, any county of the third classification without a township form of government and with more than sixteen thousand six hundred but fewer than sixteen thousand seven hundred inhabitants, any county of the third classification without a township form of government and with more than ten thousand two hundred but fewer than ten thousand three hundred inhabitants, any home rule city with more than four hundred thousand inhabitants and located in more than one county, any county of the first classification with more than one hundred eighty-four thousand but fewer than one hundred eighty-eight thousand inhabitants, any city of the fourth classification with more than two thousand nine hundred but fewer than three thousand inhabitants and located in any county of the first classification with more than seventy-three thousand seven hundred but fewer than seventy-three thousand eight hundred inhabitants, any county of the first classification with more than seventy-three thousand seven hundred but fewer than seventy-three thousand eight hundred inhabitants, any city of the third classification with more than six thousand seven hundred but fewer than six thousand eight hundred inhabitants and located in any county of the third classification without a township form of government and with more than twenty thousand but fewer than twenty thousand one hundred inhabitants, any county of the third classification without a township form of government and with more than twenty thousand but fewer than twenty thousand one hundred inhabitants, any city of the third classification with more than four thousand seven hundred but fewer than four thousand eight hundred inhabitants and located in any county of the first classification with more than one hundred eighty-four thousand but fewer than one hundred eighty-eight thousand inhabitants, any city of the third classification with more than twenty-five thousand seven hundred but fewer than twenty-five thousand nine hundred inhabitants, any county with a charter form of government and with more than one million inhabitants, any county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants, any special charter city with more than nine hundred fifty but fewer than one thousand fifty inhabitants, any county of the third classification without a township form of government and with more than ten thousand four hundred but fewer than ten thousand five hundred inhabitants, any city not within a county, any home rule city with more than seventy-three thousand but fewer than seventy-five thousand inhabitants, and any county of the first classification with

more than eighty-five thousand nine hundred but fewer than eighty-six thousand inhabitants.”; and

SENATE AMENDMENT NO. 8

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 58, Page 130, Section 105.711, Line 11, by inserting immediately after said line the following:

“135.010. As used in sections 135.010 to 135.030 the following words and terms mean:

(1) “Claimant”, a person or persons claiming a credit under sections 135.010 to 135.030. If the persons are eligible to file a joint federal income tax return and reside at the same address at any time during the taxable year, then the credit may only be allowed if claimed on a combined Missouri income tax return or a combined claim return reporting their combined incomes and property taxes. A claimant shall not be allowed a property tax credit unless the claimant or spouse has attained the age of sixty-five on or before the last day of the calendar year and the claimant or spouse was a resident of Missouri for the entire year, or the claimant or spouse is a veteran of any branch of the armed forces of the United States or this state who became one hundred percent disabled as a result of such service, or the claimant or spouse is disabled as defined in subdivision (2) of this section, and such claimant or spouse provides proof of such disability in such form and manner, and at such times, as the director of revenue may require, or if the claimant has reached the age of sixty on or before the last day of the calendar year and such claimant received surviving spouse

Social Security benefits during the calendar year and the claimant provides proof, as required by the director of revenue, that the claimant received surviving spouse Social Security benefits during the calendar year for which the credit will be claimed. **A claimant shall not be allowed a property tax credit if the claimant filed a valid claim for a credit under section 137.106 in the year following the year for which the property tax credit is claimed.** The residency requirement shall be deemed to have been fulfilled for the purpose of determining the eligibility of a surviving spouse for a property tax credit if a person of the age of sixty-five years or older who would have otherwise met the requirements for a property tax credit dies before the last day of the calendar year. The residency requirement shall also be deemed to have been fulfilled for the purpose of determining the eligibility of a claimant who would have otherwise met the requirements for a property tax credit but who dies before the last day of the calendar year;

(2) “Disabled”, the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than twelve months. A claimant shall not be required to be gainfully employed prior to such disability to qualify for a property tax credit;

(3) “Gross rent”, amount paid by a claimant to a landlord for the rental, at arm's length, of a homestead during the calendar year, exclusive of charges for health and personal care services and food furnished as part of the rental agreement, whether or not expressly set out in the rental agreement. If the director of revenue determines that the landlord and tenant have not dealt at arm's length, and that the gross rent is excessive, then he shall determine the gross rent based upon a reasonable amount of rent. Gross rent shall be deemed to be paid only if actually paid prior to the date a return is filed. The director of revenue may prescribe regulations requiring a return of information by a landlord receiving rent, certifying for a calendar year the amount of gross rent received from a tenant claiming a property tax credit and shall, by regulation, provide a method for certification by the claimant of the amount of gross rent paid for any calendar year for which a claim is made. The regulations authorized by this subdivision may require a landlord or a tenant or both to provide data relating to health and personal care services and to food. Neither a landlord nor a tenant may be required to provide data relating to utilities, furniture, home furnishings or appliances;

(4) “Homestead”, the dwelling in Missouri owned or rented by the claimant and not to exceed five acres of land surrounding it as is reasonably necessary for use of the dwelling as a home. It may consist of part of a multidwelling or multipurpose building and part of the land upon which it is built. “Owned” includes a vendee in possession under a land contract and one or more tenants by the entireties, joint tenants, or tenants in common and includes a claimant actually in possession if he was the immediate former owner of record, if a lineal descendant is presently the owner of record, and if the claimant actually pays all taxes upon the property. It may include a mobile home;

(5) “Income”, Missouri adjusted gross income as defined in section 143.121, RSMo, less two thousand dollars as an exemption for the claimant's spouse residing at the same address, and increased, where necessary, to reflect the following:

(a) Social Security, railroad retirement, and veterans payments and benefits unless the claimant is a one hundred percent service-connected, disabled veteran or a spouse of a one hundred percent service-connected, disabled veteran. The one hundred percent service-connected disabled veteran shall not be required to list veterans payments and benefits;

(b) The total amount of all other public and private pensions and annuities;

(c) Public relief, public assistance, and unemployment benefits received in cash, other than benefits received under this chapter;

(d) No deduction being allowed for losses not incurred in a trade or business;

(e) Interest on the obligations of the United States, any state, or any of their subdivisions and instrumentalities;

(6) “Property taxes accrued”, property taxes paid, exclusive of special assessments, penalties, interest, and charges for service levied on a claimant's homestead in any calendar year. Property taxes shall qualify for the credit only if actually paid prior to the date a return is filed. The director of revenue shall require a tax receipt or other proof of property tax payment. If a homestead is owned only partially by claimant, then “property taxes accrued” is that part of property taxes levied on the homestead which was actually paid by the claimant. For purposes of this subdivision, property taxes are “levied” when the tax roll is delivered to the director of revenue for collection. If a claimant owns a homestead part of the preceding calendar year and rents it or a different homestead for part of the same year, “property taxes accrued” means only taxes levied on the homestead both owned and occupied by the claimant, multiplied by the

percentage of twelve months that such property was owned and occupied as the homestead of the claimant during the year. When a claimant owns and occupies two or more different homesteads in the same calendar year, property taxes accrued shall be the sum of taxes allocable to those several properties occupied by the claimant as a homestead for the year. If a homestead is an integral part of a larger unit such as a farm, or multipurpose or multidwelling building, property taxes accrued shall be that percentage of the total property taxes accrued as the value of the homestead is of the total value. For purposes of this subdivision “unit” refers to the parcel of property covered by a single tax statement of which the homestead is a part;

(7) “Rent constituting property taxes accrued”, twenty percent of the gross rent paid by a claimant and spouse in the calendar year.

137.106. 1. This section may be known and may be cited as “The Missouri Homestead Preservation Act”.

2. As used in this section, the following terms shall mean:

(1) “Department”, the department of revenue;

(2) “Director”, the director of revenue;

(3) “Disabled”, as such term is defined in section 135.010, RSMo;

(4) “Eligible owner”, any individual owner of property who is sixty-five years old or older as of January first of the tax year in which the individual is claiming the credit or who is disabled, and who had an income of equal to or less than the maximum upper limit in the year prior to completing an application pursuant to subsection 4 of this section; in the case of a married couple owning property either jointly or as tenants by the entirety, or where only one spouse owns the property, such couple shall be considered an eligible taxpayer if both spouses have reached the age of sixty-five or if one spouse is disabled, or if one spouse is at least sixty-five years old and the other spouse is at least sixty years old, and the combined income of the couple in the year prior to completing an application pursuant to subsection 4 of this section did not exceed the maximum upper limit; **in the case of property held in trust, the eligible owner and recipient of the tax credit shall be the trust itself provided the previous owner of the homestead or the previous owner's spouse: is the settlor of the trust with respect to the homestead; currently resides in such homestead; and but for the transfer of such property would have satisfied the age, ownership, and maximum upper limit requirements for income as defined in subdivisions 7 and 8 of this subsection;** no individual shall be an eligible owner if the individual has not paid their property tax liability, if any, in full by the payment due date in any of the three prior tax years, except that a late payment of a property tax liability in any prior year, [not including the year in which the application was completed,] shall not disqualify a potential eligible owner if such owner paid in full the tax liability and any and all penalties, additions and interest that arose as a result of such late payment; no individual shall be an eligible owner if such person [qualifies] **filed a valid claim** for the senior citizens property tax relief credit pursuant to sections 135.010 to 135.035, RSMo;

(5) “Homestead”, as such term is defined pursuant to section 135.010, RSMo, except as limited by provisions of this section to the contrary. No property shall be considered a homestead if such property was improved since the most recent annual assessment by more than five percent of the prior year appraised value, **except where an eligible owner of the property has made such improvements to accommodate a disabled person;**

(6) “Homestead exemption limit”, a percentage increase, rounded to the nearest hundredth of a percent, which shall be equal to the percentage increase to tax liability, not including improvements, of a homestead from one tax year to the next that exceeds a certain percentage set pursuant to subsection [8] **10** of this section. **For applications filed in 2005 or 2006, the homestead exemption limit shall be based on the increase to tax liability from 2004 to 2005. For applications filed between April 1, 2005 and September 30, 2006, an eligible owner, who otherwise satisfied the requirements of this section, shall not apply for the homestead exemption credit more than once during such period. For applications filed after 2006, the homestead exemption limit shall be based on the increase to tax liability from two years prior to application to the year immediately prior to application;**

(7) “Income”, federal adjusted gross income, **and in the case of ownership of the homestead by trust, the income of the settlor applicant shall be imputed to the income of the trust for purposes of determining eligibility with regards to the maximum upper limit;**

(8) “Maximum upper limit”, in the calendar year 2005, the income sum of seventy thousand dollars; in each successive calendar year this amount shall be raised by the incremental increase in the general price level, as defined pursuant to article X, section 17 of the Missouri Constitution.

3. Pursuant to article X, section 6(a) of the Constitution of Missouri, if in the prior tax year, the property tax liability on any parcel of subclass (1) real property increased by more than the homestead exemption limit, without regard for any prior credit received due to the provisions of this section, then any eligible owner of the property shall receive a homestead exemption credit to be applied in the current tax year property tax liability to offset the prior year increase to tax liability that exceeds the homestead exemption limit, except as eligibility for the credit is limited by the provisions of this section. The amount of the credit shall be listed separately on each taxpayer's tax bill for the current tax year, or on a document enclosed with the taxpayer's bill. The homestead exemption credit shall not affect the process of setting the tax rate as required pursuant to article X, section 22 of the Constitution of Missouri and section 137.073 in any prior, current, or subsequent tax year.

4. If application is made in 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application through their local assessor's office. Applications may be completed between April first and September thirtieth of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided to the assessor's office by the department. Forms also shall be made available on the department's Internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall attest under penalty of perjury:

- (1) To the applicant's age;
- (2) That the applicant's prior year income was less than the maximum upper limit;
- (3) To the address of the homestead property; and
- (4) That any improvements made to the homestead, **not made to accommodate a disabled person**, did not total more than five percent of the prior year appraised value.

The applicant shall also include with the application copies of receipts indicating payment of property tax by the applicant for the homestead property for the two prior tax years.

5. If application is made in 2005, the assessor, upon [receiving] **request for** an application, shall:

(1) Certify the parcel number and owner of record as of January first of the homestead, including verification of the acreage classified as residential on the assessor's property record card;

(2) Obtain appropriate prior tax year levy codes for each homestead from the county clerks **for inclusion on the form**;

(3) Record on the application the assessed valuation of the homestead for the current tax year, and any new construction or improvements for the current tax year; and

(4) Sign the application, certifying the accuracy of the assessor's entries.

6. If application is made after 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application. Applications may be completed between April 1 and September 30 of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided by the department. Forms also shall be made available on the department's internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall attest under penalty of perjury:

- (1) To the applicant's age;
- (2) That the applicant's prior year income was less than the maximum upper limit;
- (3) To the address of the homestead property;
- (4) That any improvements made to the homestead, **not made to accommodate a disabled person**, did not total more than five percent of the prior year appraised value; and

(5) The applicant shall also include with the application copies of receipts indicating payment of property tax by the applicant for the homestead property for the three prior tax years.

7. Each applicant shall send the application to the department by September thirtieth of each year for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the application was completed.

[7.] **8. If application is made in 2005**, upon receipt of the applications, the department shall calculate the tax liability, adjusted to exclude new construction or improvements verify compliance with the maximum income limit,

verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant has also filed a valid application for the senior citizens property tax credit, pursuant to sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit, and provide a list of all verified eligible owners to the county collectors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county collectors or county clerks in counties with a township form of government shall provide a list to the department of any verified eligible owners who failed to pay the property tax due for the tax year that ended immediately prior. Such eligible owners shall be disqualified from receiving the credit in the current tax year.

[8.] 9. If application is made after 2005, upon receipt of the applications, the department shall calculate the tax liability, verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant also has filed a valid application for the senior citizens property tax credit under sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income is verified, the director shall determine eligibility for the credit and provide a list of all verified eligible owners to the county assessors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county assessors shall provide a list to the department of any verified eligible owners who made improvements not for accommodation of a disability to the homestead and the dollar amount of the assessed value of such improvements. If the dollar amount of the assessed value of such improvements totaled more than five percent of the prior year appraised value, such eligible owners shall be disqualified from receiving the credit in the current tax year.

10. The director shall calculate the level of appropriation necessary to set the homestead exemption limit at five percent when based on a year of general reassessment or at two and one-half percent when based on a year without general reassessment for the homesteads of all verified eligible owners, and provide such calculation to the speaker of the house of representatives, the president pro tempore of the senate, and the director of the office of budget and planning in the office of administration by January thirty-first of each year.

[9.] 11. [If, in any given year,] For applications made in 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all but one-quarter of one percent of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. The remaining one-quarter of one percent shall be distributed to the county assessment funds of each county on a proportional basis, based on the number of eligible owners in each county; such one-quarter percent distribution shall be delineated in any such appropriation as a separate line item in the total appropriation. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

[10.] 12. After setting the homestead exemption limit **for applications made in 2005**, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation **and assessment fund allocation** to the county collector's funds of each county **or the treasurer ex officio collector's fund in counties with a township form of government** where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued, plus the one-quarter of one percent distribution for the county assessment funds. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section plus the one-quarter of one percent distribution for the county assessment funds. Funds, at the direction of the county collector **or the treasurer ex officio collector in counties with a township form of government**, shall be deposited in the county collector's fund of a county **or the treasurer ex officio collector's fund** or may be sent by mail to the

collector of a county, or the treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued. In counties with a township form of government, the county clerk shall provide the treasurer ex officio collector a summary of the homestead exemption credit for each township for the purpose of distributing the total homestead exemption credit to each township collector in a particular county.

[11.] 13. If, in any given year after 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

14. After setting the homestead exemption limit for applications made after 2005, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation to the county collector's fund of each county where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section. Funds, at the direction of the collector of the county or treasurer ex-officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or may be sent by mail to the collector of a county, or treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued.

15. The department shall promulgate rules for implementation of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void. SENATE AMENDMENT NO. 15

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 58, Page 93, Section 94.860, Line 17, of said page, by inserting after all of said line the following:

“99.805. As used in sections 99.800 to 99.865, unless the context clearly requires otherwise, the following terms shall mean:

(1) “Blighted area”, an area which, by reason of the predominance of defective or inadequate street layout, unsanitary or unsafe conditions, deterioration of site improvements, improper subdivision or obsolete platting, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, morals, or welfare in its present condition and use;

(2) “Collecting officer”, the officer of the municipality responsible for receiving and processing payments in lieu of taxes or economic activity taxes from taxpayers or the department of revenue;

(3) “Conservation area”, any improved area within the boundaries of a redevelopment area located within the territorial limits of a municipality in which fifty percent or more of the structures in the area have an age of thirty-five years or more. Such an area is not yet a blighted area but is detrimental to the public health, safety, morals, or welfare and may become a blighted area because of any one or more of the following factors: dilapidation; obsolescence; deterioration; illegal use of individual structures; presence of structures below minimum code standards; abandonment; excessive vacancies; overcrowding of structures and community facilities; lack of ventilation, light or sanitary facilities; inadequate utilities; excessive land coverage; deleterious land use or layout; depreciation of physical maintenance; and lack of community planning. A conservation area shall meet at least three of the factors provided in this subdivision for projects approved on or after December 23, 1997;

(4) “Economic activity taxes”, the total additional revenue from taxes which are imposed by a municipality and other taxing districts, and which are generated by economic activities within a redevelopment area over the amount of such taxes generated by economic activities within such redevelopment area in the calendar year prior to the adoption of the ordinance designating such a redevelopment area, while tax increment financing remains in effect, but excluding personal property taxes, taxes imposed on sales or charges for sleeping rooms paid by transient guests of hotels and motels, licenses, fees or special assessments. For redevelopment projects or redevelopment plans approved after December 23, 1997, if a retail establishment relocates within one year from one facility to another facility within the same county and the governing body of the municipality finds that the relocation is a direct beneficiary of tax increment financing, then for purposes of this definition, the economic activity taxes generated by the retail establishment shall equal the total additional revenues from economic activity taxes which are imposed by a municipality or other taxing district over the amount of economic activity taxes generated by the retail establishment in the calendar year prior to its relocation to the redevelopment area;

(5) “Economic development area”, any area or portion of an area located within the territorial limits of a municipality, which does not meet the requirements of subdivisions (1) and (3) of this section, and in which the governing body of the municipality finds that redevelopment will not be solely used for development of commercial businesses which unfairly compete in the local economy and is in the public interest because it will:

(a) Discourage commerce, industry or manufacturing from moving their operations to another state; or

(b) Result in increased employment in the municipality; or

(c) Result in preservation or enhancement of the tax base of the municipality;

(6) “Gambling establishment”, an excursion gambling boat as defined in section 313.800, RSMo, and any related business facility including any real property improvements which are directly and solely related to such business facility, whose sole purpose is to provide goods or services to an excursion gambling boat and whose majority ownership interest is held by a person licensed to conduct gambling games on an excursion gambling boat or licensed to operate an excursion gambling boat as provided in sections 313.800 to 313.850, RSMo. This subdivision shall be applicable only to a redevelopment area designated by ordinance adopted after December 23, 1997;

(7) “Municipality”, a city, village, or incorporated town or any county of this state. For redevelopment areas or projects approved on or after December 23, 1997, “municipality” applies only to cities, villages, incorporated towns or counties established for at least one year prior to such date;

(8) “Obligations”, bonds, loans, debentures, notes, special certificates, or other evidences of indebtedness issued by a municipality to carry out a redevelopment project or to refund outstanding obligations;

(9) “Ordinance”, an ordinance enacted by the governing body of a city, town, or village or a county or an order of the governing body of a county whose governing body is not authorized to enact ordinances;

(10) “Payment in lieu of taxes”, those estimated revenues from real property in the area selected for a redevelopment project, which revenues according to the redevelopment project or plan are to be used for a private use, which taxing districts would have received had a municipality not adopted tax increment allocation financing, and which would result from levies made after the time of the adoption of tax increment allocation financing during the time the current equalized value of real property in the area selected for the redevelopment project exceeds the total initial equalized value of real property in such area until the designation is terminated pursuant to subsection 2 of section 99.850;

(11) “Redevelopment area”, an area designated by a municipality, in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as a blighted area, a conservation area, an economic development area, an enterprise zone pursuant to sections 135.200 to 135.256, RSMo, or a combination thereof, which area includes only those parcels of real property directly and substantially benefited by the proposed redevelopment project;

(12) “Redevelopment plan”, the comprehensive program of a municipality for redevelopment intended by the payment of redevelopment costs to reduce or eliminate those conditions, the existence of which qualified the redevelopment area as a blighted area, conservation area, economic development area, or combination thereof, and to thereby enhance the tax bases of the taxing districts which extend into the redevelopment area. Each redevelopment plan shall conform to the requirements of section 99.810;

(13) “Redevelopment project”, any development project within a redevelopment area in furtherance of the objectives of the redevelopment plan; any such redevelopment project shall include a legal description of the area selected for the redevelopment project;

If the homestead is located in a multi-unit building, the homestead is the portion of the building actually used as the principle dwelling and its percentage of the value of the common elements and of the value of the property upon which it is built. The percentage is the value of the unit consisting of the homestead compared to the total value of the building exclusive of common elements, if any;**

(2) **“Household”, a person or group of persons living together in a room or group of rooms as a housing unit, but the term does not include persons boarding in or renting a portion of the dwelling;**

(3) **“Household income”, the federal adjusted gross income as defined in Section 62 of the United States Internal Revenue Code, of all members in the household;**

(4) **“Individual with a disability”, a taxpayer with a physical or mental impairment which substantially limits one or more of a person's major life activities, or who is regarded as having such an impairment, or has a record of having such an impairment;**

(5) **“Tax-deferred property”, the property upon which increases in taxes are deferred under this section;**

(6) **“Taxes” or “property taxes”, ad valorem taxes, assessments, fees, and charges entered on the assessment and tax roll.**

Beginning January 1, 2006, any taxpayer sixty-five years of age or older with a household income of seventy thousand dollars or less, or any individual with a disability receiving Social Security income, may elect to defer any increases in taxes on homestead property beyond the total property taxes paid in the previous year, by obtaining a deferral after January first and on or before October fifteenth of the first year in which deferral is first claimed.

2. In order to qualify for tax deferral under this section, the following requirements must be met when the claim is filed and thereafter so long as the payment of taxes by the taxpayer is deferred:

(1) The property must be the homestead of the taxpayer who files the claim for deferral, except for a taxpayer required to be absent from the homestead by reason of health who owns the dwelling jointly with one or more individuals who qualify for the deferral;

(2) The homestead must be located in a county with a charter form of government and with more than one million inhabitants;

(3) There must be no prohibition to the deferral of property taxes contained in any provision of federal law, rule, or regulation applicable to a mortgage, trust deed, land sale contract for which the homestead is security;

(5) The taxpayer claiming the deferral must show proof of, and maintain throughout the deferral period, insurance on the homestead in an amount equal to or exceeding the assessed value of the homestead.

3. A taxpayer's claim for deferral under this section shall be filed with the county assessor in writing on a form supplied by the department of revenue and shall:

(1) Describe the homestead;

(2) Recite facts establishing the eligibility for the deferral under the provisions of section 137.102, including facts that establish that the household income of the individual or individuals in the household was, for the calendar year immediately preceding the calendar year in which the claim was filed, seventy thousand dollars or less; or

(3) Have attached any documentary proof required by the director to show that the requirements of this section have been met. A federal income tax return shall be determined as proof of eligibility under this income guideline.

4. The county assessor shall forward each claim filed under this section to the director of revenue, who shall determine if the property is eligible for deferral. If eligibility for deferral of homestead property taxes is established, the director of revenue shall notify the county assessor collector who shall show on the current ad valorem assessment and tax roll which property is tax-deferred property by an entry clearly designating such property as tax-deferred property.

5. The portion of increased taxes due beyond the total base amount of ad valorem property taxes paid in 2005 shall be deferred, and the county assessor or collector shall maintain accounts for each deferred property and shall accrue interest only on the amount of taxes deferred. The interest rate shall be two and one-half percent annually. The director of revenue shall have a lien on the homestead property in the amount of the deferred taxes and interest due.

6. The lien created under this section shall have the same priority as other real property tax liens except that the lien of mortgages, trust deeds, or security interests which are recorded or noted on a certificate of title prior in time to the attachment of the lien for deferred taxes shall be prior to the liens for deferred taxes.

7. Deferred ad valorem taxes and accrued interest shall become due and payable when:

(1) The taxpayer who claimed deferment of collection of property taxes on the homestead dies, or if there was more than one claimant, the survivor of the taxpayer who originally claimed the deferment of collection of property taxes under this section dies;

(2) The property with respect to which deferment of collection of taxes is claimed is sold or otherwise transferred;

(3) The tax-deferred property is no longer the homestead of the taxpayer who claimed the deferral, except in the case of a taxpayer required to be absent from such tax-deferred property by reason of health who owns the dwelling jointly with one or more individuals who qualify for the deferral;

(4) The tax-deferred property is a manufactured structure or floating home which is moved out of the state.

8. Whenever any of the circumstances listed in this subsection occurs, the deferral of taxes for the assessment year in which the circumstance occurs shall continue for such assessment year, and the amounts of deferred property taxes, including accrued interest, for all years shall be due and payable on the date of closing or the date of probate to the director of revenue. If the homestead property is removed from the state, the

amount of deferred taxes shall be due and payable five days before the date of removal of the property from the state. All payments of deferred taxes shall be made to the county collector and shall be distributed in accordance with the then-current distribution plan.

9. Subsection 1 of this section shall not apply to payment for real property taxes by financial institutions, as defined in section 381.410, RSMo, who pay tax obligations that they service from escrow accounts, as defined in Title 24, Part 3500, Section 17, Code of Federal Regulation, as amended.

SENATE AMENDMENT NO. 28

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 58, Page 68, Section 71.208, Line 17, of said page by inserting after all of said line the following:

“71.012. 1. Notwithstanding the provisions of sections 71.015 and 71.860 to 71.920, the governing body of any city, town or village may annex unincorporated areas which are contiguous and compact to the existing corporate limits of the city, town or village pursuant to this section. The term “contiguous and compact” does not include a situation whereby the unincorporated area proposed to be annexed is contiguous to the annexing city, town or village only by a railroad line, trail, pipeline or other strip of real property less than one-quarter mile in width within the city, town or village so that the boundaries of the city, town or village after annexation would leave unincorporated areas between the annexed area and the prior boundaries of the city, town or village connected only by such railroad line, trail, pipeline or other such strip of real property. The term “contiguous and compact” does not prohibit voluntary annexations pursuant to this section merely because such voluntary annexation would create an island of unincorporated area within the city, town or village, so long as the owners of the unincorporated island were also given the opportunity to voluntarily annex into the city, town or village. Notwithstanding the provisions of this section, the governing body of any city, town or village in any county of the third classification which borders a county of the fourth classification, a county of the second classification and Mississippi River may annex areas along a road or highway up to two miles from existing boundaries of the city, town or village or the governing body in any city, town or village in any county of the third classification without a township form of government with a population of at least twenty-four thousand inhabitants but not more than thirty thousand inhabitants and such county contains a state correctional center may voluntarily annex such correctional center pursuant to the provisions of this section if the correctional center is along a road or highway within two miles from the existing boundaries of the city, town or village.

2. (1) When a verified petition, requesting annexation and signed by the owners of all fee interests of record in all tracts of real property located within the area proposed to be annexed, or a request for annexation signed under the authority of the governing body of any common interest community and approved by a majority vote of unit owners located within the area proposed to be annexed is presented to the governing body of the city, town or village, the governing body shall hold a public hearing concerning the matter not less than fourteen nor more than sixty days after the petition is received, and the hearing shall be held not less than seven days after notice of the hearing is published in a newspaper of general circulation qualified to publish legal matters and located within the boundary of the petitioned city, town or village. If no such newspaper exists within the boundary of such city, town or village, then the notice shall be published in the qualified newspaper nearest the petitioned city, town or village. For the purposes of this subdivision, the term “common-interest community” shall mean a condominium as said term is used in chapter 448, RSMo, or a common-interest community, a cooperative, or a planned community.

(a) A “common-interest community” shall be defined as real property with respect to which a person, by virtue of such person's ownership of a unit, is obliged to pay for real property taxes, insurance premiums, maintenance or improvement of other real property described in a declaration. “Ownership of a unit” does not include a leasehold interest of less than twenty years in a unit, including renewal options;

(b) A “cooperative” shall be defined as a common-interest community in which the real property is owned by an association, each of whose members is entitled by virtue of such member's ownership interest in the association to exclusive possession of a unit;

(c) A “planned community” a common-interest community that is not a condominium or a cooperative. A condominium or cooperative may be part of a planned community.

(2) At the public hearing any interested person, corporation or political subdivision may present evidence regarding the proposed annexation. If, after holding the hearing, the governing body of the city, town or village determines that the annexation is reasonable and necessary to the proper development of the city, town or village, and the city, town or village has the ability to furnish normal municipal services to the area to be annexed within a reasonable time, it may, subject to the provisions of subdivision (3) of this subsection, annex the territory by ordinance without further action.

(3) If a written objection to the proposed annexation is filed with the governing body of the city, town or village not later than fourteen days after the public hearing by at least [two] **eight** percent of the qualified voters of the city, town or village, or two qualified voters of the area sought to be annexed if the same contains two qualified voters, the provisions of sections 71.015 and 71.860 to 71.920, shall be followed.

3. If no objection is filed, the city, town or village shall extend its limits by ordinance to include such territory, specifying with accuracy the new boundary lines to which the city's, town's or village's limits are extended. Upon duly enacting such annexation ordinance, the city, town or village shall cause three certified copies of the same to be filed with the clerk of the county wherein the city, town or village is located, and one certified copy to be filed with the election authority, if different from the clerk of the county which has jurisdiction over the area being annexed, whereupon the annexation shall be complete and final and thereafter all courts of this state shall take judicial notice of the limits of that city, town or village as so extended.”; and

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-FOURTH DAY— WEDNESDAY, MAY 4, 2005

The Senate met pursuant to adjournment.

Senator Crowell in the Chair.

Reverend Carl Gauck offered the following prayer:

Benjamin Franklin said, “I am in perpetual anxiety lest...an accidental quarrel, a personal insult, an imprudent order...make a breach that can never afterward be healed.” (October 6, 1774)

Gracious God, we pray in these closing days that we would always be known for who and what we are for and not who and what we are against. May we trust You who sees beyond today to guide our steps and help us clearly to be known for the openness and forgiveness we convey as we deal with each other and serve our people. Grant us patience and love to willingly protect the reputation and interest of others as we seek to do Your will this day and every day. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

SENATE AMENDMENT NO. 4

Amend Senate Substitute for Senate Committee Substitute for House Bill No. 487, Page 68, Section 301.302, Line 6, of said page, by inserting immediately after said line the following:

“301.567. 1. For purposes of this section, a violation of any of the following advertising standards shall be deemed an attempt by the advertising dealer to obtain a fee or other compensation by fraud, deception or misrepresentation in violation of section 301.562:

- (1) A motor vehicle shall not be advertised as new, either by express terms or implication, unless it is a “new

motor vehicle” as defined in section 301.550;

(2) When advertising any motor vehicle which is not a new motor vehicle, such advertisement must expressly identify that the motor vehicle is a used motor vehicle by express use of the term “used”, or by such other term as is commonly understood to mean that the vehicle is used;

(3) Any terms, conditions, and disclaimers relating to the advertised motor vehicle's price or financing options shall be stated clearly and conspicuously. An asterisk or other reference symbol may be used to point to a disclaimer or other information, but not be used as a means of contradicting or changing the meaning of an advertised statement;

(4) The expiration date, if any, of an advertised sale or vehicle price shall be clearly and conspicuously disclosed. In the absence of such disclosure, the advertised sale or vehicle price shall be deemed effective so long as such vehicles remain in the advertising dealership's inventory;

(5) The terms “list price”, “sticker price”, or “suggested retail price” shall be used only in reference to the manufacturer's suggested retail price for new motor vehicles, and, if used, shall be accompanied by a clear and conspicuous disclosure that such terms represent the “manufacturer's suggested retail price” of the advertised vehicle;

(6) Terms such as “at cost”, “\$..... above cost” shall not be used in advertisements because of the difficulty in determining a dealer's actual net cost at the time of the sale. Terms such as “invoice price”, “\$..... over invoice” may be used, provided that the invoice referred to is the manufacturer's factory invoice for a new motor vehicle and the invoice is available for customer inspection. For purposes of this section, “manufacturer's factory invoice” means that document supplied by the manufacturer to the dealer listing the manufacturer's charge to the dealer before any deduction for holdback, group advertising, factory incentives or rebates, or any governmental charges;

(7) When the price or financing terms of a motor vehicle are advertised, the vehicle shall be fully identified as to year, make, and model. In addition, in advertisements placed by individual dealers and not line-make marketing groups, the advertised price or credit terms shall include all charges which the buyer must pay to the dealer, except buyer-selected options and state and local taxes. If a processing fee or freight or destination charges are not included in the advertised price, the amount of any such processing fee and freight or destination charge must be clearly and conspicuously disclosed within the advertisement;

(8) Advertisements which offer to match or better any competitors' prices shall not be used;

(9) Advertisements of “dealer rebates” shall not be used, however, this shall not be deemed to prohibit the advertising of manufacturer rebates, so long as all material terms of such rebates are clearly and conspicuously disclosed;

(10) “Free”, “at no cost” shall not be used if any purchase is required to qualify for the “free” item, merchandise, or service;

(11) “Bait advertising”, in which an advertiser may have no intention to sell at the prices or terms advertised, shall not be used. Bait advertising shall include, but not be limited to, the following examples:

(a) Not having available for sale the advertised motor vehicles at the advertised prices. If a specific vehicle is advertised, the dealer shall be in possession of a reasonable supply of such vehicles, and they shall be available at the advertised price. If the advertised vehicle is available only in limited numbers or only by order, such limitations shall be stated in the advertisement;

(b) Advertising a motor vehicle at a specified price, including such terms as “as low as \$.....”, but having available for sale only vehicles equipped with dealer-added cost options which increase the selling price above the advertised price;

(12) Any reference to monthly payments, down payments, or other reference to financing or leasing information shall be accompanied by a clear and conspicuous disclosure of the following:

(a) Whether the payment or other information relates to a financing or a lease transaction;

(b) If the payment or other information relates to a financing transaction, the minimum down payment, annual percentage interest rate, and number of payments necessary to obtain the advertised payment amount must be disclosed, in addition to any special qualifications required for obtaining the advertised terms including, but not limited to, “first-time buyer” discounts, “college graduate” discounts, and a statement concerning whether the advertised terms are subject to credit approval;

(c) If the payment or other information relates to a lease transaction, the total amount due from the purchaser at signing with such costs broken down and identified by category, lease term expressed in number of months, whether

the lease is closed-end or open-end, and total cost to the lessee over the lease term in dollars;

(13) Any advertisement which states or implies that the advertising dealer has a special arrangement or relationship with the distributor or manufacturer, as compared to similarly situated dealers, shall not be used;

(14) Any advertisement which, in the circumstances under which it is made or applied, is false, deceptive, or misleading shall not be used;

(15) No abbreviations for industry words or phrases shall be used in any advertisement unless such abbreviations are accompanied by the fully spelled or spoken words or phrases.

2. The requirements of this section shall apply regardless of whether a dealer advertises by means of print, broadcast, or electronic media, or direct mail. **If the advertisement is by means of a broadcast or print media, a dealer may provide the disclaimers and disclosures required under subdivision (3) of subsection 1 of this section by reference to an Internet web page or toll-free telephone number containing the information required to be disclosed.**

3. Dealers shall clearly and conspicuously identify themselves in each advertisement by use of a dealership name which complies with subsection 6 of section 301.560.”; and

Further amend the title and enacting clause accordingly.

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-SIXTH DAY—MONDAY, MAY 9, 2005

The Senate met pursuant to adjournment.

Senator Nodler in the Chair.

Reverend Carl Gauck offered the following prayer:

The great English preacher, Mr. Spurgeon, asked a farmer with a weather vane inscribed “God is Love” if that meant God’s love changed with the wind. The Farmer replied: “No, whatever way the wind blows God still is love.”

Gracious God, we begin our final week and know whether it be gentle moments or times of great stress ahead Your love is still with us. Grant us this week Your abiding presence and guide us so that we may never doubt Your hand leading us. And, even though we continue to hear of bombing and death perpetrated by those who hate us, may we never have doubts of Your abiding love. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

“304.282. 1. Wherever used in this section the following terms mean:

(1) **“An automated traffic control system”**, a device with one or more motor vehicle sensors working in conjunction with a traffic control signal to automatically produce two or more photographs, two or more micrographs, a videotape or other recorded images of a motor vehicle entering an intersection in violation of red signal indication authorized under section 304.281;

(2) **“Owner”**, the registered owner of a motor vehicle or lessee of a motor vehicle under a lease of six months or more as shown by the records of the department of revenue.

2. Any automated traffic control system or any device which is part of that system, as described in subsection 1 of this section, installed on a street or highway which is a part of a city not within a county's traffic light system shall meet requirements established by the state of Missouri. Any automated traffic control system installed on a street located in a city not within a county shall meet standards established by the city not within a county and shall be consistent with any standards set by the Missouri department of transportation.

3. A city not within a county may adopt ordinances for the civil enforcement of this section by means of an automated traffic control system as described in subsection 1 of this section. In the event that a city not within a county adopts an ordinance under this section, a violation of a red signal at a location where an automated traffic control system is in operation shall not be an infraction. An ordinance authorized by this subsection shall provide that:

(1) **The owner of the vehicle shall be given notice of the violation within thirty days of the date of the violation. The notice shall include copies of any photographs, micrographs, videotape or other recorded images produced by the automated traffic control system;**

(2) **The owner of the vehicle shall be responsible for a violation unless the owner can furnish evidence that the vehicle was, at the time of the violation, in the care, custody, or control of another person. The owner of the vehicle shall not be responsible for the violation if the owner of the vehicle, within thirty days after notification of the violation, furnishes the officials or agents of the city not within a county that issued the citation either of the following:**

(a) **An affidavit stating that the vehicle involved was, at the time, in the care, custody, or control of another person. Evidence may include, but is not limited to, the name and address of the person or company who had the care, custody, and control of the vehicle;**

(b) **An affidavit stating the vehicle involved was, at the time, stolen. The affidavit must be supported with evidence that supports the affidavit, including insurance or police report information;**

(3) **In such an instance the owner, subject to the penalties for perjury, shall submit conclusive evidence in an affidavit authorized in subdivision (2) of this subsection setting forth the name, address, and other pertinent information of the person who leased, rented, or otherwise had care, custody, or control of the motor vehicle at the time of the alleged violation, the nonjudicial administrative hearing may terminate the prosecution of the citation issued to the owner, and issue a citation to the person clearly identified in the affidavit as the operator of the motor vehicle at the time of the violation;**

(4) The registered owner of the vehicle shall not be responsible for the violation, if notice of the violation is given to the registered owner of the vehicle more than thirty days after the violation.

4. If a violation detected by an automatic traffic control system involves a vehicle that is registered in the name of a rental, leasing, or fleet company and the vehicle is rented, leased, or the use of such vehicle is otherwise granted to another person at the time the violation occurred, the rental, leasing, or fleet company may rebut the presumption by providing the city not within a county with a copy of the rental, lease, or other agreement in effect at the time the violation occurred. The company shall not be liable for the violation, unless prior notice of the violation has been given to that company under subsection 3 of this section and the company fails to provide a copy of the rental, lease, or employment agreement within thirty days of receipt of such notice.

5. Any automated traffic control system on a street or highway must be identified by appropriate advance warning signs conspicuously posted not more than three hundred feet from the location of the automated traffic control system location. All advance warning signs shall be approved by the department of transportation in conjunction with the city not within a county authorized to install automated traffic control systems.

6. A violation detected by an automated traffic control system shall be deemed a noncriminal violation for which a civil penalty of fifty dollars shall be assessed, and for which no points authorized by section 302.302, RSMo, shall be assigned to the owner or driver of the vehicle. A person who possesses a commercial drivers license or operates a commercial motor vehicle at the time of the violation, however, shall have such conviction posted or affixed on his or her driver's record in order to ensure compliance with Title 49, Code of Federal Regulations, Part 384, as amended.

7. The owner of the vehicle shall be issued a citation which shall clearly state the manner in which the violation may be challenged and the owner shall comply with the directions on the citation. The citation must also include instructions on how to dispose of the violation through appearance before the nonjudicial administrative hearing or payment of the fine and costs. The citation shall be processed by officials or agents of the city not within a county and shall be forwarded by personal service or first-class mail to the address given on the motor vehicle registration. If the owner fails to pay the civil penalty or to respond to the citation within the time period specified on the citation, the owner shall have waived the right to contest responsibility for the violation, and shall be subject to a civil penalty not to exceed one hundred dollars. The city not within a county may establish procedures for the collection of these penalties and may enforce the penalties by civil action in the nature of the debt.

8. The citation instructions shall inform the owner of the vehicle that, when responding to the citation, the owner shall provide any driver's license number, commercial or noncommercial, issued in the owner's name. If, upon receipt, the record reveals that the owner of the vehicle possesses a commercial driver's license, the city not within a county shall, upon conviction, notify the department of revenue of the conviction. The department of revenue shall record such conviction as prescribed by law.

9. The city not within a county shall institute a nonjudicial administrative hearing process to review objections to citations or penalties issued or assessed under this section.

10. The city not within a county that establishes an automated traffic control system may also enter into an agreement or agreements for the purpose of compensating a private vendor to perform operational and administrative tasks associated with the use of automated traffic control systems. Any compensation paid to a private vendor shall not be based upon a contingency basis nor shall such compensation be based upon revenues generated from the use of such system. The city not within a county may enter into an agreement with the department of revenue for the purpose of obtaining relevant records regarding vehicle owners in order for the city not within a county to prepare and mail summonses.

11. Photographs, micrographs, videotape, or other recorded images produced by an automated traffic control system that are provided to governmental and law enforcement agencies for the purposes of this section shall be confidential.

12. One year following the adoption of an ordinance by a city not within a county described in subsection 3 of this section, the department of public safety shall issue a report as to the effectiveness of the use of automated traffic control systems. The report shall include, but not be limited to, recommendations of whether such a system shall be instituted on a statewide basis. The report shall be delivered to the individual members of the

- (4) Any other reason explained in the plan regarding the circumstances and cause of the plan being incomplete.**

3. The commission shall review the relocation plan to ensure compatibility with permit requirements, the project plan, and the anticipated letting date and notice to proceed for the project. If utility relocation is dependent upon or must be coordinated with work to be completed by the contractor, the relocation plan shall assure timely completion of the project. If the relocation plan is acceptable to the commission, the commission shall notify the owner in writing within thirty days of receiving the plan. If the relocation plan submitted by the owner is not compatible, reasonable, or does not allow timely completion of the project, the commission shall advise the owner in writing as soon as practicable, but not later than thirty days after receiving the relocation plan. The commission shall specify in the notice which parts of the relocation plan it finds objectionable, and the reasons for its conclusions. The owner shall submit a revised relocation plan within thirty calendar days after receipt of notice by the commission that the relocation plan is not acceptable. The commission shall review the revised relocation plan, and if the relocation plan is still not acceptable, the commission shall provide a relocation plan to the owner. The owner shall not be bound by the terms of the commission's relocation plan if such relocation plan:

- (1) Requires the payment of overtime to employees to expedite the construction project; or**
- (2) Requires the owner to comply with a deadline which is not feasible due, in whole or in part, to one or more factors outside the control of the owner.**

4. If the owner informs the commission, in writing, or the commission determines that the owner's relocation work is dependent upon or must be coordinated with work being performed by the commission's contractor, the commission shall convene a meeting of the contractor and the one or more owners whose relocation work is dependent upon or must be coordinated with the contractor's work. Such meeting shall be held after the letting date at which bids were received for the construction project, but prior to the issuance of a notice to proceed to the commission's contractor. After such meeting, and before or concurrent with the issuance of a notice to proceed, the commission shall provide a schedule for the relocation of utilities to the owner and the commission's contractor. If the approved relocation plan, or a portion of such plan, is dependent upon or must be coordinated with work to be performed by the contractor, the contractor shall notify the commission of its best estimate of the date that all construction necessary for the relocation of utilities will be completed, at least fourteen days prior to such date. If such completion date is delayed due to weather or other causes, the contractor shall immediately notify the commission of the delay and the revised expected completion date. The contractor shall give a second notice to the commission five days prior to the date work will be completed as necessary for relocation work to begin. It shall be the responsibility of the commission to notify the owner or owners of the contractor's estimated completion dates. The contractor may also notify the owner directly of such dates, if the contractor has received information from the owner under subsection 7 of this section, but such notice shall not relieve the commission of its obligation to notify the owner. If the contractor's delay causes additional delay by the owner, the commission and the owner shall negotiate in good faith to determine the new completion date.

5. (1) The commission shall notify the owner in writing not less than thirty days before the owner is required to begin relocation provided for in the approved relocation plan. Unless the owner has encountered excusable delay as set forth in subsection 4 of section 227.248, the owner shall complete its work within the time frame described in the relocation plan, and shall complete all work that can be done prior to construction before the issuance of the notice to proceed, including work that may need to be coordinated with other utility owners but is not dependent on the work of the contractor.

(2) The notice required by subdivision (1) of this subsection shall include the name, address, telephone number, facsimile number, and electronic mail address of the commission's contractor and any subcontractors performing work on the construction project. Such information shall also include the name and title of an individual employed by the contractor or subcontractor having primary responsibility for the construction

project. Within fifteen days of receiving notice, the owner shall provide to the commission and the commission's contractor the name, address, telephone number, facsimile number, and electronic mail address of the employee of the owner who is responsible for implementation of the owner's relocation plan and the same information for any utility contractor to the owner for purposes of carrying out the relocation plan.

6. The owner shall notify the commission when relocation work has started. During the course of the relocation work, the commission may require owners to provide progress reports until its relocation is completed. The owner shall notify the commission when all relocation work is complete. All notices of either starting or completion of relocation work and all monthly progress reports shall be provided within five days after such dates.

227.246. 1. If, prior to the letting date of the construction project, the commission's project plan is changed so that additional or different utility relocation work is found necessary, the commission shall furnish a revised project plan under section 227.244, and the owner shall provide the commission with a revised relocation plan under section 227.245, except that the time allowed for the owner to submit the revised relocation plan after receipt of the revised project plan shall not exceed sixty days.

2. If, after the letting date of the highway construction project, additional utility relocation work is found necessary which was not indicated on the original project plan, the commission shall provide the owner with a revised project plan within fifteen days and the commission and the owner shall agree on a reasonable schedule for completion of the additional utility location.

227.247. 1. The commission shall have authority to require that any required notice, response, or plan be submitted by mail or certified mail. Otherwise notices, plans, and other statements in writing may be provided by mail, facsimile, or electronic mail. The commission may require that some form of proof of receipt be provided in regard to any notice, plan, or other statement in writing. Upon mutual agreement between the commission and an owner, additional time may be granted for the completion of any act required by sections 227.241 to 227.249.

2. Nothing in sections 227.241 to 227.249 shall be construed to relieve a contractor from making notice of excavation as required by sections 319.010 to 319.050, RSMo, of the underground facility safety and damage prevention act, or complying with the requirements of sections 319.075 to 319.090, RSMo, of the overhead powerline safety act, except to the extent that any provisions of sections 227.241 to 227.249 require additional obligations beyond those set forth in sections 319.011 to 319.050, RSMo, or sections 319.075 to 319.090, RSMo, in which case the requirements of sections 227.241 to 227.249 shall prevail.

227.248. 1. If the owner of a utility facility fails to provide the responses or corrections to project plans required by sections 227.243 to 227.246, the commission may recover from the owner damages in the amount of up to one hundred dollars per day for each day the required act is not completed.

2. If the owner fails to provide a relocation plan or fails to timely relocate utility facilities in accordance with the relocation plan as required by section 227.245, the commission may recover from the owner damages in the amount of up to one thousand dollars per day for each day the required act is not completed.

3. The damages authorized by subsections 1 and 2 of this section may be recovered through actions brought by the chief counsel to the commission, or may be referred to the attorney general for appropriate action. An action to collect the damages authorized by this section shall be brought in a court of appropriate jurisdiction. All damages collected under this section shall be deposited in the state road fund.

4. No damages or fines of any kind shall be assessed for delays that result, in whole or in part, directly or indirectly, from any of the following:

- (1) Customer delays;
- (2) Labor strikes or shortages;
- (3) Terrorist attacks, riots, civil unrest, or criminal sabotage;
- (4) Acts of God, or extreme weather events;
- (5) Delays caused by staffing shortages in the geographic area near the commission's construction project due to the owner's need to reassign an unusual number of workers to any other area to respond to an act of God or extreme weather event;
- (6) The failure of another owner to sufficiently complete its required relocation of utility facilities that

interfere with an owner's relocation plan;

(7) The failure of another owner or delay by another owner in submitting relocation plans that interfere with an owner's relocation plan;

(8) Delays by the commission in acquiring necessary right-of-way or necessary easements;

(9) Delays caused by facility damages or cable cuts caused by the commission's contractor, other owners, or third parties;

(10) Unusual material shortages; and

(11) Any other event or action beyond the reasonable control of the owner.

The occurrence of any of the unusual events listed in this section shall constitute an affirmative defense to the assessment of damages under the provisions of this section.

5. The removal and relocation of utility facilities shall be made at the expense of the owners unless otherwise provided by the commission. If the owner fails to relocate the utility facilities in accordance with the relocation plan as required by section 227.245, the utility facilities may be removed and relocated by the state highways and transportation commission, or under its direction, and the cost of relocating the utility facilities shall be collected from such owner. If the state highways and transportation commission or its designee removes and relocates the utility facilities, the utility owner shall not be liable to any party for any damages caused by the commission's or the commission's designee's removal and relocation of such facilities.

227.249. Any home rule city having a population of sixty thousand inhabitants or greater or any charter county of the first classification may adopt ordinances, policies, resolutions, or regulations consistent with sections 227.241 to 227.249 regarding the relocation of utility facilities located within the right-of-way of streets, highways, or roads under their respective jurisdiction, which are not state highways. Any ordinance, policy, resolution, or regulation adopted under the authority of this section shall not infringe upon, negate or otherwise abrogate an owner's right to construct, own, operate, and maintain utility facilities within the right-of-ways of such political subdivision that the owner otherwise enjoyed prior to the adoption of such ordinance, policy, resolution, or regulation.

(22) "Work", construction and services required of the contractor by the contractor's contract with the commission, including excavation as that term is defined in section 319.015, RSMo.

227.243. 1. At the earliest possible date in the design of a construction project on a state highway, the commission shall attempt to determine what utility facilities are located within the right-of-way of the planned construction project by researching permit files and reviewing map files maintained by the commission. The commission shall also, as necessary, conduct field investigations and contact local governments to identify any utility facilities within the right-of-way.

2. Within thirty days of completion of the survey conducted under subsection 1 of this section, the commission shall notify in writing owners of each known utility facility that a construction project is planned that may conflict with their utility facility. The notification shall include the name or route number of the highway, the geographical limits of the planned construction project, a general description of the work to be done including a preliminary plan, the desired date for completion of a relocation plan, and the anticipated month and year a letting date could be set for the construction project.

3. The owner shall examine the notice and notify the commission in writing of any utility facility not correctly described in the commission's notice. Within sixty days of receiving the notice required in subsection 2 of this section, the owner shall provide a written response to the commission. The response shall describe and provide the general location of each utility facility of the owner by confirming the location shown in the

commission's notice or by providing additions or corrections.

227.244. 1. Upon completion of the initial design of the construction project, the commission shall provide at least one set of project plans to each owner of a utility facility identified under section 227.243.

2. The project plans shall show those portions of the construction project upon which the owner's utility facilities are located and where the utility facilities of other owners are located in relation to work required for the project. The commission shall also provide with the project plans a description of any right-of-way still to be purchased and the anticipated letting date of the project. The project plan shall be accompanied by a complete set of plans including profile, cross-section, drainage, signal, lighting, signing plans, temporary road plans that may affect utilities, and other pertinent plan sheets. Upon request of the owner, the commission shall provide any additional plan information needed by the owner to design and lay out the removal, relocation, or adjustment of existing facilities and the placement of relocated or new utility facilities within the limits of the construction project.

3. Within thirty days of receipt of the project plans, the utility owner shall develop a preliminary plan of adjustment and return the marked-up project plans to the commission. The plan of adjustment shall include:

- (1)** Verification that all utility facilities are shown;
- (2)** The proposed location of adjusted utility facilities;
- (3)** Any additional right-of-way requirements; and
- (4)** Any other concerns.

4. When two or more owners have facilities in the area encompassed by the construction project, the commission shall schedule a utility coordination meeting as soon as possible but no longer than thirty days from the date the project plans were mailed. The commission's project manager and all owners are required to attend this meeting. If there is a conflict between two owners which cannot be satisfactorily resolved by the owners, the commission shall determine the most appropriate method to resolve the conflict between the two owners, and, in making such determination, shall weigh equally the length of time necessitated by each owner's proposal, and the relative cost to each owner if the other's proposal is adopted. The commission shall notify all utility owners involved with the project in writing of the commission's acceptance or revisions to the utility plan of adjustment.

227.245. 1. Within one hundred twenty days of receiving written notice of approval of the utility plan of adjustment from the commission, the owner shall provide the commission with a relocation plan. The one hundred twenty-day clock stops after the relocation plan is submitted by the owner. If, after timely submission of the relocation plan by the owner, revisions or alterations are necessary for any reason, or if the original relocation plan was incomplete due to information needed from other parties, the one hundred twenty-day clock begins to run again when the needed information is received back by the owner.

2. The relocation plan shall include a narrative description of work that will be done in relocating the owner's utility facilities and whether the work or a portion of the work must be coordinated with or is contingent upon work being performed by another utility facility owner or the contractor to the commission. The relocation plan shall list, if applicable, any anticipated issues or problems related to the acquisition of right-of-way. The relocation plan shall, if applicable, detail the anticipated number of days to acquire additional easements not provided within the new highway right-of-way. The relocation plan shall also give estimates as to the time needed to obtain any necessary customer approvals for cut-over dates, if necessary. The relocation plan shall state when the work will be started and the length of time in days estimated to complete the work. It is permissible for an owner to state in a relocation plan that the owner's work will be completed within a stated number of days from the date that a contractor or another owner completes certain identified work which interferes with the owner's work. The relocation plan shall identify any contingencies, if applicable, that may impact the anticipated start of relocation. The relocation plan shall also describe whether the plan is incomplete due to:

- (1)** Other owners failing to coordinate their plans with the owner submitting the plan;
- (2)** Other owners failing to provide information necessary to submit a complete relocation plan;
- (3)** The commission failing to provide any information required by subsection 2 of section 227.244; or
- (4)** Any other reason explained in the plan regarding the circumstances and cause of the plan being

incomplete.

3. The commission shall review the relocation plan to ensure compatibility with permit requirements, the project plan, and the anticipated letting date and notice to proceed for the project. If utility relocation is dependent upon or must be coordinated with work to be completed by the contractor, the relocation plan shall assure timely completion of the project. If the relocation plan is acceptable to the commission, the commission shall notify the owner in writing within thirty days of receiving the plan. If the relocation plan submitted by the owner is not compatible, reasonable, or does not allow timely completion of the project, the commission shall advise the owner in writing as soon as practicable, but not later than thirty days after receiving the relocation plan. The commission shall specify in the notice which parts of the relocation plan it finds objectionable, and the reasons for its conclusions. The owner shall submit a revised relocation plan within thirty calendar days after receipt of notice by the commission that the relocation plan is not acceptable. The commission shall review the revised relocation plan, and if the relocation plan is still not acceptable, the commission shall provide a relocation plan to the owner. The owner shall not be bound by the terms of the commission's relocation plan if such relocation plan:

(1) Requires the payment of overtime to employees to expedite the construction project; or

(2) Requires the owner to comply with a deadline which is not feasible due, in whole or in part, to one or more factors outside the control of the owner.

4. If the owner informs the commission, in writing, or the commission determines that the owner's relocation work is dependent upon or must be coordinated with work being performed by the commission's contractor, the commission shall convene a meeting of the contractor and the one or more owners whose relocation work is dependent upon or must be coordinated with the contractor's work. Such meeting shall be held after the letting date at which bids were received for the construction project, but prior to the issuance of a notice to proceed to the commission's contractor. After such meeting, and before or concurrent with the issuance of a notice to proceed, the commission shall provide a schedule for the relocation of utilities to the owner and the commission's contractor. If the approved relocation plan, or a portion of such plan, is dependent upon or must be coordinated with work to be performed by the contractor, the contractor shall notify the commission of its best estimate of the date that all construction necessary for the relocation of utilities will be completed, at least fourteen days prior to such date. If such completion date is delayed due to weather or other causes, the contractor shall immediately notify the commission of the delay and the revised expected completion date. The contractor shall give a second notice to the commission five days prior to the date work will be completed as necessary for relocation work to begin. It shall be the responsibility of the commission to notify the owner or owners of the contractor's estimated completion dates. The contractor may also notify the owner directly of such dates, if the contractor has received information from the owner under subsection 7 of this section, but such notice shall not relieve the commission of its obligation to notify the owner. If the contractor's delay causes additional delay by the owner, the commission and the owner shall negotiate in good faith to determine the new completion date.

5. (1) The commission shall notify the owner in writing not less than thirty days before the owner is required to begin relocation provided for in the approved relocation plan. Unless the owner has encountered excusable delay as set forth in subsection 4 of section 227.248, the owner shall complete its work within the time frame described in the relocation plan, and shall complete all work that can be done prior to construction before the issuance of the notice to proceed, including work that may need to be coordinated with other utility owners but is not dependent on the work of the contractor.

(2) The notice required by subdivision (1) of this subsection shall include the name, address, telephone number, facsimile number, and electronic mail address of the commission's contractor and any subcontractors performing work on the construction project. Such information shall also include the name and title of an individual employed by the contractor or subcontractor having primary responsibility for the construction project. Within fifteen days of receiving notice, the owner shall provide to the commission and the commission's contractor the name, address, telephone number, facsimile number, and electronic mail address of the employee of the owner who is responsible for implementation of the owner's relocation plan and the same information for any utility contractor to the owner for purposes of carrying out the relocation plan.

6. The owner shall notify the commission when relocation work has started. During the course of the relocation work, the commission may require owners to provide progress reports until its relocation is completed. The owner shall notify the commission when all relocation work is complete. All notices of either starting or completion of relocation work and all monthly progress reports shall be provided within five days after such dates.

227.246. 1. If, prior to the letting date of the construction project, the commission's project plan is changed so that additional or different utility relocation work is found necessary, the commission shall furnish a revised project plan under section 227.244, and the owner shall provide the commission with a revised relocation plan under section 227.245, except that the time allowed for the owner to submit the revised relocation plan after receipt of the revised project plan shall not exceed sixty days.

2. If, after the letting date of the highway construction project, additional utility relocation work is found necessary which was not indicated on the original project plan, the commission shall provide the owner with a revised project plan within fifteen days and the commission and the owner shall agree on a reasonable schedule for completion of the additional utility location.

227.247. 1. The commission shall have authority to require that any required notice, response, or plan be submitted by mail or certified mail. Otherwise notices, plans, and other statements in writing may be provided by mail, facsimile, or electronic mail. The commission may require that some form of proof of receipt be provided in regard to any notice, plan, or other statement in writing. Upon mutual agreement between the commission and an owner, additional time may be granted for the completion of any act required by sections 227.241 to 227.249.

2. Nothing in sections 227.241 to 227.249 shall be construed to relieve a contractor from making notice of excavation as required by sections 319.010 to 319.050, RSMo, of the underground facility safety and damage prevention act, or complying with the requirements of sections 319.075 to 319.090, RSMo, of the overhead powerline safety act, except to the extent that any provisions of sections 227.241 to 227.249 require additional obligations beyond those set forth in sections 319.011 to 319.050, RSMo, or sections 319.075 to 319.090, RSMo, in which case the requirements of sections 227.241 to 227.249 shall prevail.

227.248. 1. If the owner of a utility facility fails to provide the responses or corrections to project plans required by sections 227.243 to 227.246, the commission may recover from the owner damages in the amount of up to one hundred dollars per day for each day the required act is not completed.

2. If the owner fails to provide a relocation plan or fails to timely relocate utility facilities in accordance with the relocation plan as required by section 227.245, the commission may recover from the owner damages in the amount of up to one thousand dollars per day for each day the required act is not completed.

3. The damages authorized by subsections 1 and 2 of this section may be recovered through actions brought by the chief counsel to the commission, or may be referred to the attorney general for appropriate action. An action to collect the damages authorized by this section shall be brought in a court of appropriate jurisdiction. All damages collected under this section shall be deposited in the state road fund.

The schedule of fines adopted for violations of municipal ordinances may be modified from time to time as the associate circuit judges of each county en banc deem advisable. No fine established pursuant to this subsection may exceed the maximum amount specified by statute or ordinance for such violation.

2. In no event shall any schedule of fines adopted pursuant to this section include offenses involving the following:

- (1) Any violation resulting in personal injury or property damage to another person;
- (2) Operating a motor vehicle while intoxicated or under the influence of intoxicants or drugs;
- (3) Operating a vehicle with a counterfeited, altered, suspended or revoked license;
- (4) Fleeing or attempting to elude an officer.

3. There shall be a centralized bureau to be established by supreme court rule in order to accept pleas of not guilty or guilty and payments of fines and court costs for violations of the laws and ordinances described in subsection 1 of this section, made pursuant to a schedule of fines established pursuant to this section. The centralized bureau shall collect, with any plea of guilty and payment of a fine, all court costs which would have been collected by the court of the jurisdiction from which the violation originated.

4. If a person elects not to contest the alleged violation, the person shall send payment in the amount of the fine and any court costs established for the violation to the centralized bureau. Such payment shall be payable to the "central violations bureau", shall be made by mail or in any other manner established by the centralized bureau, and shall constitute a plea of guilty, waiver of trial and a conviction for purposes of section 302.302, RSMo, and for purposes of imposing any collateral consequence of a criminal conviction provided by law. Notwithstanding any provision of law to the contrary, the prosecutor shall not be required to sign any information, ticket or indictment if disposition is made pursuant to this subsection. In the event that any payment is made pursuant to this section by credit card or similar method, the centralized bureau may charge an additional fee in order to reflect any transaction cost, surcharge or fee imposed on the recipient of the credit card payment by the credit card company.

5. If a person elects to plead not guilty, such person shall send the plea of not guilty to the centralized bureau. The bureau shall send such plea and request for trial to the prosecutor having original jurisdiction over the offense. Any trial shall be conducted at the location designated by the court. The clerk of the court in which the case is to be heard shall notify in writing such person of the date certain for the disposition of such charges. The prosecutor shall not be required to sign any information, ticket or indictment until the commencement of any proceeding by the prosecutor with respect to the notice of violation.

6. In courts adopting a schedule of fines pursuant to this section, any person receiving a notice of violation pursuant to this section shall also receive written notification of the following:

- (1) The fine and court costs established pursuant to this section for the violation or information regarding how the person may obtain the amount of the fine and court costs for the violation;
- (2) That the person must respond to the notice of violation by paying the prescribed fine and court costs, or pleading not guilty and appearing at trial, and that other legal penalties prescribed by law may attach for failure to appear and dispose of the violation. The supreme court may modify the suggested forms for uniform complaint and summons for use in courts adopting the procedures provided by this section, in order to accommodate such required written notifications.

7. Any moneys received in payment of fines and court costs pursuant to this section shall not be considered to be state funds, but shall be held in trust by the centralized bureau for benefit of those persons or entities entitled to receive

such funds pursuant to this subsection. All amounts paid to the centralized bureau shall be maintained by the centralized bureau, invested in the manner required of the state treasurer for state funds by sections 30.240, 30.250, 30.260 and 30.270, RSMo, and disbursed as provided by the constitution and laws of this state. Any interest earned on such fund shall be payable to the director of the department of revenue for deposit into a revolving fund to be established pursuant to this subsection. The state treasurer shall be the custodian of the revolving fund, and shall make disbursements, as allowed by lawful appropriations, only to the judicial branch of state government for goods and services related to the administration of the judicial system.

8. Any person who receives a notice of violation subject to this section who fails to dispose of such violation as provided by this section shall be guilty of failure to appear provided by section 544.665, RSMo; and may be subject to suspension of driving privileges in the manner provided by section 302.341, RSMo. The centralized bureau shall notify the appropriate prosecutor of any person who fails to either pay the prescribed fine and court costs, or plead not guilty and request a trial within the time allotted by this section, for purposes of application of section 544.665, RSMo. The centralized bureau shall also notify the department of revenue of any failure to appear subject to section 302.341, RSMo, and the department shall thereupon suspend the license of the driver in the manner provided by section 302.341, RSMo, as if notified by the court.

9. In addition to the remedies provided by subsection 8 of this section, the centralized bureau and the courts may use the remedies provided by sections 488.010 to 488.020, RSMo, for the collection of court costs payable to courts, in order to collect fines and court costs for violations subject to this section.”; and

“407.1400. 1. Except as otherwise allowed by state or federal law, or unless consent has been provided as it is established in this section, financial institutions, their officers, employees, agents, and directors shall not disclose to any person any financial information relating to a customer.

2. 3. A governmental agency or law enforcement agency may obtain customer information from a financial institution pursuant to a search warrant if it obtains the search warrant under the rules of criminal procedure of this state.

4. No consent or waiver shall be required as a condition of doing business with any financial institution, and any consent or waiver obtained from a customer as a condition of doing business with a financial institution shall not be deemed a consent of the customer for the purpose of this section.

5. Valid consent shall be in writing and signed by the customer. In consenting to disclosure of customer information, a customer may specify any of the following:

(1) The time during which such consent will operate;

(2) The customer information to be disclosed; and

407.1403. 1. Any person or business that conducts business in this state and that owns or licenses computerized data that includes personal information, shall disclose any breach of the security of the system following discovery or notification of the breach. Notification shall be made to any resident of the state whose encrypted personal information was, or is reasonably believed to have been, acquired by an unauthorized person. The disclosure shall be made in the most expedient time possible, but no more than thirty days after such breach has been discovered.

2. The notification required by this section may be delayed if a law enforcement agency determines that the notification will impede a criminal investigation.

3. For purposes of this section, “breach of security of the system” shall mean unauthorized acquisition of computerized data that compromises the security, confidentiality, or integrity of personal information maintained by the business or person. Good faith acquisition of personal information by an employee or agent of the business for the purposes of the business shall not be considered a breach of security of the system, provided that the personal information is not used or subject to further unauthorized disclosure.

4. For purposes of this section, “personal information” means an individual's first name or first initial and last name in combination with any one or more of the following data elements, when either the name or the data elements are not encrypted:

(1) Social security number;

(2) Driver's license number;

(3) Account number, credit card number, or debit card number, in combination with any required security code, access code, or password that would permit access to an individual's financial account.

For purposes of this section, “personal information” does not include publicly available information that is lawfully made available to the general public from federal, state, or local government records.

5. For purposes of this section, “notice” may be provided by one of the following methods:

(1) Written notice;

(2) Electronic notice, if the notice provided is consistent with the provisions regarding electronic records and signatures set forth in Section 7001 of Title 15 of the United States Code;

(3) Substitute notice, if the agency demonstrates that the cost of providing notice would exceed two hundred fifty thousand dollars, that the affected class of subject persons to be notified exceeds five hundred thousand, or the agency does not have sufficient contact information. Substitute notice shall consist of all of the following:

(a) E-mail notice when the agency has an e-mail address for the subject persons;

(b) Conspicuous posting of the notice on the agency's website, if the agency maintains one; and

(c) Notification to major statewide media.

6. Notwithstanding subsection 5 of this section, an agency that maintains its own notification procedures as part of an information security policy for the treatment of personal information and is otherwise consistent with the timing requirements of this part shall be deemed to be in compliance with the notification requirements of this section if it notifies subject persons in accordance with its policies in the event of a breach of security of the system.

7. Any person or business who violates the provisions of this section shall be guilty of a class A misdemeanor and, upon conviction, shall be punished by a fine of up to one thousand dollars for each and every act or violation, by imprisonment in the county jail for a term not to exceed one year, or by both at the discretion of the court.

407.1406. 1. A consumer may elect to place a security alert in his or her credit report by making a request in writing or by telephone to a consumer credit reporting agency. “Security alert” means a notice placed in a consumer's credit report, at the request of the consumer, that notifies a recipient of the credit report that the consumer's identity may have been used without the consumer's consent to fraudulently obtain goods or services in the consumer's name.

2. A consumer credit reporting agency shall notify each person requesting consumer credit information with respect to a consumer of the existence of a security alert in the credit report of that consumer, regardless of whether a full credit report, credit score, or summary report is requested.

3. Each consumer credit reporting agency shall maintain a toll-free telephone number to accept security alert requests from consumers twenty-four hours a day, seven days a week.

4. The toll-free telephone number shall be included in any written disclosure by a consumer credit reporting agency to any consumer pursuant to section 407.1421 and shall be printed in a clear and conspicuous manner.

5. A consumer credit reporting agency shall place a security alert on a consumer's credit report no later than five business days after receiving a request from the consumer.

6. The security alert shall remain in place for at least 90 days, and a consumer shall have the right to request a renewal of the security alert.

407.1409. 1. A consumer may elect to place a security freeze on his or her credit report by making a request in writing by certified mail to a consumer credit reporting agency. “Security freeze” means a notice placed in a consumer's credit report, at the request of the consumer and subject to certain exceptions, that prohibits the consumer credit reporting agency from releasing the consumer's credit report or any information from it without the express authorization of the consumer. If a security freeze is in place, information from a consumer's credit report may not be released to a third party without prior express authorization from the

consumer. This subsection does not prevent a consumer credit reporting agency from advising a third party that a security freeze is in effect with respect to the consumer's credit report.

2. A consumer credit reporting agency shall place a security freeze on a consumer's credit report no later than five business days after receiving a written request from the consumer.

3. The consumer credit reporting agency shall send a written confirmation of the security freeze to the consumer within ten business days and shall provide the consumer with a unique personal identification number or password to be used by the consumer when providing authorization for the release of his or her credit for a specific party or period of time.

4. If the consumer wishes to allow his or her credit report to be accessed for a specific party or period of time while a freeze is in place, he or she shall contact the consumer credit reporting agency, request that the freeze be temporarily lifted, and provide the following:

(1) Proper identification, as defined in subsection 3 of section 407.1421.

(2) The unique personal identification number or password provided by the credit reporting agency pursuant to subdivision (c).

(3) The proper information regarding the third party who is to receive the credit report or the time period for which the report shall be available to users of the credit report.

5. A consumer credit reporting agency that receives a request from a consumer to temporarily lift a freeze on a credit report pursuant to subsection 4 of this section, shall comply with the request no later than three business days after receiving the request.

6. A consumer credit reporting agency may develop procedures involving the use of telephone, fax, the Internet, or other electronic media to receive and process a request from a consumer to temporarily lift a freeze on a credit report pursuant to subsection 4 of this section in an expedited manner.

7. A consumer credit reporting agency shall remove or temporarily lift a freeze placed on a consumer's credit report only in the following cases:

(1) Upon consumer request, pursuant to subsection 4 or 10 of this section;

(2) If the consumer's credit report was frozen due to a material misrepresentation of fact by the consumer. If a consumer credit reporting agency intends to remove a freeze upon a consumer's credit report pursuant to this subdivision, the consumer credit reporting agency shall notify the consumer in writing prior to removing the freeze on the consumer's credit report.

8. If a third party requests access to a consumer credit report on which a security freeze is in effect, and this request is in connection with an application for credit or any other use, and the consumer does not allow his or her credit report to be accessed for that specific party or period of time, the third party may treat the application as incomplete.

9. If a consumer requests a security freeze, the consumer credit reporting agency shall disclose the process of placing and temporarily lifting a freeze, and the process for allowing access to information from the consumer's credit report for a specific party or period of time while the freeze is in place.

10. A security freeze shall remain in place until the consumer requests that the security freeze be removed. A consumer credit reporting agency shall remove a security freeze within three business days of receiving a request for removal from the consumer, who provides both of the following:

(1) Proper identification, as defined in subsection 3 of section 407.1421;

(2) The unique personal identification number or password provided by the credit reporting agency pursuant to subsection 3 of this section.

11. A consumer credit reporting agency shall require proper identification, as defined in subsection 3 of section 407.1421, of the person making a request to place or remove a security freeze.

12. The provisions of this section do not apply to the use of a consumer credit report by any of the following:

(1) A person or entity, or a subsidiary, affiliate, or agent of that person or entity, or an assignee of a financial obligation owing by the consumer to that person or entity, or a prospective assignee of a financial obligation owing by the consumer to that person or entity in conjunction with the proposed purchase of the financial obligation, with which the consumer has or had prior to assignment an account or contract, including

a demand deposit account, or to whom the consumer issued a negotiable instrument, for the purposes of reviewing the account or collecting the financial obligation owing for the account, contract, or negotiable instrument. For purposes of this paragraph, "reviewing the account" includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements;

(2) A subsidiary, affiliate, agent, assignee, or prospective assignee of a person to whom access has been granted under subdivision (2) of subsection 4 of this section for purposes of facilitating the extension of credit or other permissible use;

(3) Any state or local agency, law enforcement agency, trial court, or private collection agency acting pursuant to a court order, warrant, or subpoena;

(4) A child support agency;

(5) The department of health and senior services or its agents or assigns acting to investigate Medicaid fraud;

(6) The state tax commission or its agents or assigns acting to investigate or collect delinquent taxes or unpaid court orders or to fulfill any of its other statutory responsibilities;

(7) The use of credit information for the purposes of prescreening as provided for by the federal Fair Credit Reporting Act;

(8) Any person or entity administering a credit file monitoring subscription service to which the consumer has subscribed;

(9) Any person or entity for the purpose of providing a consumer with a copy of his or her credit report upon the consumer's request.

13. This act does not prevent a consumer credit reporting agency from charging a fee of no more than ten dollars to a consumer for each freeze, removal of the freeze, or temporary lift of the freeze for a period of time, or a fee of no more than twelve dollars for a temporary lift of a freeze for a specific party, regarding access to a consumer credit report, except that a consumer credit reporting agency may not charge a fee to a victim of identity theft who has submitted a valid police report.

407.1412. 1. If a security freeze is in place, a consumer credit reporting agency shall not change any of the following official information in a consumer credit report without sending a written confirmation of the change to the consumer within thirty days of the change being posted to the consumer's file: name, date of birth, social security number, and address. Written confirmation is not required for technical modifications of a consumer's official information, including name and street abbreviations, complete spellings, or transposition of numbers or letters. In the case of an address change, the written confirmation shall be sent to both the new address and to the former address.

2. If a consumer has placed a security alert, a consumer credit reporting agency shall provide the consumer, upon request, with a free copy of his or her credit report at the time the ninety-day security alert period expires.

407.1415. The provisions of sections 407.1406 to 407.1412 do not apply to a consumer credit reporting agency that acts only as a reseller of credit information by assembling and merging information contained in the data base of another consumer credit reporting agency or multiple consumer credit reporting agencies, and does not maintain a permanent data base of credit information from which new consumer credit reports are produced. However, a consumer credit reporting agency shall honor any security freeze placed on a consumer credit report by another consumer credit reporting agency.

407.1418. The following entities are not required to place in a credit report either a security alert, pursuant to section 407.1406, or a security freeze, pursuant to section 407.1409:

(1) A check services or fraud prevention services company, which issues reports on incidents of fraud or authorizations for the purpose of approving or processing negotiable instruments, electronic funds transfers, or similar methods of payments;

(2) A deposit account information service company, which issues reports regarding account closures due to fraud, substantial overdrafts, ATM abuse, or similar negative information regarding a consumer, to inquiring banks or other financial institutions for use only in reviewing a consumer request for a deposit account at the inquiring bank or financial institution.

407.1421. A consumer credit reporting agency shall supply files and information required during normal business hours and on reasonable notice. In addition to the disclosure provided by this chapter and any disclosures received by the consumer, the consumer has the right to request and receive all of the following:

(1) Either a decoded written version of the file or a written copy of the file, including all information in the file at the time of the request, with an explanation of any code used; (2) A credit score for the consumer, the key factors, and the related information, as defined in and required by this subsection;

(3) A record of all inquiries, by recipient, which result in the provision of information concerning the consumer in connection with a credit transaction that is not initiated by the consumer and which were received by the consumer credit reporting agency in the twelve-month period immediately preceding the request for disclosure under this section;

(4) The recipients, including end users of any consumer credit report on the consumer which the consumer credit reporting agency has furnished:

(a) For employment purposes within the two-year period preceding the request;

(b) For any other purpose within the twelve-month period preceding the request.

Identification for purposes of this subdivision shall include the name of the recipient or, if applicable, the fictitious business name under which the recipient does business disclosed in full. If requested by the consumer, the identification shall also include the address of the recipient.

(5) Files maintained on a consumer shall be disclosed promptly as follows:

(a) In person, at the location where the consumer credit reporting agency maintains the trained personnel required by this subdivision, if he or she appears in person and furnishes proper identification;

(b) By mail, if the consumer makes a written request with proper identification for a copy of the file or a decoded written version of that file to be sent to the consumer at a specified address. A disclosure pursuant to this subdivision shall be deposited in the United States mail, postage prepaid, within five business days after the consumer's written request for the disclosure is received by the consumer credit reporting agency. Consumer credit reporting agencies complying with requests for mailings under this section shall not be liable for disclosures to third parties caused by mishandling of mail after the mailings leave the consumer credit reporting agencies;

(c) A summary of all information contained in files on a consumer and required to be provided shall be provided by telephone, if the consumer has made a written request, with proper identification for telephone disclosure;

(d) Information in a consumer's file required to be provided in writing under this section may also be disclosed in another form if authorized by the consumer and if available from the consumer credit reporting agency. For this purpose a consumer may request disclosure in person by telephone upon disclosure of proper identification by the consumer, by electronic means if available from the consumer credit reporting agency, or by any other reasonable means that is available from the consumer credit reporting agency.

(6) "Proper identification," as used in this section means that information generally deemed sufficient to identify a person. Only if the consumer is unable to reasonably identify himself or herself with the information described above, may a consumer credit reporting agency require additional information concerning the consumer's employment and personal or family history in order to verify his or her identity;

(7) The consumer credit reporting agency shall provide trained personnel to explain to the consumer any information furnished him or her;

(8) The consumer shall be permitted to be accompanied by one other person of his or her choosing, who shall furnish reasonable identification. A consumer credit reporting agency may require the consumer to furnish a written statement granting permission to the consumer credit reporting agency to discuss the consumer's file in that person's presence;

(9) Any written disclosure by a consumer credit reporting agency to any consumer pursuant to this section shall include a written summary of all rights the consumer has under this title and in the case of a consumer credit reporting agency which compiles and maintains consumer credit reports on a nationwide basis, a toll-free telephone number which the consumer can use to communicate with the consumer credit reporting agency. The written summary of rights required under this subdivision is sufficient if in substantially the following form:

“You have a right to obtain a copy of your credit file from a consumer credit reporting agency. You may be charged a reasonable fee not exceeding eight dollars (\$8). There is no fee, however, if you have been turned down for credit, employment, insurance, or a rental dwelling because of information in your credit report within the preceding 60 days. The consumer credit reporting agency must provide someone to help you interpret the information in your credit file.

You have a right to dispute inaccurate information by contacting the consumer credit reporting agency directly. However, neither you nor any credit repair company or credit service organization has the right to have accurate, current, and verifiable information removed from your credit report. Under the Federal Fair Credit Reporting Act, the consumer credit reporting agency must remove accurate, negative information from your report only if it is over seven years old. Bankruptcy information can be reported for 10 years.

If you have notified a consumer credit reporting agency in writing that you dispute the accuracy of information in your file, the consumer credit reporting agency must then, within 30 business days, reinvestigate and modify or remove inaccurate information. The consumer credit reporting agency may not charge a fee for this service. Any pertinent information and copies of all documents you have concerning an error should be given to the consumer credit reporting agency.

If reinvestigation does not resolve the dispute to your satisfaction, you may send a brief statement to the consumer credit reporting agency to keep in your file, explaining why you think the record is inaccurate. The consumer credit reporting agency must include your statement about disputed information in a report it issues about you.

You have a right to receive a record of all inquiries relating to a credit transaction initiated in 12 months preceding your request. This record shall include the recipients of any consumer credit report.

You may request in writing that the information contained in your file not be provided to a third party for marketing purposes. You have a right to place a “security alert” in your credit report, which will warn anyone who receives information in your credit report that your identity may have been used without your consent. Recipients of your credit report are required to take reasonable steps, including contacting you at the telephone number you may provide with your security alert, to verify your identity prior to lending money, extending credit, or completing the purchase, lease, or rental of goods or services. The security alert may prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that taking advantage of this right may delay or interfere with the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, insurance, rental housing, employment, investment, license, cellular phone, utilities, digital signature, Internet credit card transaction, or other services, including an extension of credit at point of sale. If you place a security alert on your credit report, you have a right to obtain a free copy of your credit report at the time the 90-day security alert period expires. A security alert may be requested by calling the following toll-free telephone number: (Insert applicable toll-free telephone number).

You have a right to place a “security freeze” on your credit report, which will prohibit a consumer credit reporting agency from releasing any information in your credit report without your express authorization. A security freeze must be requested in writing by certified mail. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, insurance, government services or payments, rental housing, employment, investment, license, cellular phone, utilities, digital signature, Internet credit card transaction, or other services, including an extension of credit at point of sale. When you place a security freeze on your credit report, you will be provided a personal identification number or password to use if you choose to remove the freeze on your credit report or authorize the release of your credit report for a specific party or period of time after the freeze is in place. To provide that authorization you must contact the consumer credit reporting agency and provide all of the following:

(1) The personal identification number or password.

(2) Proper identification to verify your identity.

(3) The proper information regarding the third party who is to receive the credit report or the period of time for which the report shall be available.

A consumer credit reporting agency must authorize the release of your credit report no later than three business days after receiving the above information.

A security freeze does not apply to a person or entity, or its affiliates, or collection agencies acting on behalf of the person or entity, with which you have an existing account, that requests information in your credit report for the purposes of reviewing or collecting the account. Reviewing the account includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements.

You have a right to bring civil action against anyone, including a consumer credit reporting agency, who improperly obtains access to a file, knowingly or willfully misuses file data, or fails to correct inaccurate file data.”.”; and

Further amend the title and enacting clause accordingly.

Senator Dougherty moved that the above amendment be adopted, which motion prevailed.

The state board shall notify each sponsor of the standards for sponsorship of charter schools, delineating both what is mandated by statute and what best practices dictate. The state board, after a public hearing, may require remedial action for a sponsor that it finds has not fulfilled its obligations of sponsorship, such remedial actions including withholding the sponsor's funding and suspending for a period of up to one year the sponsor's authority to sponsor a school that it currently sponsors or to sponsor any additional school. If the state board removes the authority to sponsor a currently operating charter school, the state board shall become the interim sponsor of the school for a period of up to three years until the school finds a new sponsor or until the charter contract period lapses.

160.405. 1. A person, group or organization seeking to establish a charter school shall submit the proposed charter, as provided in this section, to a sponsor. If the sponsor is not a school board, the applicant shall give a copy of its application to the school board of the district in which the charter school is to be located[, when] and to the state board of education, within five business days of the date the application is filed with the proposed sponsor. The school board may file objections with the proposed sponsor, and, if a charter is granted, the school board may file objections with the state board of education. The charter shall include a mission statement for the charter school, a description of the charter school's organizational structure and bylaws of the governing body, which will be responsible for the policy and operational decisions of the charter school, a financial plan for the first three years of operation of

the charter school including provisions for annual audits, a description of the charter school's policy for securing personnel services, its personnel policies, personnel qualifications, and professional development plan, a description of the grades or ages of students being served, the school's calendar of operation, which shall include at least the equivalent of a full school term as defined in section 160.011, and an outline of criteria specified in this section designed to measure the effectiveness of the school. The charter shall also state:

- (1) The educational goals and objectives to be achieved by the charter school;
- (2) A description of the charter school's educational program and curriculum;
- (3) The term of the charter, which shall be not less than five years, nor greater than ten years and shall be renewable;

- (6) **A description of the charter school's policies on student discipline and student admission, which shall include a statement, where applicable, of the validity of attendance of students who do not reside in the district but who may be eligible to attend under the terms of judicial settlements.**

2. Proposed charters shall be subject to the following requirements:

- (1) A charter may be approved when the sponsor determines that the requirements of this section are met and determines that the applicant is sufficiently qualified to operate a charter school. The sponsor's decision **of approval or denial** shall be made within [sixty] **ninety** days of the filing of the proposed charter;
- (2) If the charter is denied, the proposed sponsor shall notify the applicant in writing as to the reasons for its denial **and forward a copy to the state board of education within five business days following the denial;**
- (3) If a proposed charter is denied by a sponsor, the proposed charter may be submitted to the state board of education, along with the sponsor's written reasons for its denial. If the state board determines that the applicant meets the requirements of this section, **that the applicant is sufficiently qualified to operate the charter school**, and that granting a charter to the applicant would be likely to provide educational benefit to the children of the district, the state board may grant a charter and act as sponsor of the charter school. **The state board shall review the proposed charter and make a determination of whether to deny or grant the proposed charter within sixty days of receipt of the proposed charter, provided that any charter to be considered by the state board of education under this subdivision shall be submitted no later than March first prior to the school year in which the charter school intends to begin operations. The state board of education shall notify the applicant in writing as the reasons for its denial, if applicable; and**
- (4) The sponsor of a charter school shall give priority to charter school applicants that propose a school oriented to high-risk students and to the reentry of dropouts into the school system. If a sponsor grants three or more charters, at least one-third of the charters granted by the sponsor shall be to schools that actively recruit dropouts or high-risk students as their student body and address the needs of dropouts or high-risk students through their proposed mission, curriculum, teaching methods, and services. For purposes of this subsection, a "high-risk" student is one who is at least one year behind in satisfactory completion of course work or obtaining credits for graduation, pregnant or a parent, homeless or has been homeless sometime within the preceding six months, has limited English proficiency, has been suspended from school three or more times, **is eligible for free or reduced price school lunch**, or has been referred by the school district for enrollment in an alternative program. "Dropout" shall be defined through the guidelines of the school core data report. The provisions of this subsection do not apply to charters sponsored by the state board of education.

3. If a charter is approved by a sponsor, [it] **the charter application** shall be submitted to the state board of education [which], **along with a statement of finding that the application meets the requirements of sections 160.400 to 160.420 and section 167.439, RSMo, and a monitoring plan under which the charter sponsor will evaluate the academic performance of students enrolled in the charter school. The state board of education may, within [forty-five] sixty days, disapprove the granting of the charter. The state board of education may disapprove a**

charter [only] on grounds that the application fails to meet the requirements of sections 160.400 to 160.420 **and section 167.349, RSMo, or that a charter sponsor previously failed to meet the statutory responsibilities of a charter sponsor.**

4. Any disapproval of a charter pursuant to subsection 3 of this section shall be subject to judicial review pursuant to chapter 536, RSMo.

5. A charter school shall, as provided in its charter:

(1) Be nonsectarian in its programs, admission policies, employment practices, and all other operations;

(2) Comply with laws and regulations of the state, **county, or city** relating to health, safety, and **state** minimum educational standards, **as specified by the state board of education, including the requirements relating to student discipline under sections 160.261, 167.161, 167.164, and 167.171, RSMo, notification of criminal conduct to law enforcement authorities under sections 167.115 to 167.117, RSMo, academic assessment under section 160.518, transmittal of school records under section 167.020, RSMo, and the minimum number of school days and hours required under section 160.041;**

(4) Be financially accountable, use practices consistent with the Missouri financial accounting manual, provide for an annual audit by a certified public accountant, **publish audit reports and annual financial reports as provided in chapter 165, RSMo, provided that the annual financial report may be published on the department of elementary and secondary education's Internet web site in addition to other publishing requirements,** and provide liability insurance to indemnify the school, its board, staff and teachers against tort claims. **A charter school that receives local educational agency status under subsection 6 of this section shall meet the requirements imposed by the Elementary and Secondary Education Act for audits of such agencies. For purposes of an audit by petition under section 29.230, RSMo, a charter school shall be treated as a political subdivision on the same terms and conditions as the school district in which it is located.** For the purposes of securing such insurance, a charter school shall be eligible for the Missouri public entity risk management fund pursuant to section 537.700, RSMo. A charter school that incurs debt must include a repayment plan in its financial plan;

(5) Provide a comprehensive program of instruction for at least one grade or age group from kindergarten through grade twelve, which may include early childhood education if funding for such programs is established by statute, as specified in its charter;

(6) **(a)** Design a method to measure pupil progress toward the pupil academic standards adopted by the state board of education pursuant to section 160.514, collect baseline data during at least the first three years for determining how the charter school is performing and to the extent applicable, participate in the statewide system of assessments, comprised of the essential skills tests and the nationally standardized norm-referenced achievement tests, as designated by the state board pursuant to section 160.518, complete and distribute an annual report card as prescribed in section 160.522, **which shall also include a statement that background checks have been completed on the charter school's board members,** report to its sponsor, the local school district, and the state board of education as to its teaching methods and any educational innovations and the results thereof, and provide data required for the study of charter schools pursuant to subsection 3 of section 160.410. No charter school will be considered in the Missouri school improvement program review of the district in which it is located for the resource or process standards of the program.

(b) For proposed high risk or alternative charter schools, sponsors shall approve performance measures based on mission, curriculum, teaching methods, and services. Sponsors shall also approve comprehensive academic and behavioral measures to determine whether students are meeting performance standards on a different time frame as specified in that school's charter. Student performance shall be assessed comprehensively to determine whether a high risk or alternative charter school has documented adequate student progress. Student performance shall be based on sponsor-approved comprehensive measures as well as standardized public school measures. Annual presentation of charter school report card data to the department of elementary and secondary education, the state board, and the public shall include comprehensive measures of student progress.

(c) Nothing in this paragraph shall be construed as permitting a charter school to be held to lower performance

standards than other public schools within a district; however, the charter of a charter school may permit students to meet performance standards on a different time frame as specified in its charter;

(7) Assure that the needs of special education children are met in compliance with all applicable federal and state laws and regulations;

(8) Provide along with any request for review by the state board of education the following:

(a) Documentation that the applicant has provided a copy of the application to the school board of the district in which the charter school is to be located, except in those circumstances where the school district is the sponsor of the charter school; and

(b) A statement outlining the reasons for approval or disapproval by the sponsor, specifically addressing the requirements of sections 160.400 to 160.420 and 167.349, RSMo.

6. The charter of a charter school may be amended at the request of the governing body of the charter school and on the approval of the sponsor. The sponsor and the governing board and staff of the charter school shall jointly review the school's performance, management and operations at least once every two years **or at any point where the operation or management of the charter school is changed or transferred to another entity, either public or private. The governing board of a charter school may amend the charter, if the sponsor approves such amendment, or the sponsor and the governing board may reach an agreement in writing to reflect the charter school's decision to become a local educational agency for the sole purpose of seeking direct access to federal grants. In such case the sponsor shall give the department of elementary and secondary education written notice no later than March first of any year, with the agreement to become effective July first. The department may waive the March first notice date in its discretion. The department shall identify and furnish a list of its regulations that pertain to local educational agencies to such schools within thirty days of receiving such notice.**

7. (1) A sponsor may revoke a charter at any time if the charter school commits a serious breach of one or more provisions of its charter or on any of the following grounds: failure to meet academic performance standards as set forth in its charter, failure to meet generally accepted standards of fiscal management, **failure to provide information necessary to confirm compliance with all provisions of the charter and sections 160.400 to 160.420 and 167.349, RSMo, within forty-five days following receipt of written notice requesting such information,** or violation of law.

(2) The sponsor may place the charter school on probationary status to allow the implementation of a remedial plan, **which may require a change of methodology, a change in leadership, or both,** after which, if such plan is unsuccessful, the charter may be revoked.

(3) At least sixty days before acting to revoke a charter, the sponsor shall notify the [board of directors] **governing board** of the charter school of the proposed action in writing. The notice shall state the grounds for the proposed action. The school's [board of directors] **governing board** may request in writing a hearing before the sponsor within two weeks of receiving the notice.

(4) The sponsor of a charter school shall establish procedures to conduct administrative hearings upon determination by the sponsor that grounds exist to revoke a charter. Final decisions of a sponsor from hearings conducted pursuant to this subsection are subject to judicial review pursuant to chapter 536, RSMo.

(5) A termination shall be effective only at the conclusion of the school year, unless the sponsor determines that continued operation of the school presents a clear and immediate threat to the health and safety of the children.

(6) A charter sponsor shall make available the school accountability report card information as provided under section 160.522 and the results of the academic monitoring required under subsection 3 of this section.

8. A sponsor shall take all reasonable steps necessary to confirm that each charter school sponsored by such sponsor is in material compliance and remains in material compliance with all material provisions of the charter and sections 160.400 to 160.420 and 167.349 RSMo. Every charter school shall provide all information necessary to confirm ongoing compliance with all provisions of its charter and sections 160.400 to 160.420 and 167.349, RSMo, in a timely manner to its sponsor.

9. A school district may enter into a lease with a charter school for physical facilities. [A charter school may not be located on the property of a school district unless the district governing board agrees.]

[9.] 10. A governing board or a school district employee who has control over personnel actions shall not take unlawful reprisal against another employee at the school district because the employee is directly or indirectly involved in an application to establish a charter school. A governing board or a school district employee shall not take unlawful

reprisal against an educational program of the school or the school district because an application to establish a charter school proposes the conversion of all or a portion of the educational program to a charter school. As used in this subsection, “unlawful reprisal” means an action that is taken by a governing board or a school district employee as a direct result of a lawful application to establish a charter school and that is adverse to another employee or an educational program.

11. Charter school board members shall be subject to the same liability for acts while in office as if they were regularly and duly elected members of school boards in any other public school district in this state. The governing board of a charter school may participate, to the same extent as a school board, in the Missouri public entity risk management fund in the manner provided under sections 537.700 to 537.756, RSMo.

12. Any entity, either public or private, operating, administering, or otherwise managing a charter school shall be considered a quasi-public governmental body and subject to the provisions of sections 610.010 to 610.035, RSMo.

13. The chief financial officer of a charter school shall maintain a surety bond in an amount determined by the sponsor to be adequate based on the cash flow of the school.

160.410. 1. A charter school shall enroll:

(1) All pupils resident in the district in which it operates, [or]

(2) **Nonresident pupils** eligible to attend a district's school under an urban voluntary transfer program, **and**

(3) **In the case of a workplace charter school, any student eligible to attend under subdivisions (1) or (2) of this subsection whose parent is employed in the business district,** who submit a timely application, unless the number of applications exceeds the capacity of a program, class, grade level or building. **The configuration of a business district shall be set forth in the charter and shall not be construed to create an undue advantage for a single employer or small number of employers.** If capacity is insufficient to enroll all pupils who submit a timely application, the charter school shall have an admissions process that assures all applicants of an equal chance of gaining admission except that:

(1) A charter school may establish a geographical area around the school whose residents will receive a preference for enrolling in the school, provided that such preferences do not result in the establishment of racially or socioeconomically isolated schools and provided such preferences conform to policies and guidelines established by the state board of education; and

(2) A charter school may also give a preference for admission of children whose siblings attend the school or whose parents are employed at the school **or in the case of a workplace charter school, a child whose parent is employed in the business district or at the business site of such school.**

2. A charter school shall not limit admission based on race, ethnicity, national origin, disability, gender, income level, proficiency in the English language or athletic ability, but may limit admission to pupils within a given age group or grade level.

3. The department of elementary and secondary education shall commission a study of the performance of students at each charter school in comparison with a comparable group and a study of the impact of charter schools upon the districts in which they are located, to be conducted by a contractor selected through a request for proposal. The department of elementary and secondary education shall reimburse the contractor from funds appropriated by the general assembly for the purpose. The study of a charter school's student performance in relation to a comparable group shall be designed to provide information that would allow parents and educators to make valid comparisons of academic performance between the charter school's students and a group of students comparable to the students enrolled in the charter school. The impact study shall be undertaken every two years to determine the effect of charter schools on education stakeholders in the districts where charter schools are operated. The impact study may include, but is not limited to, determining if changes have been made in district policy or procedures attributable to the charter school and to perceived changes in attitudes and expectations on the part of district personnel, school board members, parents, students, the business community and other education stakeholders. The department of elementary and secondary education shall make the results of the studies public and shall deliver copies to the governing boards of the charter schools, the sponsors of the charter schools, the school board and superintendent of the districts in which the charter schools are operated.

4. A charter school shall make available for public inspection, and provide upon request, to the parent,

guardian, or other custodian of any school-age pupil resident in the district in which the school is located, the following information:

- (1) The school's charter;
- (2) The school's most recent annual report card published according to section 160.522; and
- (3) The results of background checks on the charter school's board members.

The charter school may charge reasonable fees, not to exceed the rate specified in section 610.026, RSMo, for furnishing copies of documents under this subsection.

160.415. 1. For the purposes of calculation and distribution of state school aid under section 163.031, RSMo, pupils enrolled in a charter school shall be included in the pupil enrollment of the school district within which each pupil resides. Each charter school shall report the names, addresses, and eligibility for free [or reduced-price] **and reduced lunch [or other], special education, or limited English proficiency status, as well as eligibility for** categorical aid, of pupils resident in a school district who are enrolled in the charter school to the school district in which those pupils reside [and]. **The charter school shall report the average daily attendance data, free and reduced lunch count, special education pupil count, and limited English proficiency pupil count** to the state department of elementary and secondary education. Each charter school shall promptly notify the state department of elementary and secondary education and the pupil's school district when a student discontinues enrollment at a charter school.

2. Except as provided in subsections 3 and 4 of this section, the aid payments for charter schools shall be as described in this subsection.

(1) A school district having one or more resident pupils attending a charter school shall pay to the charter school an annual amount equal to the product of the [equalized, adjusted operating levy for school purposes for the pupils' district of residence for the current year times the guaranteed tax base per eligible pupil, as defined in section 163.011, RSMo, times the number of the district's resident pupils attending the charter school] **charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers funds in excess of the performance levy as defined in section 163.011, RSMo,** plus all other state aid attributable to such pupils[, including summer school, if applicable, and all aid provided pursuant to section 163.031, RSMo].

(2) The district of residence of a pupil attending a charter school shall also pay to the charter school any other federal or state aid that the district receives on account of such child.

(3) If the department overpays or underpays the amount due to the charter school, such overpayment or underpayment shall be repaid by the public charter school or credited to the public charter school in twelve equal payments in the next fiscal year.

(4) The amounts provided pursuant to this subsection shall be prorated for partial year enrollment for a pupil.

~~[(4)]~~ **(5) A school district shall pay the amounts due pursuant to this subsection as the disbursal agent and no later than twenty days following the receipt of any such funds. The department of elementary and secondary education shall pay the amounts due when it acts as the disbursal agent within five days of the required due date.**

~~[(5) The per-pupil amount paid by a school district to a charter school shall be reduced by the amount per pupil determined by the state board of education to be needed by the district in the current year for repayment of leasehold revenue bonds obligated pursuant to a federal court desegregation action.]~~

3. A workplace charter school shall receive payment for each eligible pupil as provided under subsection 2 of this section, except that if the student is not a resident of the district and is participating in a voluntary interdistrict transfer program, the payment for such pupils shall be the same as provided under section 162.1060, RSMo.

If the director of revenue determines that the landlord and tenant have not dealt at arm's length, and that the gross rent is excessive, then he shall determine the gross rent based upon a reasonable amount of rent. Gross rent shall be deemed to be paid only if actually paid prior to the date a return is filed. The director of revenue may prescribe regulations requiring a return of information by a landlord receiving rent, certifying for a calendar year the amount of gross rent received from a tenant claiming a property tax credit and shall, by regulation, provide a method for certification by the claimant of the amount of gross rent paid for any calendar year for which a claim is made. The regulations authorized by this subdivision may require a landlord or a tenant or both to provide data relating to health and personal care services and to food. Neither a landlord nor a tenant may be required to provide data relating to utilities, furniture, home furnishings or appliances;

(4) "Homestead", the dwelling in Missouri owned or rented by the claimant and not to exceed five acres of land surrounding it as is reasonably necessary for use of the dwelling as a home. It may consist of part of a multidwelling or multipurpose building and part of the land upon which it is built. "Owned" includes a vendee in possession under a land contract and one or more tenants by the entireties, joint tenants, or tenants in common and includes a claimant actually in possession if he was the immediate former owner of record, if a lineal descendant is presently the owner of record, and if the claimant actually pays all taxes upon the property. It may include a mobile home;

(5) "Income", Missouri adjusted gross income as defined in section 143.121, RSMo, less two thousand dollars as an exemption for the claimant's spouse residing at the same address, and increased, where necessary, to reflect the following:

(a) Social Security, railroad retirement, and veterans payments and benefits unless the claimant is a one hundred percent service-connected, disabled veteran or a spouse of a one hundred percent service-connected, disabled veteran. The one hundred percent service-connected disabled veteran shall not be required to list veterans payments and benefits;

(b) The total amount of all other public and private pensions and annuities;

(c) Public relief, public assistance, and unemployment benefits received in cash, other than benefits received under this chapter;

(d) No deduction being allowed for losses not incurred in a trade or business;

(e) Interest on the obligations of the United States, any state, or any of their subdivisions and instrumentalities;

(6) "Property taxes accrued", property taxes paid, exclusive of special assessments, penalties, interest, and charges for service levied on a claimant's homestead in any calendar year. Property taxes shall qualify for the credit only if actually paid prior to the date a return is filed. The director of revenue shall require a tax receipt or other proof of property tax payment. If a homestead is owned only partially by claimant, then "property taxes accrued" is that part of property taxes levied on the homestead which was actually paid by the claimant. For purposes of this subdivision, property taxes are "levied" when the tax roll is delivered to the director of revenue for collection. If a claimant owns a homestead part of the preceding calendar year and rents it or a different homestead for part of the same year, "property taxes accrued" means only taxes levied on the homestead both owned and occupied by the claimant, multiplied by the percentage of twelve months that such property was owned and occupied as the homestead of the claimant during the year. When a claimant owns and occupies two or more different homesteads in the same calendar year, property taxes accrued shall be the sum of taxes allocable to those several properties occupied by the claimant as a homestead for the year. If a homestead is an integral part of a larger unit such as a farm, or multipurpose or multidwelling building,

property taxes accrued shall be that percentage of the total property taxes accrued as the value of the homestead is of the total value. For purposes of this subdivision "unit" refers to the parcel of property covered by a single tax statement of which the homestead is a part;

(7) "Rent constituting property taxes accrued", twenty percent of the gross rent paid by a claimant and spouse in the calendar year.; and further amend said bill, page 7, section 137.079, line 24, by inserting immediately after said line the following:

137.106. 1. This section may be known and may be cited as "The Missouri Homestead Preservation Act".

2. As used in this section, the following terms shall mean:

(1) "Department", the department of revenue;

(2) "Director", the director of revenue;

(3) "Disabled", as such term is defined in section 135.010, RSMo;

(4) "Eligible owner", any individual owner of property who is sixty-five years old or older as of January first of the tax year in which the individual is claiming the credit or who is disabled, and who had an income of equal to or less than the maximum upper limit in the year prior to completing an application pursuant to subsection 4 of this section; in the case of a married couple owning property either jointly or as tenants by the entirety, or where only one spouse owns the property, such couple shall be considered an eligible taxpayer if both spouses have reached the age of sixty-five or if one spouse is disabled, or if one spouse is at least sixty-five years old and the other spouse is at least sixty years old, and the combined income of the couple in the year prior to completing an application pursuant to subsection 4 of this section did not exceed the maximum upper limit; **in the case of property held in trust, the eligible owner and recipient of the tax credit shall be the trust itself provided the previous owner of the homestead or the previous owner's spouse: is the settlor of the trust with respect to the homestead; currently resides in such homestead; and but for the transfer of such property would have satisfied the age, ownership, and maximum upper limit requirements for income as defined in subdivisions 7 and 8 of this subsection;** no individual shall be an eligible owner if the individual has not paid their property tax liability, if any, in full by the payment due date in any of the three prior tax years, except that a late payment of a property tax liability in any prior year, [not including the year in which the application was completed,] shall not disqualify a potential eligible owner if such owner paid in full the tax liability and any and all penalties, additions and interest that arose as a result of such late payment; no individual shall be an eligible owner if such person [qualifies] **filed a valid claim** for the senior citizens property tax relief credit pursuant to sections 135.010 to 135.035, RSMo;

(5) "Homestead", as such term is defined pursuant to section 135.010, RSMo, except as limited by provisions of this section to the contrary. No property shall be considered a homestead if such property was improved since the most recent annual assessment by more than five percent of the prior year appraised value, **except where an eligible owner of the property has made such improvements to accommodate a disabled person;**

(6) "Homestead exemption limit", a percentage increase, rounded to the nearest hundredth of a percent, which shall be equal to the percentage increase to tax liability, not including improvements, of a homestead from one tax year to the next that exceeds a certain percentage set pursuant to subsection [8] **10** of this section. **For applications filed in 2005 or 2006, the homestead exemption limit shall be based on the increase to tax liability from 2004 to 2005. For applications filed between April 1, 2005 and September 30, 2006, an eligible owner, who otherwise satisfied the requirements of this section, shall not apply for the homestead exemption credit more than once during such period. For applications filed after 2006, the homestead exemption limit shall be based on the increase to tax liability from two years prior to application to the year immediately prior to application;**

(7) "Income", federal adjusted gross income, **and in the case of ownership of the homestead by trust, the income of the settlor applicant shall be imputed to the income of the trust for purposes of determining eligibility with regards to the maximum upper limit;**

(8) "Maximum upper limit", in the calendar year 2005, the income sum of seventy thousand dollars; in each successive calendar year this amount shall be raised by the incremental increase in the general price level, as defined pursuant to article X, section 17 of the Missouri Constitution.

3. Pursuant to article X, section 6(a) of the Constitution of Missouri, if in the prior tax year, the property tax liability on any parcel of subclass (1) real property increased by more than the homestead exemption limit, without regard for any prior credit received due to the provisions of this section, then any eligible owner of the property shall

receive a homestead exemption credit to be applied in the current tax year property tax liability to offset the prior year increase to tax liability that exceeds the homestead exemption limit, except as eligibility for the credit is limited by the provisions of this section. The amount of the credit shall be listed separately on each taxpayer's tax bill for the current tax year, or on a document enclosed with the taxpayer's bill. The homestead exemption credit shall not affect the process of setting the tax rate as required pursuant to article X, section 22 of the Constitution of Missouri and section 137.073 in any prior, current, or subsequent tax year.

4. If application is made in 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application through their local assessor's office. Applications may be completed between April first and September thirtieth of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided to the assessor's office by the department. Forms also shall be made available on the department's Internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall attest under penalty of perjury:

- (1) To the applicant's age;
- (2) That the applicant's prior year income was less than the maximum upper limit;
- (3) To the address of the homestead property; and

(4) That any improvements made to the homestead, **not made to accommodate a disabled person**, did not total more than five percent of the prior year appraised value.

The applicant shall also include with the application copies of receipts indicating payment of property tax by the applicant for the homestead property for the two prior tax years.

5. If application is made in 2005, the assessor, upon [receiving] **request for** an application, shall:

(1) Certify the parcel number and owner of record as of January first of the homestead, including verification of the acreage classified as residential on the assessor's property record card;

(2) Obtain appropriate prior tax year levy codes for each homestead from the county clerks **for inclusion on the form;**

(3) Record on the application the assessed valuation of the homestead for the current tax year, and any new construction or improvements for the current tax year; and

(4) Sign the application, certifying the accuracy of the assessor's entries.

6. If application is made after 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application. Applications may be completed between April 1 and September 30 of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided by the department. Forms also shall be made available on the department's internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall attest under penalty of perjury:

- (1) To the applicant's age;**
- (2) That the applicant's prior year income was less than the maximum upper limit;**
- (3) To the address of the homestead property;**

(4) That any improvements made to the homestead, not made to accommodate a disabled person, did not total more than five percent of the prior year appraised value; and

(5) The applicant shall also include with the application copies of receipts indicating payment of property tax by the applicant for the homestead property for the three prior tax years.

7. Each applicant shall send the application to the department by September thirtieth of each year for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the application was completed.

[7.] **8. If application is made in 2005,** upon receipt of the applications, the department shall calculate the tax liability, adjusted to exclude new construction or improvements verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant has also filed a valid application for the senior

citizens property tax credit, pursuant to sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit, and provide a list of all verified eligible owners to the county collectors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county collectors or county clerks in counties with a township form of government shall provide a list to the department of any verified eligible owners who failed to pay the property tax due for the tax year that ended immediately prior. Such eligible owners shall be disqualified from receiving the credit in the current tax year.

[8.] 9. If application is made after 2005, upon receipt of the applications, the department shall calculate the tax liability, verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant also has filed a valid application for the senior citizens property tax credit under sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income is verified, the director shall determine eligibility for the credit and provide a list of all verified eligible owners to the county assessors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county assessors shall provide a list to the department of any verified eligible owners who made improvements not for accommodation of a disability to the homestead and the dollar amount of the assessed value of such improvements. If the dollar amount of the assessed value of such improvements totaled more than five percent of the prior year appraised value, such eligible owners shall be disqualified from receiving the credit in the current tax year.

10. The director shall calculate the level of appropriation necessary to set the homestead exemption limit at five percent when based on a year of general reassessment or at two and one-half percent when based on a year without general reassessment for the homesteads of all verified eligible owners, and provide such calculation to the speaker of the house of representatives, the president pro tempore of the senate, and the director of the office of budget and planning in the office of administration by January thirty-first of each year.

[9.] 11. [If, in any given year,] For applications made in 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all but one-quarter of one percent of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. The remaining one-quarter of one percent shall be distributed to the county assessment funds of each county on a proportional basis, based on the number of eligible owners in each county; such one-quarter percent distribution shall be delineated in any such appropriation as a separate line item in the total appropriation. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

[10.] 12. After setting the homestead exemption limit **for applications made in 2005**, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation **and assessment fund allocation** to the county collector's funds of each county **or the treasurer ex officio collector's fund in counties with a township form of government** where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued, plus the one-quarter of one percent distribution for the county assessment funds. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section plus the one-quarter of one percent distribution for the county assessment funds. Funds, at the direction of the county collector **or the treasurer ex officio collector in counties with a township form of government**, shall be deposited in the county collector's fund of a county **or the treasurer ex officio collector's fund** or may be sent by mail to the

collector of a county, or the treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued. In counties with a township form of government, the county clerk shall provide the treasurer ex officio collector a summary of the homestead exemption credit for each township for the purpose of distributing the total homestead exemption credit to each township collector in a particular county.

[11.] 13. If, in any given year after 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

14. After setting the homestead exemption limit for applications made after 2005, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation to the county collector's fund of each county where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section. Funds, at the direction of the collector of the county or treasurer ex-officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or may be sent by mail to the collector of a county, or treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued.

15. The department shall promulgate rules for implementation of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void. Any rule promulgated by the department shall in no way impact, affect, interrupt, or interfere with the performance of the required statutory duties of any county elected official, more particularly including the county collector when performing such duties as deemed necessary for the distribution of any homestead appropriation and the distribution of all other real and personal property taxes.

[12.] 16. In the event that an eligible owner dies or transfers ownership of the property after the homestead exemption limit has been set in any given year, but prior to [the mailing of the tax bill] **January first of the year in which the credit would otherwise be applied**, the credit shall be void and any corresponding moneys, pursuant to subsection 10 of this section, shall lapse to the state to be credited to the general revenue fund. **In the event the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government determines prior to issuing the credit that the individual is not an eligible owner because the individual did not pay the prior three years' property tax liability in full, the credit shall be void and any**

corresponding moneys, under subsection 11 of this section, shall lapse to the state to be credited to the general revenue fund.

[13.] **17.** This section shall apply to all tax years beginning on or after January 1, 2005. This subsection shall become effective June 28, 2004.

[14.] **18.** In accordance with the provisions of sections 23.250 to 23.298, RSMo, and unless otherwise authorized pursuant to section 23.253, RSMo:

(1) Any new program authorized under the provisions of this section shall automatically sunset six years after the effective date of this section; and

(2) This section shall terminate on September first of the year following the year in which any new program authorized under this section is sunset, and the revisor of statutes shall designate such sections and this section in a revision bill for repeal.”; and

Further amend the title and enacting clause accordingly.

Senator Gross moved that the above amendment be adopted, which motion prevailed.

Senator Gibbons offered **SA 4:**

SENATE AMENDMENT NO. 4

Amend House Committee Substitute for House Bill No. 461, Page 1, In the Title, Line 3, by striking the word “business”; and

Further amend said bill, page 1, section A, line 3, by inserting immediately after said line the following:

“137.073. 1. As used in this section, the following terms mean:

(1) “General reassessment”, changes in value, entered in the assessor's books, of a substantial portion of the parcels of real property within a county resulting wholly or partly from reappraisal of value or other actions of the assessor or county equalization body or ordered by the state tax commission or any court;

(2) “Tax rate”, “rate”, or “rate of levy”, singular or plural, includes the tax rate for each purpose of taxation of property a taxing authority is authorized to levy without a vote and any tax rate authorized by election, including bond interest and sinking fund;

(3) “Tax rate ceiling”, a tax rate as revised by the taxing authority to comply with the provisions of this section or when a court has determined the tax rate; except that, other provisions of law to the contrary notwithstanding, a school district may levy the operating levy for school purposes required for the current year pursuant to subsection 2 of section 163.021, RSMo, less all adjustments required pursuant to article X, section 22 of the Missouri Constitution, if such tax rate does not exceed the highest tax rate in effect subsequent to the 1980 tax year. This is the maximum tax rate that may be levied, unless a higher tax rate ceiling is approved by voters of the political subdivision as provided in this section;

(4) “Tax revenue”, when referring to the previous year, means the actual receipts from ad valorem levies on all classes of property, including state-assessed property, in the immediately preceding fiscal year of the political subdivision, plus an allowance for taxes billed but not collected in the fiscal year and plus an additional allowance for the revenue which would have been collected from property which was annexed by such political subdivision but which was not previously used in determining tax revenue pursuant to this section. The term “tax revenue” shall not include any receipts from ad valorem levies on any property of a railroad corporation or a public utility, as these terms are defined in section 386.020, RSMo, which were assessed by the assessor of a county or city in the previous year but are assessed by the state tax commission in the current year. All school districts and those counties levying sales taxes pursuant to chapter 67, RSMo, shall include in the calculation of tax revenue an amount equivalent to that by which they reduced property tax levies as a result of sales tax pursuant to section 67.505, RSMo, and section 164.013, RSMo, in the immediately preceding fiscal year but not including any amount calculated to adjust for prior years. For purposes of political subdivisions which were authorized to levy a tax in the prior year but which did not levy such tax or levied a reduced rate, the term “tax revenue”, as used in relation to the revision of tax levies mandated by law, shall mean the revenues equal to the amount that would have been available if the voluntary rate reduction had not been made.

2. Whenever changes in assessed valuation are entered in the assessor's books for any personal property, in the aggregate, or for any subclass of real property as such subclasses are established in section 4(b) of article X of the Missouri Constitution and defined in section 137.016, the county clerk in all counties and the assessor of St. Louis City shall notify each political subdivision wholly or partially within the county or St. Louis City of the change in valuation

of each subclass of real property, individually, and personal property, in the aggregate, exclusive of new construction and improvements. All political subdivisions shall immediately revise the applicable rates of levy for each purpose for each subclass of real property, individually, and personal property, in the aggregate, for which taxes are levied to the extent necessary to produce from all taxable property, exclusive of new construction and improvements, substantially the same amount of tax revenue as was produced in the previous year for each subclass of real property, individually, and personal property, in the aggregate, except that the rate may not exceed the greater of the rate in effect in the 1984 tax year or the most recent voter-approved rate. Such tax revenue shall not include any receipts from ad valorem levies on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property. Where the taxing authority is a school district for the purposes of revising the applicable rates of levy for each subclass of real property, the tax revenues from state-assessed railroad and utility property shall be apportioned and attributed to each subclass of real property based on the percentage of the total assessed valuation of the county that each subclass of real property represents in the current taxable year. As provided in section 22 of article X of the constitution, a political subdivision may also revise each levy to allow for inflationary assessment growth occurring within the political subdivision. The inflationary growth factor for any such subclass of real property or personal property shall be limited to the actual assessment growth in such subclass or class, exclusive of new construction and improvements, and exclusive of the assessed value on any real property which was assessed by the assessor of a county or city in the current year in a different subclass of real property, but not to exceed the consumer price index or five percent, whichever is lower. Should the tax revenue of a political subdivision from the various tax rates determined in this subsection be different than the tax revenue that would have been determined from a single tax rate as calculated pursuant to the method of calculation in this subsection prior to January 1, 2003, then the political subdivision shall revise the tax rates of those subclasses of real property, individually, and/or personal property, in the aggregate, in which there is a tax rate reduction, pursuant to the provisions of this subsection. Such revision shall yield an amount equal to such difference and shall be apportioned among such subclasses of real property, individually, and/or personal property, in the aggregate, based on the relative assessed valuation of the class or subclasses of property experiencing a tax rate reduction. Such revision in the tax rates of each class or subclass shall be made by computing the percentage of current year adjusted assessed valuation of each class or subclass with a tax rate reduction to the total current year adjusted assessed valuation of the class or subclasses with a tax rate reduction, multiplying the resulting percentages by the revenue difference between the single rate calculation and the calculations pursuant to this subsection and dividing by the respective adjusted current year assessed valuation of each class or subclass to determine the adjustment to the rate to be levied upon each class or subclass of property. The adjustment computed herein shall be multiplied by one hundred, rounded to four decimals in the manner provided in this subsection, and added to the initial rate computed for each class or subclass of property. Notwithstanding any provision of this subsection to the contrary, no revision to the rate of levy for personal property shall cause such levy to increase over the levy for personal property from the prior year.

3. (1) Where the taxing authority is a school district, it shall be required to revise the rates of levy to the extent necessary to produce from all taxable property, including state-assessed railroad and utility property, which shall be separately estimated in addition to other data required in complying with section 164.011, RSMo, substantially the amount of tax revenue permitted in this section. In the year following tax rate reduction, the tax rate ceiling may be adjusted to offset such district's reduction in the apportionment of state school moneys due to its reduced tax rate. However, in the event any school district, in calculating a tax rate ceiling pursuant to this section, requiring the estimating of effects of state-assessed railroad and utility valuation or loss of state aid, discovers that the estimates used result in receipt of excess revenues, which would have required a lower rate if the actual information had been known, the school district shall reduce the tax rate ceiling in the following year to compensate for the excess receipts, and the recalculated rate shall become the tax rate ceiling for purposes of this section.

(2) For any political subdivision which experiences a reduction in the amount of assessed valuation relating to a prior year, due to decisions of the state tax commission or a court pursuant to sections 138.430 to 138.433, RSMo, or due to clerical errors or corrections in the calculation or recordation of any assessed valuation:

(a) Such political subdivision may revise the tax rate ceiling for each purpose it levies taxes to compensate for the reduction in assessed value occurring after the political subdivision calculated the tax rate ceiling for the particular subclass of real property or for personal property, in the aggregate, in the prior year. Such revision by the political

subdivision shall be made at the time of the next calculation of the tax rate for the particular subclass of real property or for personal property, in the aggregate, after the reduction in assessed valuation has been determined and shall be calculated in a manner that results in the revised tax rate ceiling being the same as it would have been had the corrected or finalized assessment been available at the time of the prior calculation;

(b) In addition, for up to three years following the determination of the reduction in assessed valuation as a result of circumstances defined in this subdivision, such political subdivision may levy a tax rate for each purpose it levies taxes above the revised tax rate ceiling provided in paragraph (a) of this subdivision to recoup any revenues it was entitled to receive for the three-year period preceding such determination.

4. (1) In order to implement the provisions of this section and section 22 of article X of the Constitution of Missouri, the term “improvements” shall apply to both real and personal property. In order to determine the value of new construction and improvements, each county assessor shall maintain a record of real property valuations in such a manner as to identify each year the increase in valuation for each political subdivision in the county as a result of new construction and improvements. The value of new construction and improvements shall include the additional assessed value of all improvements or additions to real property which were begun after and were not part of the prior year's assessment, except that the additional assessed value of all improvements or additions to real property which had been totally or partially exempt from ad valorem taxes pursuant to sections 99.800 to 99.865, RSMo, sections 135.200 to 135.255, RSMo, and section 353.110, RSMo, shall be included in the value of new construction and improvements when the property becomes totally or partially subject to assessment and payment of all ad valorem taxes. The aggregate increase in valuation of personal property for the current year over that of the previous year is the equivalent of the new construction and improvements factor for personal property. Notwithstanding any opt-out implemented pursuant to subsection 15 of section 137.115, the assessor shall certify the amount of new construction and improvements and the amount of assessed value on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property separately for each of the three subclasses of real property for each political subdivision to the county clerk in order that political subdivisions shall have this information for the purpose of calculating tax rates pursuant to this section and section 22, article X, Constitution of Missouri. In addition, the state tax commission shall certify each year to each county clerk the increase in the general price level as measured by the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency. The state tax commission shall certify the increase in such index on the latest twelve-month basis available on June first of each year over the immediately preceding prior twelve-month period in order that political subdivisions shall have this information available in setting their tax rates according to law and section 22 of article X of the Constitution of Missouri. For purposes of implementing the provisions of this section and section 22 of article X of the Missouri Constitution, the term “property” means all taxable property, including state assessed property.

(2) Each political subdivision required to revise rates of levy pursuant to this section or section 22 of article X of the Constitution of Missouri shall calculate each tax rate it is authorized to levy and, in establishing each tax rate, shall consider each provision for tax rate revision provided in this section and section 22 of article X of the Constitution of Missouri, separately and without regard to annual tax rate reductions provided in section 67.505, RSMo, and section 164.013, RSMo. Each political subdivision shall set each tax rate it is authorized to levy using the calculation that produces the lowest tax rate ceiling. It is further the intent of the general assembly, pursuant to the authority of section 10(c) of article X of the Constitution of Missouri, that the provisions of such section be applicable to tax rate revisions mandated pursuant to section 22 of article X of the Constitution of Missouri as to reestablishing tax rates as revised in subsequent years, enforcement provisions, and other provisions not in conflict with section 22 of article X of the Constitution of Missouri. Annual tax rate reductions provided in section 67.505, RSMo, and section 164.013, RSMo, shall be applied to the tax rate as established pursuant to this section and section 22 of article X of the Constitution of Missouri, unless otherwise provided by law.

5. (1) In all political subdivisions, the tax rate ceiling established pursuant to this section shall not be increased unless approved by a vote of the people. Approval of the higher tax rate shall be by at least a majority of votes cast. When a proposed higher tax rate requires approval by more than a simple majority pursuant to any provision of law or the constitution, the tax rate increase must receive approval by at least the majority required.

(2) When voters approve an increase in the tax rate, the amount of the increase shall be added to the tax rate

ceiling as calculated pursuant to this section to the extent the total rate does not exceed any maximum rate prescribed by law. If a ballot question presents a stated tax rate for approval rather than describing the amount of increase in the question, the stated tax rate approved shall be the current tax rate ceiling. The increased tax rate ceiling as approved may be applied to the total assessed valuation of the political subdivision at the setting of the next tax rate.

(3) The governing body of any political subdivision may levy a tax rate lower than its tax rate ceiling and may increase that lowered tax rate to a level not exceeding the tax rate ceiling without voter approval.

6. (1) For the purposes of calculating state aid for public schools pursuant to section 163.031, RSMo, each taxing authority which is a school district shall determine its proposed tax rate as a blended rate of the classes or subclasses of property. Such blended rate shall be calculated by first determining the total tax revenue of the property within the jurisdiction of the taxing authority, which amount shall be equal to the sum of the products of multiplying the assessed valuation of each class and subclass of property by the corresponding tax rate for such class or subclass, then dividing the total tax revenue by the total assessed valuation of the same jurisdiction, and then multiplying the resulting quotient by a factor of one-hundred. Where the taxing authority is a school district, such blended rate shall also be used by such school district for calculating revenue from state-assessed railroad and utility property as defined in chapter 151, RSMo, and for apportioning the tax rate by purpose.

(2) Each taxing authority proposing to levy a tax rate in any year shall notify the clerk of the county commission in the county or counties where the tax rate applies of its tax rate ceiling and its proposed tax rate. Each taxing authority shall express its proposed tax rate in a fraction equal to the nearest one-tenth of a cent, unless its proposed tax rate is in excess of one dollar, then one/one-hundredth of a cent. If a taxing authority shall round to one/one-hundredth of a cent, it shall round up a fraction greater than or equal to five/one-thousandth of one cent to the next higher one/one-hundredth of a cent; if a taxing authority shall round to one-tenth of a cent, it shall round up a fraction greater than or equal to five/one-hundredths of a cent to the next higher one-tenth of a cent. Any taxing authority levying a property tax rate shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating such tax rate complies with Missouri law. All forms for the calculation of rates pursuant to this section shall be promulgated as a rule and shall not be incorporated by reference. [Within thirty days after the effective date of this act,] The state auditor shall promulgate rules for any and all forms for the calculation of rates pursuant to this section which do not currently exist in rule form or that have been incorporated by reference. In addition, each taxing authority proposing to levy a tax rate for debt service shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating the tax rate for debt service complies with Missouri law. A tax rate proposed for annual debt service requirements will be prima facie valid if, after making the payment for which the tax was levied, bonds remain outstanding and the debt fund reserves do not exceed the following year's payments. The county clerk shall keep on file and available for public inspection all such information for a period of three years. The clerk shall, within three days of receipt, forward a copy of the notice of a taxing authority's tax rate ceiling and proposed tax rate and any substantiating data to the state auditor. The state auditor shall, within fifteen days of the date of receipt, examine such information and return to the county clerk his or her findings as to compliance of the tax rate ceiling with this section and as to compliance of any proposed tax rate for debt service with Missouri law. If the state auditor believes that a taxing authority's proposed tax rate does not comply with Missouri law, then the state auditor's findings shall include a recalculated tax rate, and the state auditor may request a taxing authority to submit documentation supporting such taxing authority's proposed tax rate. The county clerk shall immediately forward a copy of the auditor's findings to the taxing authority and shall file a copy of the findings with the information received from the taxing authority. The taxing authority shall have fifteen days from the date of receipt from the county clerk of the state auditor's findings and any request for supporting documentation to accept or reject in writing the rate change certified by the state auditor and to submit all requested information to the state auditor. A copy of the taxing authority's acceptance or rejection and any information submitted to the state auditor shall also be mailed to the county clerk. If a taxing authority rejects a rate change certified by the state auditor and the state auditor does not receive supporting information which justifies the taxing authority's original or any subsequent proposed tax rate, then the state auditor shall refer the perceived violations of such taxing authority to the attorney general's office and the attorney general is authorized to obtain injunctive relief to prevent the taxing authority from levying a violative tax rate.

7. No tax rate shall be extended on the tax rolls by the county clerk unless the political subdivision has complied with the foregoing provisions of this section.

8. Whenever a taxpayer has cause to believe that a taxing authority has not complied with the provisions of this

section, the taxpayer may make a formal complaint with the prosecuting attorney of the county. Where the prosecuting attorney fails to bring an action within ten days of the filing of the complaint, the taxpayer may bring a civil action pursuant to this section and institute an action as representative of a class of all taxpayers within a taxing authority if the class is so numerous that joinder of all members is impracticable, if there are questions of law or fact common to the class, if the claims or defenses of the representative parties are typical of the claims or defenses of the class, and if the representative parties will fairly and adequately protect the interests of the class. In any class action maintained pursuant to this section, the court may direct to the members of the class a notice to be published at least once each week for four consecutive weeks in a newspaper of general circulation published in the county where the civil action is commenced and in other counties within the jurisdiction of a taxing authority. The notice shall advise each member that the court will exclude him or her from the class if he or she so requests by a specified date, that the judgment, whether favorable or not, will include all members who do not request exclusion, and that any member who does not request exclusion may, if he or she desires, enter an appearance. In any class action brought pursuant to this section, the court, in addition to the relief requested, shall assess against the taxing authority found to be in violation of this section the reasonable costs of bringing the action, including reasonable attorney's fees, provided no attorney's fees shall be awarded any attorney or association of attorneys who receive public funds from any source for their services. Any action brought pursuant to this section shall be set for hearing as soon as practicable after the cause is at issue.

9. If in any action, including a class action, the court issues an order requiring a taxing authority to revise the tax rates as provided in this section or enjoins a taxing authority from the collection of a tax because of its failure to revise the rate of levy as provided in this section, any taxpayer paying his or her taxes when an improper rate is applied has erroneously paid his or her taxes in part, whether or not the taxes are paid under protest as provided in section 139.031, RSMo. The part of the taxes paid erroneously is the difference in the amount produced by the original levy and the amount produced by the revised levy. The township or county collector of taxes or the collector of taxes in any city shall refund the amount of the tax erroneously paid. The taxing authority refusing to revise the rate of levy as provided in this section shall make available to the collector all funds necessary to make refunds pursuant to this subsection. No taxpayer shall receive any interest on any money erroneously paid by him or her pursuant to this subsection. Effective in the 1994 tax year, nothing in this section shall be construed to require a taxing authority to refund any tax erroneously paid prior to or during the third tax year preceding the current tax year.

10. A taxing authority, including but not limited to a township, county collector, or collector of taxes, responsible for determining and collecting the amount of residential real property tax levied in its jurisdiction, shall report such amount of tax collected by December thirty-first of each year such property is assessed to the state tax commission. The state tax commission shall compile the tax data by county or taxing jurisdiction and submit a report to the general assembly no later than January thirty-first of the following year.

11. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void.”; and

Further amend the title and enacting clause accordingly.

Senator Gibbons moved that the above amendment be adopted, which motion prevailed.

Senator Ridgeway offered SA 5:

(5) "Taxpayer", a person, firm, a partner in a firm, corporation or a shareholder in an S corporation doing business in the state of Missouri and subject to the state income tax imposed by the provisions of chapter 143, RSMo, or a corporation subject to the annual corporation franchise tax imposed by the provisions of chapter 147, RSMo, or an insurance company paying an annual tax on its gross premium receipts in this state, or other financial institution paying taxes to the state of Missouri or any political subdivision of this state pursuant to the provisions of chapter 148, RSMo, or an express company which pays an annual tax on its gross receipts in this state pursuant to chapter 153, RSMo, or an individual subject to the state income tax imposed by the provisions of chapter 143, RSMo.

2. A taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability, in an amount equal to fifty percent of the amount such taxpayer contributed to a pregnancy resource center.

3. The amount of the tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the taxable year that the credit is claimed, and such taxpayer shall not be allowed to claim a tax credit in excess of fifty thousand dollars per taxable year. However, any tax credit that cannot be claimed in the taxable year the contribution was made may be carried over to the next four succeeding taxable years until the full credit has been claimed.

4. Except for any excess credit which is carried over pursuant to subsection 3 of this section, a taxpayer shall not be allowed to claim a tax credit unless the total amount of such taxpayer's contribution or contributions to a pregnancy resource center or centers in such taxpayer's taxable year has a value of at least one hundred dollars.

5. The director shall determine, at least annually, which facilities in this state may be classified as pregnancy resource centers. The director may require of a facility seeking to be classified as a pregnancy resource center whatever information which is reasonably necessary to make such a determination. The director shall classify a facility as a pregnancy resource center if such facility meets the definition set forth in subsection 1 of this section.

6. The director shall establish a procedure by which a taxpayer can determine if a facility has been classified as a pregnancy resource center. Pregnancy resource centers shall be permitted to decline a contribution from a taxpayer. The cumulative amount of tax credits which may be claimed by all the taxpayers contributing to pregnancy resource centers in any one fiscal year shall not exceed two million dollars. Tax credits shall be issued in the order contributions are received.

7. The director shall establish a procedure by which, from the beginning of the fiscal year until some point in time later in the fiscal year to be determined by the director, the cumulative amount of tax credits are equally apportioned among all facilities classified as pregnancy resource centers. If a pregnancy resource center fails to use all, or some percentage to be determined by the director, of its apportioned tax credits during this predetermined period of time, the director may reapportion these unused tax credits to those pregnancy resource centers that have used all, or some percentage to be determined by the director, of their apportioned tax credits during this predetermined period of time. The director may establish more than one period of time and reapportion more than once during each fiscal year. To the maximum extent possible, the director shall establish the procedure described in this subsection in such a manner as to ensure that taxpayers can claim all

the tax credits possible up to the cumulative amount of tax credits available for the fiscal year.

8. This section shall apply to all tax years ending on or after December 31, 2008.

135.631. Taxpayers shall only be permitted to redeem tax credits they can claim under section 135.630 if the director of revenue has reallocated other state tax credits to section 135.630. The director shall reallocate such other state tax credits if by law they were limited to a maximum amount during a specified time period and such amount has not been fully redeemed or is not reasonably expected to be fully redeemed.”; and

Further amend the title and enacting clause accordingly.

appointees, members of the state boards or commissions and members of the Missouri national guard.

2. No state employee shall be personally liable in any civil action brought against them in the courts of this state, in either their individual or official capacities, for conduct arising out of and in connection with their official duties on behalf of the state, whether or not such acts are ministerial or discretionary, unless the employee acted with malicious purpose, in bad faith, or in a wanton or reckless manner. The exclusive remedy for any cause of action against a state employee for acts committed within the scope of their official duties shall be an action against the state of Missouri.

3. The attorney general shall be promptly notified of any claim or suit filed against an employee for actions arising from their official duties. Liability or malpractice insurance otherwise obtained and maintained in force shall not be considered available under subsection 6 of this section to pay that portion of a judgment or claim for which the state legal expense fund is liable under subdivision (5) of subsection 2 of this section. However, an attorney may obtain liability or malpractice insurance for coverage of liability claims or judgments based upon legal practice rendered under subdivision (5) of subsection 2 of this section that exceed the amount of liability coverage provided by the state legal expense fund under subdivision (5) of subsection 2 of this section. 8. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is promulgated under the authority delegated in sections 105.711 to 105.726 shall become effective only if it has been promulgated pursuant to the provisions of chapter 536, RSMo. Nothing in this section shall be interpreted to repeal or affect the validity of any rule filed or adopted prior to August 28, 1999, if it fully complied with the provisions of chapter 536, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 1999, shall be invalid and void.

Such was the intent of the general assembly in the original enactment of sections 105.711 to 105.726, and it is made express by this section in light of the decision in Wayman Smith, III, et al. v. state of Missouri, Mo. Sup. Ct. January 11, 2005. Except that the commissioner of administration shall reimburse from the state legal expense fund, any board of police commissioners established under chapter 84, RSMo, for liability claims otherwise eligible for payment under section 105.711 paid by said boards on an equal share basis per claim up to a maximum of one million dollars per fiscal year.**

4. **If the representation of the attorney general is requested by a board of police commissioners, the attorney general shall represent, investigate, defend, negotiate, or compromise all claims under sections 105.711 to 105.726 for the board of police commissioners, any police officer, other employees, agents, representatives, or any other individual or entity acting or purporting to act on their behalf. The attorney general may establish procedures by rules and regulations promulgated under chapter 536, RSMo, under which claims must be referred for the attorney general's representation. The attorney general and the officials of the city which the police board represents shall meet and negotiate reasonable rates, fees, expenses, or charges that will fairly compensate the attorney general and the office of administration for the cost of the representation of the claims under this section.**

5. **Claims tendered to the attorney general promptly after the claim was asserted as required by section 105.716 and prior to August 28, 2005, may be investigated, defended, negotiated, or compromised by the attorney general and full payments may be made from the state legal expense fund on behalf of the entities and individuals described in this section as a result of the holding in Wayman Smith III et al. v. The division may discharge the child from the division of youth services without a further court order after the child completes the length of stay determined by the court or may retain the child for any period after the completion of the length of stay in accordance with the law.

SENATE AMENDMENT NO. 6

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 186, Page 37, Section 94.838, Line 12, by inserting immediately after said line the following:

"135.010. As used in sections 135.010 to 135.030 the following words and terms mean:

(1) "Claimant", a person or persons claiming a credit under sections 135.010 to 135.030. If the persons are eligible to file a joint federal income tax return and reside at the same address at any time during the taxable year, then the credit may only be allowed if claimed on a combined Missouri income tax return or a combined claim return reporting their combined incomes and property taxes. A claimant shall not be allowed a property tax credit unless the claimant or spouse has attained the age of sixty-five on or before the last day of the calendar year and the claimant or spouse was a resident of Missouri for the entire year, or the claimant or spouse is a veteran of any branch of the armed forces of the United States or this state who became one hundred percent disabled as a result of such service, or the claimant or spouse is disabled as defined in subdivision (2) of this section, and such claimant or spouse provides proof of such disability in such form and manner, and at such times, as the director of revenue may require, or if the claimant has reached the age of sixty on or before the last day of the calendar year and such claimant received surviving spouse Social Security benefits during the calendar year and the claimant provides proof, as required by the director of revenue, that the claimant received surviving spouse Social Security benefits during the calendar year for which the credit will be claimed. **A claimant shall not be allowed a property tax credit if the claimant filed a valid claim for a credit under section 137.106 in the year following the year for which the property tax credit is claimed.** The residency requirement shall be deemed to have been fulfilled for the purpose of determining the eligibility of a surviving spouse for a property tax credit if a person of the age of sixty-five years or older who would have otherwise met the requirements for a property tax credit dies before the last day of the calendar year. The residency requirement shall also be deemed to have been fulfilled for the purpose of determining the eligibility of a claimant who would have otherwise met the requirements for a property tax credit but who dies before the last day of the calendar year;

(2) "Disabled", the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than twelve months. A claimant shall not be required to be gainfully employed

prior to such disability to qualify for a property tax credit;

(3) "Gross rent", amount paid by a claimant to a landlord for the rental, at arm's length, of a homestead during the calendar year, exclusive of charges for health and personal care services and food furnished as part of the rental agreement, whether or not expressly set out in the rental agreement. If the director of revenue determines that the landlord and tenant have not dealt at arm's length, and that the gross rent is excessive, then he shall determine the gross rent based upon a reasonable amount of rent. Gross rent shall be deemed to be paid only if actually paid prior to the date a return is filed. The director of revenue may prescribe regulations requiring a return of information by a landlord receiving rent, certifying for a calendar year the amount of gross rent received from a tenant claiming a property tax credit and shall, by regulation, provide a method for certification by the claimant of the amount of gross rent paid for any calendar year for which a claim is made. The regulations authorized by this subdivision may require a landlord or a tenant or both to provide data relating to health and personal care services and to food. Neither a landlord nor a tenant may be required to provide data relating to utilities, furniture, home furnishings or appliances;

(4) "Homestead", the dwelling in Missouri owned or rented by the claimant and not to exceed five acres of land surrounding it as is reasonably necessary for use of the dwelling as a home. It may consist of part of a multidwelling or multipurpose building and part of the land upon which it is built. "Owned" includes a vendee in possession under a land contract and one or more tenants by the entireties, joint tenants, or tenants in common and includes a claimant actually in possession if he was the immediate former owner of record, if a lineal descendant is presently the owner of record, and if the claimant actually pays all taxes upon the property. It may include a mobile home;

(5) "Income", Missouri adjusted gross income as defined in section 143.121, RSMo, less two thousand dollars as an exemption for the claimant's spouse residing at the same address, and increased, where necessary, to reflect the following:

(a) Social Security, railroad retirement, and veterans payments and benefits unless the claimant is a one hundred percent service-connected, disabled veteran or a spouse of a one hundred percent service-connected, disabled veteran. The one hundred percent service-connected disabled veteran shall not be required to list veterans payments and benefits;

(b) The total amount of all other public and private pensions and annuities;

(c) Public relief, public assistance, and unemployment benefits received in cash, other than benefits received under this chapter;

(d) No deduction being allowed for losses not incurred in a trade or business;

(e) Interest on the obligations of the United States, any state, or any of their subdivisions and instrumentalities;

(6) "Property taxes accrued", property taxes paid, exclusive of special assessments, penalties, interest, and charges for service levied on a claimant's homestead in any calendar year. Property taxes shall qualify for the credit only if actually paid prior to the date a return is filed. The director of revenue shall require a tax receipt or other proof of property tax payment. If a homestead is owned only partially by claimant, then "property taxes accrued" is that part of property taxes levied on the homestead which was actually paid by the claimant. For purposes of this subdivision, property taxes are "levied" when the tax roll is delivered to the director of revenue for collection. If a claimant owns a homestead part of the preceding calendar year and rents it or a different homestead for part of the same year, "property taxes accrued" means only taxes levied on the homestead both owned and occupied by the claimant, multiplied by the percentage of twelve months that such property was owned and occupied as the homestead of the claimant during the year. When a claimant owns and occupies two or more different homesteads in the same calendar year, property taxes accrued shall be the sum of taxes allocable to those several properties occupied by the claimant as a homestead for the year. If a homestead is an integral part of a larger unit such as a farm, or multipurpose or multidwelling building, property taxes accrued shall be that percentage of the total property taxes accrued as the value of the homestead is of the total value. For purposes of this subdivision "unit" refers to the parcel of property covered by a single tax statement of which the homestead is a part;

(7) "Rent constituting property taxes accrued", twenty percent of the gross rent paid by a claimant and spouse in the calendar year.

(5) "Homestead", as such term is defined pursuant to section 135.010, RSMo, except as limited by provisions of this section to the contrary. (6) "Homestead exemption limit", a percentage increase, rounded to the nearest hundredth of a percent, which shall be equal to the percentage increase to tax liability, not including improvements, of a homestead from one tax year to the next that exceeds a certain percentage set pursuant to subsection [8] **10** of this section. **For applications filed in 2005 or 2006, the homestead exemption limit shall be based on the increase to tax liability from 2004 to 2005. For applications filed between April 1, 2005 and September 30, 2006, an eligible owner, who otherwise satisfied the requirements of this section, shall not apply for the homestead exemption credit more than once during such period. Pursuant to article X, section 6(a) of the Constitution of Missouri, if in the prior tax year, the property tax liability on any parcel of subclass (1) real property increased by more than the homestead exemption limit, without regard for any prior credit received due to the provisions of this section, then any eligible owner of the property shall receive a homestead exemption credit to be applied in the current tax year property tax liability to offset the prior year increase to tax liability that exceeds the homestead exemption limit, except as eligibility for the credit is limited by the provisions of this section. The amount of the credit shall be listed separately on each taxpayer's tax bill for the current tax year, or on a document enclosed with the taxpayer's bill. The homestead exemption credit shall not affect the process of setting the tax rate as required pursuant to article X, section 22 of the Constitution of Missouri and section 137.073 in any prior, current, or subsequent tax year.

4. **If application is made in 2005**, any potential eligible owner may apply for the homestead exemption credit by completing an application through their local assessor's office. Applications may be completed between April first and

September thirtieth of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided to the assessor's office by the department. Forms also shall be made available on the department's Internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. 5. If application is made in 2005, the assessor, upon [receiving] **request for** an application, shall:

(3) Record on the application the assessed valuation of the homestead for the current tax year, and any new construction or improvements for the current tax year; and

6. If application is made after 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application. Applications may be completed between April 1 and September 30 of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided by the department. Forms also shall be made available on the department's internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall attest under penalty of perjury:

- (1) To the applicant's age;**
- (2) That the applicant's prior year income was less than the maximum upper limit;**
- (3) To the address of the homestead property;**
- (4) That any improvements made to the homestead, not made to accommodate a disabled person, did not total more than five percent of the prior year appraised value; and**

(5) The applicant shall also include with the application copies of receipts indicating payment of property tax by the applicant for the homestead property for the three prior tax years.

7. Each applicant shall send the application to the department by September thirtieth of each year for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the application was completed.

[7.] **8. If application is made in 2005**, upon receipt of the applications, the department shall calculate the tax liability, adjusted to exclude new construction or improvements verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant has also filed a valid application for the senior citizens property tax credit, pursuant to sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit, and provide a list of all verified eligible owners to the county collectors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county collectors or county clerks in counties with a township form of government shall provide a list to the department of any verified eligible owners who failed to pay the property tax due for the tax year that ended immediately prior. Such eligible owners shall be disqualified from receiving the credit in the current tax year.

[8.] **9. If application is made after 2005, upon receipt of the applications, the department shall calculate the tax liability, verify compliance with the maximum income limit, verify the age of the applicants, and make**

adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant also has filed a valid application for the senior citizens property tax credit under sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income is verified, the director shall determine eligibility for the credit and provide a list of all verified eligible owners to the county assessors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county assessors shall provide a list to the department of any verified eligible owners who made improvements not for accommodation of a disability to the homestead and the dollar amount of the assessed value of such improvements. If the dollar amount of the assessed value of such improvements totaled more than five percent of the prior year appraised value, such eligible owners shall be disqualified from receiving the credit in the current tax year.

10. The director shall calculate the level of appropriation necessary to set the homestead exemption limit at five percent when based on a year of general reassessment or at two and one-half percent when based on a year without general reassessment for the homesteads of all verified eligible owners, and provide such calculation to the speaker of the house of representatives, the president pro tempore of the senate, and the director of the office of budget and planning in the office of administration by January thirty-first of each year.

[9.] 11. [If, in any given year,] **For applications made in 2005**, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all but one-quarter of one percent of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. The remaining one-quarter of one percent shall be distributed to the county assessment funds of each county on a proportional basis, based on the number of eligible owners in each county; such one-quarter percent distribution shall be delineated in any such appropriation as a separate line item in the total appropriation. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

[10.] 12. After setting the homestead exemption limit **for applications made in 2005**, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation **and assessment fund allocation** to the county collector's funds of each county **or the treasurer ex officio collector's fund in counties with a township form of government** where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued, plus the one-quarter of one percent distribution for the county assessment funds. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section plus the one-quarter of one percent distribution for the county assessment funds. Funds, at the direction of the county collector **or the treasurer ex officio collector in counties with a township form of government**, shall be deposited in the county collector's fund of a county **or the treasurer ex officio collector's fund** or may be sent by mail to the collector of a county, **or the treasurer ex officio collector in counties with a township form of government**, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues **by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government**, so as to exactly offset each homestead exemption credit being issued. **In counties with a township form of government, the county clerk shall provide the treasurer ex officio collector a summary of the homestead exemption credit for each township for the purpose of distributing the total homestead exemption credit to each township collector in a particular county.**

[11.] 13. If, in any given year after 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax

liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

14. After setting the homestead exemption limit for applications made after 2005, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation to the county collector's fund of each county where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section. Funds, at the direction of the collector of the county or treasurer ex-officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or may be sent by mail to the collector of a county, or treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued.

15. The department shall promulgate rules for implementation of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void. Any rule promulgated by the department shall in no way impact, affect, interrupt, or interfere with the performance of the required statutory duties of any county elected official, more particularly including the county collector when performing such duties as deemed necessary for the distribution of any homestead appropriation and the distribution of all other real and personal property taxes.

[12.] 16. In the event that an eligible owner dies or transfers ownership of the property after the homestead exemption limit has been set in any given year, but prior to [the mailing of the tax bill] **January first of the year in which the credit would otherwise be applied**, the credit shall be void and any corresponding moneys, pursuant to subsection 10 of this section, shall lapse to the state to be credited to the general revenue fund. **In the event the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government determines prior to issuing the credit that the individual is not an eligible owner because the individual did not pay the prior three years' property tax liability in full, the credit shall be void and any corresponding moneys, under subsection 11 of this section, shall lapse to the state to be credited to the general revenue fund.**

[13.] 17. This section shall apply to all tax years beginning on or after January 1, 2005. This subsection shall become effective June 28, 2004.

[14.] 18. In accordance with the provisions of sections 23.250 to 23.298, RSMo, and unless otherwise authorized pursuant to section 23.253, RSMo:

(1) Any new program authorized under the provisions of this section shall automatically sunset six years after the effective date of this section; and

(2) This section shall terminate on September first of the year following the year in which any new program authorized under this section is sunset, and the revisor of statutes shall designate such sections and this section in a

revision bill for repeal.”; and

Further amend the title and enacting clause accordingly.

Senator Gross moved that the above amendment be adopted, which motion prevailed.

Senator Crowell assumed the Chair.

Senator Gross offered **SA 10**:

SENATE AMENDMENT NO. 10

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 186, Page 37, Section 94.838, Line 12, by inserting immediately after said line the following:

“137.073. 1. As used in this section, the following terms mean:

- (1) “General reassessment”, changes in value, entered in the assessor's books, of a substantial portion of the parcels of real property within a county resulting wholly or partly from reappraisal of value or other actions of the assessor or county equalization body or ordered by the state tax commission or any court;
- (2) “Tax rate”, “rate”, or “rate of levy”, singular or plural, includes the tax rate for each purpose of taxation of property a taxing authority is authorized to levy without a vote and any tax rate authorized by election, including bond interest and sinking fund;
- (3) “Tax rate ceiling”, a tax rate as revised by the taxing authority to comply with the provisions of this section or when a court has determined the tax rate; except that, other provisions of law to the contrary notwithstanding, a school

district may levy the operating levy for school purposes required for the current year pursuant to subsection 2 of section 163.021, RSMo, less all adjustments required pursuant to article X, section 22 of the Missouri Constitution, if such tax rate does not exceed the highest tax rate in effect subsequent to the 1980 tax year. This is the maximum tax rate that may be levied, unless a higher tax rate ceiling is approved by voters of the political subdivision as provided in this section;

(4) "Tax revenue", when referring to the previous year, means the actual receipts from ad valorem levies on all classes of property, including state-assessed property, in the immediately preceding fiscal year of the political subdivision, plus an allowance for taxes billed but not collected in the fiscal year and plus an additional allowance for the revenue which would have been collected from property which was annexed by such political subdivision but which was not previously used in determining tax revenue pursuant to this section. The term "tax revenue" shall not include any receipts from ad valorem levies on any property of a railroad corporation or a public utility, as these terms are defined in section 386.020, RSMo, which were assessed by the assessor of a county or city in the previous year but are assessed by the state tax commission in the current year. All school districts and those counties levying sales taxes pursuant to chapter 67, RSMo, shall include in the calculation of tax revenue an amount equivalent to that by which they reduced property tax levies as a result of sales tax pursuant to section 67.505, RSMo, and section 164.013, RSMo, **or as excess home dock city or county fees as provided in subsection 4 of section 313.820, RSMo**, in the immediately preceding fiscal year but not including any amount calculated to adjust for prior years. For purposes of political subdivisions which were authorized to levy a tax in the prior year but which did not levy such tax or levied a reduced rate, the term "tax revenue", as used in relation to the revision of tax levies mandated by law, shall mean the revenues equal to the amount that would have been available if the voluntary rate reduction had not been made.

2. Whenever changes in assessed valuation are entered in the assessor's books for any personal property, in the aggregate, or for any subclass of real property as such subclasses are established in section 4(b) of article X of the Missouri Constitution and defined in section 137.016, the county clerk in all counties and the assessor of St. Louis City shall notify each political subdivision wholly or partially within the county or St. Louis City of the change in valuation of each subclass of real property, individually, and personal property, in the aggregate, exclusive of new construction and improvements. All political subdivisions shall immediately revise the applicable rates of levy for each purpose for each subclass of real property, individually, and personal property, in the aggregate, for which taxes are levied to the extent necessary to produce from all taxable property, exclusive of new construction and improvements, substantially the same amount of tax revenue as was produced in the previous year for each subclass of real property, individually, and personal property, in the aggregate, except that the rate may not exceed the greater of the rate in effect in the 1984 tax year or the most recent voter-approved rate. Such tax revenue shall not include any receipts from ad valorem levies on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property. Where the taxing authority is a school district for the purposes of revising the applicable rates of levy for each subclass of real property, the tax revenues from state-assessed railroad and utility property shall be apportioned and attributed to each subclass of real property based on the percentage of the total assessed valuation of the county that each subclass of real property represents in the current taxable year. As provided in section 22 of article X of the constitution, a political subdivision may also revise each levy to allow for inflationary assessment growth occurring within the political subdivision. The inflationary growth factor for any such subclass of real property or personal property shall be limited to the actual assessment growth in such subclass or class, exclusive of new construction and improvements, and exclusive of the assessed value on any real property which was assessed by the assessor of a county or city in the current year in a different subclass of real property, but not to exceed the consumer price index or five percent, whichever is lower. Should the tax revenue of a political subdivision from the various tax rates determined in this subsection be different than the tax revenue that would have been determined from a single tax rate as calculated pursuant to the method of calculation in this subsection prior to January 1, 2003, then the political subdivision shall revise the tax rates of those subclasses of real property, individually, and/or personal property, in the aggregate, in which there is a tax rate reduction, pursuant to the provisions of this subsection. Such revision shall yield an amount equal to such difference and shall be apportioned among such subclasses of real property, individually, and/or personal property, in the aggregate, based on the relative assessed valuation of the class or subclasses of property experiencing a tax rate reduction. Such revision in the tax rates of each class or subclass shall be made by computing the percentage of current year adjusted assessed valuation of each class or subclass with a tax rate reduction to the total current year

adjusted assessed valuation of the class or subclasses with a tax rate reduction, multiplying the resulting percentages by the revenue difference between the single rate calculation and the calculations pursuant to this subsection and dividing by the respective adjusted current year assessed valuation of each class or subclass to determine the adjustment to the rate to be levied upon each class or subclass of property. The adjustment computed herein shall be multiplied by one hundred, rounded to four decimals in the manner provided in this subsection, and added to the initial rate computed for each class or subclass of property. Notwithstanding any provision of this subsection to the contrary, no revision to the rate of levy for personal property shall cause such levy to increase over the levy for personal property from the prior year.

3. (1) Where the taxing authority is a school district, it shall be required to revise the rates of levy to the extent necessary to produce from all taxable property, including state-assessed railroad and utility property, which shall be separately estimated in addition to other data required in complying with section 164.011, RSMo, substantially the amount of tax revenue permitted in this section. In the year following tax rate reduction, the tax rate ceiling may be adjusted to offset such district's reduction in the apportionment of state school moneys due to its reduced tax rate. However, in the event any school district, in calculating a tax rate ceiling pursuant to this section, requiring the estimating of effects of state-assessed railroad and utility valuation or loss of state aid, discovers that the estimates used result in receipt of excess revenues, which would have required a lower rate if the actual information had been known, the school district shall reduce the tax rate ceiling in the following year to compensate for the excess receipts, and the recalculated rate shall become the tax rate ceiling for purposes of this section.

(2) For any political subdivision which experiences a reduction in the amount of assessed valuation relating to a prior year, due to decisions of the state tax commission or a court pursuant to sections 138.430 to 138.433, RSMo, or due to clerical errors or corrections in the calculation or recordation of any assessed valuation:

(a) Such political subdivision may revise the tax rate ceiling for each purpose it levies taxes to compensate for the reduction in assessed value occurring after the political subdivision calculated the tax rate ceiling for the particular subclass of real property or for personal property, in the aggregate, in the prior year. Such revision by the political subdivision shall be made at the time of the next calculation of the tax rate for the particular subclass of real property or for personal property, in the aggregate, after the reduction in assessed valuation has been determined and shall be calculated in a manner that results in the revised tax rate ceiling being the same as it would have been had the corrected or finalized assessment been available at the time of the prior calculation;

(b) In addition, for up to three years following the determination of the reduction in assessed valuation as a result of circumstances defined in this subdivision, such political subdivision may levy a tax rate for each purpose it levies taxes above the revised tax rate ceiling provided in paragraph (a) of this subdivision to recoup any revenues it was entitled to receive for the three-year period preceding such determination.

4. (1) In order to implement the provisions of this section and section 22 of article X of the Constitution of Missouri, the term "improvements" shall apply to both real and personal property. In order to determine the value of new construction and improvements, each county assessor shall maintain a record of real property valuations in such a manner as to identify each year the increase in valuation for each political subdivision in the county as a result of new construction and improvements. The value of new construction and improvements shall include the additional assessed value of all improvements or additions to real property which were begun after and were not part of the prior year's assessment, except that the additional assessed value of all improvements or additions to real property which had been totally or partially exempt from ad valorem taxes pursuant to sections 99.800 to 99.865, RSMo, sections 135.200 to 135.255, RSMo, and section 353.110, RSMo, shall be included in the value of new construction and improvements when the property becomes totally or partially subject to assessment and payment of all ad valorem taxes. The aggregate increase in valuation of personal property for the current year over that of the previous year is the equivalent of the new construction and improvements factor for personal property. Notwithstanding any opt-out implemented pursuant to subsection 15 of section 137.115, the assessor shall certify the amount of new construction and improvements and the amount of assessed value on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property separately for each of the three subclasses of real property for each political subdivision to the county clerk in order that political subdivisions shall have this information for the purpose of calculating tax rates pursuant to this section and section 22, article X, Constitution of Missouri. In addition, the state tax commission shall certify each year to each county clerk the increase in the general price level as measured by the Consumer Price Index

for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency. The state tax commission shall certify the increase in such index on the latest twelve-month basis available on June first of each year over the immediately preceding prior twelve-month period in order that political subdivisions shall have this information available in setting their tax rates according to law and section 22 of article X of the Constitution of Missouri. For purposes of implementing the provisions of this section and section 22 of article X of the Missouri Constitution, the term "property" means all taxable property, including state assessed property.

(2) Each political subdivision required to revise rates of levy pursuant to this section or section 22 of article X of the Constitution of Missouri shall calculate each tax rate it is authorized to levy and, in establishing each tax rate, shall consider each provision for tax rate revision provided in this section and section 22 of article X of the Constitution of Missouri, separately and without regard to annual tax rate reductions provided in section 67.505, RSMo, and section 164.013, RSMo. Each political subdivision shall set each tax rate it is authorized to levy using the calculation that produces the lowest tax rate ceiling. It is further the intent of the general assembly, pursuant to the authority of section 10(c) of article X of the Constitution of Missouri, that the provisions of such section be applicable to tax rate revisions mandated pursuant to section 22 of article X of the Constitution of Missouri as to reestablishing tax rates as revised in subsequent years, enforcement provisions, and other provisions not in conflict with section 22 of article X of the Constitution of Missouri. Annual tax rate reductions provided in section 67.505, RSMo, and section 164.013, RSMo, shall be applied to the tax rate as established pursuant to this section and section 22 of article X of the Constitution of Missouri, unless otherwise provided by law.

5. (1) In all political subdivisions, the tax rate ceiling established pursuant to this section shall not be increased unless approved by a vote of the people. Approval of the higher tax rate shall be by at least a majority of votes cast. When a proposed higher tax rate requires approval by more than a simple majority pursuant to any provision of law or the constitution, the tax rate increase must receive approval by at least the majority required.

(2) When voters approve an increase in the tax rate, the amount of the increase shall be added to the tax rate ceiling as calculated pursuant to this section to the extent the total rate does not exceed any maximum rate prescribed by law. If a ballot question presents a stated tax rate for approval rather than describing the amount of increase in the question, the stated tax rate approved shall be the current tax rate ceiling. The increased tax rate ceiling as approved may be applied to the total assessed valuation of the political subdivision at the setting of the next tax rate.

(3) The governing body of any political subdivision may levy a tax rate lower than its tax rate ceiling and may increase that lowered tax rate to a level not exceeding the tax rate ceiling without voter approval.

6. (1) For the purposes of calculating state aid for public schools pursuant to section 163.031, RSMo, each taxing authority which is a school district shall determine its proposed tax rate as a blended rate of the classes or subclasses of property. Such blended rate shall be calculated by first determining the total tax revenue of the property within the jurisdiction of the taxing authority, which amount shall be equal to the sum of the products of multiplying the assessed valuation of each class and subclass of property by the corresponding tax rate for such class or subclass, then dividing the total tax revenue by the total assessed valuation of the same jurisdiction, and then multiplying the resulting quotient by a factor of one-hundred. Where the taxing authority is a school district, such blended rate shall also be used by such school district for calculating revenue from state-assessed railroad and utility property as defined in chapter 151, RSMo, and for apportioning the tax rate by purpose.

(2) Each taxing authority proposing to levy a tax rate in any year shall notify the clerk of the county commission in the county or counties where the tax rate applies of its tax rate ceiling and its proposed tax rate. Each taxing authority shall express its proposed tax rate in a fraction equal to the nearest one-tenth of a cent, unless its proposed tax rate is in excess of one dollar, then one/one-hundredth of a cent. If a taxing authority shall round to one/one-hundredth of a cent, it shall round up a fraction greater than or equal to five/one-thousandth of one cent to the next higher one/one-hundredth of a cent; if a taxing authority shall round to one-tenth of a cent, it shall round up a fraction greater than or equal to five/one-hundredths of a cent to the next higher one-tenth of a cent. Any taxing authority levying a property tax rate shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating such tax rate complies with Missouri law. All forms for the calculation of rates pursuant to this section shall be promulgated as a rule and shall not be incorporated by reference. Within thirty days after the effective date of this act, the state auditor shall promulgate rules for any and all forms for the calculation of rates pursuant to this

section which do not currently exist in rule form or that have been incorporated by reference. In addition, each taxing authority proposing to levy a tax rate for debt service shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating the tax rate for debt service complies with Missouri law. A tax rate proposed for annual debt service requirements will be prima facie valid if, after making the payment for which the tax was levied, bonds remain outstanding and the debt fund reserves do not exceed the following year's payments. The county clerk shall keep on file and available for public inspection all such information for a period of three years. The clerk shall, within three days of receipt, forward a copy of the notice of a taxing authority's tax rate ceiling and proposed tax rate and any substantiating data to the state auditor. The state auditor shall, within fifteen days of the date of receipt, examine such information and return to the county clerk his or her findings as to compliance of the tax rate ceiling with this section and as to compliance of any proposed tax rate for debt service with Missouri law. If the state auditor believes that a taxing authority's proposed tax rate does not comply with Missouri law, then the state auditor's findings shall include a recalculated tax rate, and the state auditor may request a taxing authority to submit documentation supporting such taxing authority's proposed tax rate. The county clerk shall immediately forward a copy of the auditor's findings to the taxing authority and shall file a copy of the findings with the information received from the taxing authority. The taxing authority shall have fifteen days from the date of receipt from the county clerk of the state auditor's findings and any request for supporting documentation to accept or reject in writing the rate change certified by the state auditor and to submit all requested information to the state auditor. A copy of the taxing authority's acceptance or rejection and any information submitted to the state auditor shall also be mailed to the county clerk. If a taxing authority rejects a rate change certified by the state auditor and the state auditor does not receive supporting information which justifies the taxing authority's original or any subsequent proposed tax rate, then the state auditor shall refer the perceived violations of such taxing authority to the attorney general's office and the attorney general is authorized to obtain injunctive relief to prevent the taxing authority from levying a violative tax rate.

7. No tax rate shall be extended on the tax rolls by the county clerk unless the political subdivision has complied with the foregoing provisions of this section.

8. Whenever a taxpayer has cause to believe that a taxing authority has not complied with the provisions of this section, the taxpayer may make a formal complaint with the prosecuting attorney of the county. Where the prosecuting attorney fails to bring an action within ten days of the filing of the complaint, the taxpayer may bring a civil action pursuant to this section and institute an action as representative of a class of all taxpayers within a taxing authority if the class is so numerous that joinder of all members is impracticable, if there are questions of law or fact common to the class, if the claims or defenses of the representative parties are typical of the claims or defenses of the class, and if the representative parties will fairly and adequately protect the interests of the class. In any class action maintained pursuant to this section, the court may direct to the members of the class a notice to be published at least once each week for four consecutive weeks in a newspaper of general circulation published in the county where the civil action is commenced and in other counties within the jurisdiction of a taxing authority. The notice shall advise each member that the court will exclude him or her from the class if he or she so requests by a specified date, that the judgment, whether favorable or not, will include all members who do not request exclusion, and that any member who does not request exclusion may, if he or she desires, enter an appearance. In any class action brought pursuant to this section, the court, in addition to the relief requested, shall assess against the taxing authority found to be in violation of this section the reasonable costs of bringing the action, including reasonable attorney's fees, provided no attorney's fees shall be awarded any attorney or association of attorneys who receive public funds from any source for their services. Any action brought pursuant to this section shall be set for hearing as soon as practicable after the cause is at issue.

9. If in any action, including a class action, the court issues an order requiring a taxing authority to revise the tax rates as provided in this section or enjoins a taxing authority from the collection of a tax because of its failure to revise the rate of levy as provided in this section, any taxpayer paying his or her taxes when an improper rate is applied has erroneously paid his or her taxes in part, whether or not the taxes are paid under protest as provided in section 139.031, RSMo. The part of the taxes paid erroneously is the difference in the amount produced by the original levy and the amount produced by the revised levy. The township or county collector of taxes or the collector of taxes in any city shall refund the amount of the tax erroneously paid. The taxing authority refusing to revise the rate of levy as provided in this section shall make available to the collector all funds necessary to make refunds pursuant to this subsection. No taxpayer shall receive any interest on any money erroneously paid by him or her pursuant to this subsection. Effective in the 1994 tax year, nothing in this section shall be construed to require a taxing authority to refund any tax

erroneously paid prior to or during the third tax year preceding the current tax year.

10. A taxing authority, including but not limited to a township, county collector, or collector of taxes, responsible for determining and collecting the amount of residential real property tax levied in its jurisdiction, shall report such amount of tax collected by December thirty-first of each year such property is assessed to the state tax commission. The state tax commission shall compile the tax data by county or taxing jurisdiction and submit a report to the general assembly no later than January thirty-first of the following year.

11. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void.”; and

Further amend said bill, page 47, section 210.861, line 13, by inserting immediately after said line the following:

(19) “Supplier”, a person who sells or leases gambling equipment and gambling supplies to any licensee.

2. In addition to the games of skill referred to in subdivision [(12)] **(14)** of subsection 1 of this section, the commission may approve other games of skill upon receiving a petition requesting approval of a gambling game from any applicant or licensee. The commission may set the matter for hearing by serving the applicant or licensee with written notice of the time and place of the hearing not less than five days prior to the date of the hearing and posting a public notice at each commission office. The commission shall require the applicant or licensee to pay the cost of placing a notice in a newspaper of general circulation in the applicant's or licensee's home dock city or county. The burden of proof that the gambling game is a game of skill is at all times on the petitioner. The petitioner shall have the affirmative responsibility of establishing his or her case by a preponderance of evidence including:

(1) Is it in the best interest of gaming to allow the game; and

(2) Is the gambling game a game of chance or a game of skill?

All testimony shall be given under oath or affirmation. Any citizen of this state shall have the opportunity to testify on the merits of the petition. The commission may subpoena witnesses to offer expert testimony. Upon conclusion of the hearing, the commission shall evaluate the record of the hearing and issue written findings of fact that shall be based exclusively on the evidence and on matters officially noticed. The commission shall then render a written decision on the merits which shall contain findings of fact, conclusions of law and a final commission order. The final commission order shall be within thirty days of the hearing. Copies of the final commission order shall be served on the petitioner by certified or overnight express mail, postage prepaid, or by personal delivery.

313.820. 1. An excursion boat licensee shall pay to the commission an admission fee of two dollars for each person embarking on an excursion gambling boat with a ticket of admission. One dollar of such fee shall be deposited to the credit of the gaming commission fund as authorized pursuant to section 313.835, and one dollar of such fee shall not be considered state funds and shall be paid to the home dock city or county. Subject to appropriation, one cent of such fee deposited to the credit of the gaming commission fund may be deposited to the credit of the compulsive gamblers fund created pursuant to the provisions of section 313.842. Nothing in this section shall preclude any licensee from charging any amount deemed necessary for a ticket of admission to any person embarking on an excursion gambling boat. If tickets are issued which are good for more than one excursion, the admission fee shall be paid to the commission for each person using the ticket on each excursion that the ticket is used. If free passes or complimentary admission tickets are issued, the excursion boat licensee shall pay to the commission the same fee upon these passes or complimentary tickets as if they were sold at the regular and usual admission rate; however, the excursion boat licensee may issue fee-free passes to actual and necessary officials and employees of the licensee or other persons actually working on the excursion gambling boat. The issuance of fee-free passes is subject to the rules of the commission, and a list of all persons to whom the fee-free passes are issued shall be filed with the commission.

2. All licensees are subject to all income taxes, sales taxes, earnings taxes, use taxes, property taxes or any other tax or fee now or hereafter lawfully levied by any political subdivision; however, no other license tax, permit tax, occupation tax, excursion fee, or taxes or fees shall be imposed, levied or assessed exclusively upon licensees by a

political subdivision. All state taxes not connected directly to gambling games shall be collected by the department of revenue. Notwithstanding the provisions of section 32.057, RSMo, to the contrary, the department of revenue may furnish and the commission may receive tax information to determine if applicants or licensees are complying with the tax laws of this state; however, any tax information acquired by the commission shall not become public record and shall be used exclusively for commission business.

3. Effective fiscal year 2008 and each fiscal year thereafter, the amount of revenue derived from admission fees paid to a home dock city or county shall not exceed the percentage of gross revenue realized by the home dock city or county attributable to such admission fees for fiscal year 2007. In the case of a new casino, the provisions of this section shall become effective two years from the opening of such casino and the amount of revenue derived from admission fees paid to a home dock city or county shall not exceed the average percentage of gross revenue realized by the home dock city or county attributable to such admission fees for the first two fiscal years in which such casino opened for business. Effective fiscal year 2010 and each subsequent fiscal year until fiscal year 2015, the percentage of all revenue derived by a home dock city or county from such admission fees used for expenditures other than capital, cultural, and special law enforcement purpose expenditures shall be limited to not more than thirty percent. Effective fiscal year 2015 and each subsequent fiscal, the percentage of all revenue derived by a home dock city or county from such admission fees used for expenditures other than capital, cultural, and special law enforcement purpose expenditures shall be limited to not more than twenty percent.

4. After fiscal year 2007, in any fiscal year in which a home dock city or county collects an amount over the limitation on revenue derived from admission fees provided in subsection 1 of this section, such revenue shall be treated as if it were sales tax revenue within the meaning of section 67.505, RSMo, provided that the home dock city or county shall reduce its total general revenue property tax levy, in accordance with the method provided in subdivision (6) of subsection 3 of section 67.505, RSMo.

5. The provisions of subsections 3 and 4 of this section shall not affect the imposition or collection of a tax under section 313.822.

6. The provisions of subsections 3 and 4 of this section shall not apply to any city of the third classification with more than eight thousand two hundred but fewer than eight thousand three hundred inhabitants, any county of the third classification without a township form of government and with more than sixteen thousand six hundred but fewer than sixteen thousand seven hundred inhabitants, any county of the third classification without a township form of government and with more than ten thousand two hundred but fewer than ten thousand three hundred inhabitants, any home rule city with more than four hundred thousand inhabitants and located in more than one county, any county of the first classification with more than one hundred eighty-four thousand but fewer than one hundred eighty-eight thousand inhabitants, any city of the fourth classification with more than two thousand nine hundred but fewer than three thousand inhabitants and located in any county of the first classification with more than seventy-three thousand seven hundred but fewer than seventy-three thousand eight hundred inhabitants, any county of the first classification with more than seventy-three thousand seven hundred but fewer than seventy-three thousand eight hundred inhabitants, any city of the third classification with more than six thousand seven hundred but fewer than six thousand eight hundred inhabitants and located in any county of the third classification without a township form of government and with more than twenty thousand but fewer than twenty thousand one hundred inhabitants, any county of the third classification without a township form of government and with more than twenty thousand but fewer than twenty thousand one hundred inhabitants, any city of the third classification with more than four thousand seven hundred but fewer than four thousand eight hundred inhabitants and located in any county of the first classification with more than one hundred eighty-four thousand but fewer than one hundred eighty-eight thousand inhabitants, any city of the third classification with more than twenty-five thousand seven hundred but fewer than twenty-five thousand nine hundred inhabitants, any county with a charter form of government and with more than one million inhabitants, any county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants, any special charter city with more than nine hundred fifty but fewer than one thousand fifty inhabitants, any county of the third classification without a township form of government and with more than ten thousand four hundred but fewer than ten thousand five hundred inhabitants, any city not within a county, any home rule city with more than seventy-

three thousand but fewer than seventy-five thousand inhabitants, and any county of the first classification with more than eighty-five thousand nine hundred but fewer than eighty-six thousand inhabitants.”; and

Further amend the title and enacting clause accordingly.

Senator Gross moved that the above amendment be adopted, which motion prevailed.

Senator Coleman offered **SA 11:**

SEVENTIETH DAY—FRIDAY, MAY 13, 2005

The Senate met pursuant to adjournment.

Senator Griesheimer in the Chair.

Reverend Carl Gauck offered the following prayer:

“Steadfast love belongs to you, O Lord. For you repay to all according to their work.” (Psalm 63:12)

Gracious God, we know that this is our last day of this session and there are things we still want to accomplish and work to complete; so we pray, walk with us and sustain us that we may reach the end of this day knowing we have done all things as unto You. We pray, bless our work and let it be according to Your will and the intended actions accomplish what we have worked towards this session. And bring us to that place where we may know Your peace in our mind, body, spirit and community that produces an integrated wholeness and effectiveness in our daily living. In Your Holy Name we pray. Amen.

Senator Stouffer offered the following constitutional objection:

May 10, 2005

Mrs. Terry Spieler

Missouri Senate

State Capitol

Jefferson City, MO 65101

RE: Conference Committee Substitute for HCS/SS/SCS/SB 237.

This is to notify you and others that I hereby am filing a constitutional objection to said bill for the following reasons:

1. That CCS/HCS/SS/SCS/SB 237, by allowing a private cable company to place its lines within the right of way of Missouri's state highways without compensating the owner of the property underlying the right of way, is in violation of Article I, Section 28 of the Bill of Rights of the Missouri Constitution which states that private property shall not be taken for private use without compensation.
2. That CCS/HCS/SS/SCS/SB 237, by allowing a private cable company to place its lines within the right of way of Missouri's state highways without compensating the owner of the property underlying the right of way, grants to a private company a special privilege in violation of Article 3, Section 40(28) of the Missouri Constitution and contrary to the decision of the Missouri Supreme Court in *Planned Industrial Expansion Authority of the City of St. Louis v. Southwestern Bell Telephone*, 612 S.W. 2d 772 (Mo 1981).

Sincerely,
/s/ Bill Stouffer
